

BIOLOGY

Translation of BIOLOGY Terms

SECONDARY (9-12)

ENGLISH / Haitian Creole

Student Name: _____

This glossary is to PROVIDE PERMITTED TESTING ACCOMMODATIONS of ELL students. It should also be used for INSTRUCTION during the school year. The glossary may be downloaded, printed, and distributed to educators, parents, and ELLs.

BIOLOGY GLOSSARY – SECONDARY (9-12)

ENGLISH / Haitian Creole A	
abandon : abandone	acromegaly : akwomegali
abbreviation : abrevyasyon	activation energy : enèji aktivasyon
ability : kapasite	active immunity : iminite aktif
abiogenesis : abyojenèz	active site : sit aktif
abiotic : abiyotik	active transport : transpò aktif
abiotic factor : faktè abiyotik	activity : aktivite
abortion : avòtman	adaptation : adaptasyon
absorption : absòpsyon	adaptive : adaptif
accomplish : akonpli	adaptive radiation : radyasyon adaptiv
according to : selon	adaptive value : valè adaptif
account : kont	addiction : adiksyon
accumulate : akimile	additional : anplis
accurate : egzat	adenine : adenin
acetylcholine : asetilkolin	adenosine diphosphate (ADP) : adenzin difosfat (ADP)
acid : asid	adenosine monophosphate (AMP) : adenzin monofosfat (AMP)
acid rain : lapli asid	adenosine triphosphate (ATP) : adenzin trifosfat (ATP)
acidity : asidite	adequate : sifizan
acne : akne, bouton	adhesion : adezyon
acquire : jwenn, akeri	adipose tissue : tisi adipe
acquired characteristics : karakteristik yo aki	adolescence : adolesans
acquired immunity : iminite yo aki	adrenal cortex : kòtèks sirenal
acquired immunodeficiency syndrome (AIDS) : sendròm iminodefisyan aki (SIDA)	adrenal gland : glann sirenal
adrenal medulla : mwèl sirenal	albino : albinòs

BIOLOGY GLOSSARY – SECONDARY (9-12)

adrenaline : adrenalin	albumen : albimèn
adrenocorticotropic hormone (ACTH) : òmòn adrenokòtikotwòp (ACTH)	alcoholic fermentation : fèmantasyon ki gen alkòl
adsorption : adsòpsyon	algae : alg
adult : granmoun	algal bloom : flè alg
advantage : avantaj	alimentary canal : kanal alimantè
aerobe : ayewobi	alkaline : alkalen
aerobic : ayewobik	all or none response : tout oswa okenn repons
aerobic respiration : respirasyon ayewobik	allantosis : alantoyid
aerosol : ayewosòl	allele(s) : alèl (yo)
afterbirth : plasennata	allergic : alèjik
agar : jeloz	allergic reactions : reyaksyon alèjik
agarose : agawoz	allergy : alèji
agglutination : aglitinasyon	alter(ed) : (yo) chanje
agglutinin : aglitinin	altered gene : jèn yo chanje
agglutininogen : aglinojèn	alternation of generation : altènans jenerasyon
aging : vyeyisman	alveolus : alveyòl
agricultural : agrikòl	ameba : ameba
agriculture : agrikilti	ameboid movement : mouvman amiboyid
AIDS (acquired immunodeficiency syndrome) : SIDA (sendròm iminodefisyan aki)	amino acid(s) : asid amine (yo)
ailment : maladi	amino group : gwoup amine
air pollution : polisyon lè	ammonia : amonyak
air sac : sak lè	amniocentesis : amnyosentèz
air space : espas lè	amnion : amnyos
albinism : albinis	amniotic fluid : likid amnyotik
amount : kantite	anus : tou dèyè

BIOLOGY GLOSSARY – SECONDARY (9-12)

amphibian : anfibyen	aorta : awòt
amylase : amilaz	aortic arch : ak awotik
anabolism : anabolis	aphotic zone : zòn afotik
anaerobe : anayewod	appearance : aparans
anaerobic : anayewobik	appendage : apandis
analgesic : analjezik	appendicitis : apenndisit
analogous structure : estrikti ki sanble	appendix : apendis
anaphase : anafaz	apply : aplike
anatomy : anatomi	appropriate : apwopriye
androgen : andwojèn	approval : apwobasyon
anemia : anemi	aquaculture : akwakilti
angina pectoris : anjin pektoris	aquarium : akwaryòm
animal : zannimo	aquatic : akwatik
ant : fomi	arid : arid
antenna(e) : antèn	arrow : flèch
anterior : anvan	arteriole : ateryòl
anther : antè	artery : atè
antibiotic(s) : antibyotik	arthritis : atrit
antibodies : antikò	artificial selection : seleksyon atifisyèl
antibody : antikò	asbestos : amyant
anticodon : antikòdon	ascending colon : akolon k ap monte, kolon asandan
antigen : antijèn	ascorbic acid : asid askòbik
antihistamine : anti-istamin	asexual : aseksyèl
antiseptics : antiseptik	asexual reproduction : repwodiksyon aseksyèl
antitoxin : antitoksin	asexually : aseksyèlman

BIOLOGY GLOSSARY – SECONDARY (9-12)

ash : sann	atria : atriyòm
aspen : tranb	atrium : atriyòm
assembled : rasanble, gwoupe	attach : atache
assimilation : asimilasyon	attack : atake
associate : asosye	attempt : atak
association neuron : newòn asosyasyon	auditory canal : kanal oditif
assuming : sipoze	auditory nerve : nèf oditif
assumption : ipotèz, sipozisyon	auricle : atriyòm
aster : reyon astral	autoclave : otoklav
asthma : opresyon	automobile : otomobil, machin
astigmatism : astigmati	autonomic nervous system : sistèm nève otonòn
atherosclerosis : atewosklewoz	autosome : otozom
athlete's foot : mikoz nan pye, pye atlèt	autotroph : ototwòf
atmosphere : atmosfè	autotrophic : ototwofik
atmospheric : atmosferik	autotrophic nutrition : nitrisyon ototwofik
atmospheric temperature : tanperati atmosferik	auxin : oksin
atom : atom	availability : disponiblite
atomic mass : mas atomik	available : disponib
atomic number : nimewa atomik	axis : aks
ATP (adenosine tri- phosphate) : ATP (adenosin tri-fosfat)	axon : aksòn
ENGLISH / [INSERT LANGUAGE] B	
bacteria : bakteri	bacterial infections : enfeksyon bakteryèn

BIOLOGY GLOSSARY – SECONDARY (9-12)

bacterial : bakteryen	bacterial pneumonia : nemoni bakteryèn
bacteriophage : bakteryofaj	biotechnological : biyoteknolojik
bacterium : bakteryòm	biotechnology : biyoteknoloji
bias : prejije	biotic : biyotik
bicarbonate indicator : endikatè bikabonat	biotic factor : faktè biyotik
biceps : bisèp	birch : boulo
bicuspid valve : valv bikispid	birth canal : kanal nesans, kanal akouchman
bilateral symmetry : simetri bilateral	birth control : planin
bile : bil	birth rate : to nesans
bile duct : vwa bilyè	biuret test : tè s birè
bile pigment : pigman bilyè	bladder : vesi
binary fission : fisyon binè	blade : kouto
binomial nomenclature : nomanklati binomyal	blastula : blastila
biochemical processes : pwosesis biyochimik	blending inheritance : melanje eritaj
biochemistry : biyochimi	blind spot : zòn je pa ka wè
biodegradable : biyodegradab	blinking : ap klinyote
biodiversity : biyodivèsite	block : bloke
biogenesis : biyojenèz	blood : san
biogeochemical cycle : sik biyojewochimik	blood cavity : kavite san, kavite sangen
biological catalysts : katalizè biyolojik	blood circulation : sikilasyon san, sikilasyon sangen
biological control : kontwòl biyolojik	blood clotting : kowagilasyon san, san kaye
biological magnification : valorizasyon biyolojik	blood group : gwoup sangen
biology : biyoloji	blood plasma : plasma sangen, plasma san
biomass : biyomas	blood platelet : plakèt san
biome : biyom	blood pressure : tansyon

BIOLOGY GLOSSARY – SECONDARY (9-12)

bioremediation : biyoremedyasyon	blood smear : fwoti sangen, fwoti san
biosphere : biyosfè	blood sugar : sik nan san
blood transfusion : transfizyon san	breeding : repwodiksyon
blood vessel : veso sangen	briefly : yon fason brèf
boil : bouyi	broccoli : bwokoli
bond : lyen	bromothymol blue : ble bwomotimòl
bone : zo	bronchitis : bwonchit
bone marrow : mwèl zo	bronchus : bwonch
booklet : kaye	bubble : blad
botany : botanik	bud : boujonnen, boujon
Bowman's capsule : Kapsil Bowman	budding : fleri
brain : sèvo	buffer : tanpon, solisyon tanpon
brain stem : twon serebral	bulb : zonyon
bread mold : chanpinyon ki leve sou pen	burn : boule
breathing : respirasyon	

ENGLISH / [INSERT LANGUAGE] C

cabbage : chou	capacity : kapasite
carbohydraz : kaboyidraz	capillary : kapilè
carbohydrate : idrat kabòn	capillary action : kapilarite, aksyon kapilè
calcium carbonate : kabonat kalsyòm	carbohydrate(s) : idrat kabòn
calibrate : gradye	carbon : kabòn
calorie : kalori	carbon cycle : sikl kabòn

BIOLOGY GLOSSARY – SECONDARY (9-12)

calorimeter : kalorimèt	carbon dioxide : diyoksid kabòn
cancer : kansè	carbon fixation : fiksasyon kabòn
canopy : vout, kanope	carbon monoxide : monoksid kabòn
carbon-containing : ki gen kabòn	cell plate : plak selilè
carboxyl group : gwoup kaboksil	cell respiration : respirasyon selilè
carcinogen : kanserijèn	cell specialization : espesyalizasyon selilè
cardiac muscle : misk kadyak, misk kè	cell theory : teyori selilè
cardiovascular disease : maladi kadyo- vaskilè	cell wall : pawa selilè
carnivore : kanivò	cell-mediated immunity : iminite a medyasyon selilè
carnivorous : kanivò	cellular respiration : respirasyon selilè
carotene : kawotèn	cellulose : seliloz
carrier : transpòtè, pòtè	Celsius : Sèlsiyis
carrying capacity : kapasite chaj	Celsius scale : echèl Sèlsiyis
cartilage : katilaj	centigrade : santigrad
catabolism : katabolis	centimeter : santimèt
catalase : katalaz	central nervous system : sistèm nève santral
catalyst : katalizè	centrifuge : santrifijez
caterpillar : cheni	centriole : santriyòl
catfish : pwason chat	centromere : santwomè
cattail : jon, totowo	centrosome : santwozom
caudal fin : najwa kodal	cereal group : gwoup sereyal
caudal vertebra : vètèb kodal	cerebellum : sèvelè
caudatum : kodatòm	cerebral cortex : kòtèks serebral
cauliflower : chouflè	cerebrospinal fluid : likid serebwospinal
cell : selil	cerebrum : sèvo

BIOLOGY GLOSSARY – SECONDARY (9-12)

cell body : kò selilè	certain : sèten
cell cycle : sik selilè	cervix : kòl matris
cell division : divizyon selilè	challenge : estimilasyon
cell membrane : manbràn selilè	chemical : chimik
chemical bond : lyezon chimik	ciliary motion : mouvman silyè
chemical equation : ekwasyon chimik	circulation : sikilasyon
chemical formula : fòmil chimik	circulate : sikile
chemical reaction : reyaksyon chimik	circulatory : sikilasyon, sikilatwa
chemoautotroph : chimyo-ototwòf	circulatory system : sistèm sikilatwa
chemosynthesis : chimyo-sentèz	claim : demann, mande
chemotherapy : chimyoterapi	class : klas, kategori
chemotroph : chimyotwòf	classification : klasman
chicken pox : varisèl, saranpyon	classify : klase
chipmunk : ekirèy	clawed : ki gen grif
chitin : kitin	cleavage : klivaj
chlorine : klò	climate : klima
chlorophyll : klowofil	climax community : kominote ki estab
chloroplast : klowoplas	climax fauna : anviwònman bèt ki estab
cholera : kolera	climax flora : anviwònman pyebwa ki estab
cholesterol : kolestewòl	clipping : koupe
chordate : chòde	clone : klone
chorion : koryon	cloning : klonaj
chromatid : kwomatid	closed circulatory systems : sistèm sikilasyon fèmen
chromatin : kwomatìn	coacervate : kowasève
chromatography : kwomatografi	coal : chabon

BIOLOGY GLOSSARY – SECONDARY (9-12)

chromosomal alteration : modifikasyon kwomozomik	coarse adjustment : ajisteman epè
chromosomal recombinations : rekonbinasyon kwomozomik	coast : kot
chromosome : kwomozom	coastal ocean : bò lanmè
chyme : kim	coastline : kòt, kot
cilia : sil	cocci : kokis
coccus : kokis	competition : konpetisyon
cockroach : ravèt	competitive exclusion principle : prensip eksklizyon konpetitif
cocoon : kokon	complementary : konplemantè
codominance : kodominans	complete protein : pwoteyin konplè
codon : kodon	complex multicellular : konplèks miltiselilè
coenzyme : kowanzim	complexity : konpleksite
coevolution : kowevolisyon	compost : konpòs
cohesion : keyezyon	compound : konpoze
cohesive force : fòs koyezif	compound eye : je konpoze
collect : kolekte	compound light microscope : mikwoskòp optik konpoze
collecting duct : kanal kolektif	compound microscope : mikwoskòp konpoze
colloidal dispersion : dispèsyon koloyidal	concentration : konsantrasyon
colon : kolon	concentration gradient : gradyen konsantrasyon
colony : koloni	concept : konsèp
color blindness : daltonis	conception : konsepsyon
coloration : kolorasyon	concerning : konsènan
combat : konbat	conclusion : konklizyon
combination : konbinezon	condensation : kondansasyon
commensalism : kòmansalis	conditioned reflex : reflèks kondisyone
common : komen	conditioning : kondisyone

BIOLOGY GLOSSARY – SECONDARY (9-12)

common ancestor : zansèt komen	conduct : kondi
common cold : rim	conduction : kondwi
communicable : transmisib	cone : kòn
communication : kominikasyon	conifer : konifè
community : kominote	coniferous : konifè
coniferous forest : forè konifè	coral reef : resif koray
conjugation : konjigezon	coronary circulation : sikilasyon kowonè
connective tissue : tisi konjonktif	coronary artery : atè kowonè
conservation : konsèvasyon	corpus luteum : kò jòn
conservation of environment : konsèvasyon anviwònman	cortex : tisi tij, kòtèks
considered : konsidere	cortisone : kòtizòn
constipation : konstipasyon	cotyledon : kotiledon
construct : konstwi, bati	covalent bond : lyezon kovalant
consumer : konsomatè	cover : kouvri
contain : genyen, kenbe	cover crop : plant kouvèti, angrè vèt
content : kontni	coverslip : kouvèti
contour farming : kiltive arebò yo, plante nan arebò yo	Cowper's gland : glann Cowper
contour ploughing : kiltive arebò yo, plante nan arebò yo	cranial nerve : nè kranyen, nè nan kràn
contraception : kontrasepsyon	crayfish : ekrevis
contractile vacuole : vakyòl kontraktil	crescent : kwasans
contribute : kontribye	cretinism : kretinis
control : kontwòl	cricket : krikèt
controlled experiment : eksperyans kontwole	crisp : kroustiyen, krakan
controlled variable : varyab kontwole	crop : rekòt, rekòlte
convergent evolution : evolisyon konvèjan	crop rotation : plante an won

BIOLOGY GLOSSARY – SECONDARY (9-12)

convert : konvèti	cross breeding : ibridasyon plant, kwazman
convulsion : konvilsyon	cross fertilization : fètilizasyon kwaze
coordinating system : sistèm kowòdinasyon, sistèm kowòdone	cross pollination : fegondasyon kwaze
coordination : kowòdinasyon	crossing-over : kwazman
coral : koray	crustacean : kristase
cryptic coloration : kowolasyon kriptik	cysteine : sisteyin
cultivated plant : plant yo kiltive	cytokinesis : sitokinèz
culture : kilti	cytolysis : sitoliz
currently : aktyèlman	cyton : siton
cuticle : kitikil	cytoplasm : sitoplas
cutting : dekoupaj, bout ki koupe	cytoplasmic division : divizyon sitoplasmik
cycling : sik	cytosine : sitozin
cyclosis : sikloz	cytoskeleton : sitoskelèt
ENGLISH / [INSERT LANGUAGE] D	
damage : domaj	defective : pa bon, pa efikas
dangerous : danjere	defective gene : jèn ki pa bon
dark reaction : reyaksyon fiksasyon kabòn	deficiency disease : maladi defisyans
Darwinism : Dawinis	defoliation : debwazman
data : done	deforestation : debwazman
daughter cell : selil fi	degeneration : degradasyon
deamination : dezaminasyon	dehydration : dezidratasyon
decay : dekonpoze	dehydration synthesis : sentèz dezidratasyon

BIOLOGY GLOSSARY – SECONDARY (9-12)

deciduous : jete fèy	dehydrogenase : dezidrajenaz
deciduous tree : pyebwa ki jete fèy	deletion : efase
decomposer(s) : dekonpozè	demand : demann
decomposition : dekonpozisyon	demographic transition : tranzisyon demografik
decrease : diminye	demography : demografi
defecation : defekasyon	denaturation : denatirasyon
dendrite : dantrit	deviation : deviyasyon
denitrification : denitrifikasyon	dextrose : dekwstwoz
denitrifying bacteria : bakteri denitrifikasyon	diabetes : dyabèt
density-dependant limiting factor : faktè limit depandan nan dansite	diagram : dyagram
density-independent limiting factor : aktè limit endepandans nan dansite	dialysis : dyaliz
deoxyribonucleic acid (DNA) : asid dezoksiribonikleyik (ADN)	diaphragm : dyafrag
deoxyribose : dezoksiriboz	diarrhea : dyare
dependent variable : varyab depandan	diastole : dyastòl
deplete : echape	diastolic pressure : presyon dyastolik
depletion : redui, epwize, echapman	diatom : dyatome
depressant : depresè	dichotomous : dikotomik
dermis : dèm, po	dichotomous key : kle dikotomik
desalination : desalinasyon, desale	dicotyledon : dikotiledon
desert : dezè	died off : mouri
desertification : dezètifikasyon	diet : rejim alimantè
desirable : dezirab	differ : diferan
destroy : detwi	differences : diferans
destruction : destriksyon	differentiation : diferansasyon
detect : detekte	diffusion : difizyon

BIOLOGY GLOSSARY – SECONDARY (9-12)

detection : deteksyon	digest : dijere
determine : detèmine	digestion : dijesyon
detoxication : detoksikasyon	digestive enzyme : anzim dijestif
detrimental : negatif, mal	digestive juice : likid dijestif
detritus : debri	digestive system : sistèm dijestif
development : devlopman	dihybrid cross : kwazman di-ibrid
dihybrid : di-ibrid	diuretic : direktik
dilation of blood vessel : dilatasyon veso sangan	diurnal : pandan lajounen
dimorphism : dimòfis	diversity : divèsite
dinosaur : dinozò	divide : divize
dioxide : diyoksid	DNA (deoxyribonucleic acid) : ADN (asid dezoksiribonikleyik)
dipeptide : dipeptid	DNA fingerprinting : anprent dwèt ADN
diphtheria : difteri	DNA polymerase : DNA polymerase
diploid : diployid	dominance : dominans, dominasyon
direct harvesting : rekòt dirèk	dominant : dominan
direction : direksyon	dominant gene : jèn dominan
directly : dirèkteman	dominant species : espès dominan
disaccharide : dizakarid	dominant trait : karakteristik dominan
disadvantage : dezavantaj	dormancy : dòmans
disaster : katastwòf	dorsal : nan do
discs : disk	double fertilization : fètilizasyon doub
disease : maladi	double helix : doub elis
disjunction : dijonksyon, separasyon	Down's syndrome : sendwom Down
dislocation : debwatman	drainage : drenaj
dispersal : dispèsyon	drilling : foraj

BIOLOGY GLOSSARY – SECONDARY (9-12)

disposal : eliminasyon	drone : mal myèl
dispose : elimine	drosophila : dwozofil
disrupt : deranje	drug : medikaman, dwòg
dissecting microscope : mikwoskòp pou fann bèt	drug abuse : abi dwòg
dissection : fann, ouvè	drug dependence : dependans dwòg
dissolve : fonn	drug overdose : ovèdoz medikaman
duckweed : lantiy dlo	dwarfism : nanis
ductless gland : glann san kanal	dynamic : dinamik
dump : devèse, vide	dynamic equilibrium : ekilib dinamik, balans dinamik
duodenum : dyodenoum	dysentery : disantri
ENGLISH / [INSERT LANGUAGE] E	
eagle : èg	effectiveness : efikasite
ear : zòrèy	effector : efektè
ear canal : kanal oditif, kondwi oditif	egestion : ejesyon, defekasyon
eardrum : tenpan	egg : ze
earthworm : vèditè	elbow joint : atikilasyon koud, jwenti koud
echinoderm : ekinodèm	electrocardiogram(EGG or EKG) : elektwokadyogram (EKG oswa ECG)
ecological : ekolojik	electron : elektwon
ecological niche(s) : nich ekolojik	electron microscope : mikwoskòp elektwonik
ecological pyramid : piramid ekolojik	electronic balance : ekilib elektwonik
ecological succession : siksesyon ekolojik	electrophoresis : elektwoforèz
ecologically : ekolojik	element : eleman

BIOLOGY GLOSSARY – SECONDARY (9-12)

ecology : ekoloji	elephantiasis : elefantyazis
economically : ekonomik	eliminate : elimine
ecosystem : ekosistèm	elongation region : zòn alonjman
ecosystem diversity : divèsite ekosistèm	elongation zone : zòn alonjman
ectoderm : ektodèm	embolism : anbolis
edema : edèm	embolus : anboli
effective : efikas	embryo : anbriyon
embryo sac : sak anbriyonè	engineering : jeni
embryology : anbriyoloji	engulf : vale
embryonic : anbriyonik	enlist : rekrite
embryonic membrane : manbràn anbriyonè	enrich : anrichi
emigration : emigrasyon	environment : anviwònman
emit : bay	environmental : anviwònmantal
emphysema : anfizèm	environmental impact statement : deklarasyon enpak sou anviwònman
emulsification : emilsifikasyon	enzyme(s) : anzim (yo)
enable : pèmèt, otorize	enzyme-substrate complex : konplèks anzim-sibstra
enamel : emay	epicotyl : epikotil
end product : pwodui final	epidemic : epidemik
endangered species : espès ki an danje	epidermis : epidèm
endemic : andemik	epididymis : epididim
endocrine gland(s) : glann andokrinyen	epiglottis : epiglòt
endocrine system : sistèm andokrinyen	epinephrine (adrenaline) : epinefrine (adrenalin)
endocrinology : andokrinoloji	epithelium : epitelyòm
endocytosis : andositoz	equatorial plane : plan ekwatoryal
endoderm : andodèm	equatorial plate : plak ekwatoryal

BIOLOGY GLOSSARY – SECONDARY (9-12)

endoparasite : andoparazit	equilibrium : ekilib
endoplasmic reticulum : retikoulòm andoplasmik	era : epòk
endoskeleton : andoskèlèt	erect posture : pozisyon vètikal, pozisyon dwat
endosperm : andospèm	erosion : ewozyon
endosperm nucleus : nwayo andospèm	error : erè
energy flow : ekoulman enèji	escherichia coli (e.coli) : echerichya koli (e.coli)
energy pyramid : piramid enèji	esophagus : ezofaj
essential amino acid : asid amine esansyèl	except : eksepsyon
estrogen : estwojèn	expressed : eksprime
estuary : estwè	expression : ekspresyon
ethyl alcohol : alkòl etilik	extensor : pwolongatè
euglena : eglèn	extent : pwolongasyon, alonjman
eukaryote : ekaryòt	external : ekstèn, deyò
eukaryotic cell : selil ekaryotik	external fertilization : fètilizasyon ekstèn
eustachian tube : twonp Eustache	external respiration : respirasyon ekstèn
evaporate : evapore	extinct : disparèt
evaporation : evaporasyon	extinction : disparisyon
evidence : prèv	extinction of fauna : disparisyon zannimo, disparisyon bèt
evolution : evolisyon, devlopman	extracellular digestion : dijesyon ekstra-selilè
evolutionary : evolisyonè	extract : ekstraksyon
evolve : evolye	eye : je
examination : egzaminasyon, egzamen	eyepiece(ocular) : okilè (pou je)

BIOLOGY GLOSSARY – SECONDARY (9-12)

ENGLISH / [INSERT LANGUAGE] F	
facilitated diffusion : difizyon fasilite	fat : grès
Fahrenheit scale : echèl Farenay	fatal : fatal
fallopian tube (oviduct) : twonp Falòp (ovidik)	fatigue : fatig
fallout : retonbe radyo-aktif	fatty acid : asid gra
family : fanmi	feather : plim
fangs : kwòk	feces : matyè fekal
farsightedness : ipèmetwopi, presbisi	feedback : retwokontwòl
feedback mechanism : mekanis retwokontwòl	finches : penson
female gamete : gamèt femèl	fine adjustment : ajisteman presi
female reproductive system : sistèm repwodiktif femèl	fingerprinting : pran anprent
femur : femi	finite : fini
fermentation : fèmantasyon	firm : fèm
fern : foujè	first filial generation : premye jenerasyon filyal (mal ak femèl)
fertilization : fètilizasyon	first-level consumer : konsomatè premye nivo
fertilizer(s) : angrè	fission : divizyon
fetal : fetal	flagella : flajèl
fetal alcohol syndrome : sendwòm alkolis fetal	flagellum : flajèl
fetus : fetis	flatworm : vè plat
fever : lafyèv	flea : mouch
fewer : mwens	flexor : misk ki flechi
fiber : fib	flipper of whale : najwa balèn
fibrin : fibrin	fluorescence : fliyoresans
fibrinogen : fibrinogen	flow : ekoulman
fibrous root system : sistèm rasin fib	flow of energy : ekoulman enèji

BIOLOGY GLOSSARY – SECONDARY (9-12)

field : chan	flower : flè
field of microscope : chan mikwoskòp	fluid mosaic : mozayik likid
filament : filaman	flake : douv
filter out : elimine	fluoridation : fliyorasyon
filtered : filtre	fluoride : fliyorid
filtrate : filtre	folic acid : asid folik
filtration : filtrasyon	follicle : folikil
fin : najwa	follicle stimulating hormone(FSH) : òmon ki estimile folikil (FSH)
food allergen : sibstans nan manje ki bay alèji	four o'clock flower : flè katrè
food chain : chèn alimantè	fracture : frakti
food poisoning : entoksikasyon alimantè	fragment : fragman, mòso, pati
food pyramid : klasifikasyon alimantè, piramid alimantè	fraternal twin : fo jimo
food vacuole : vakyòl alimantè	freeze drying : sechaj avèk konjelasyon
food web : rezo alimantè	frequently : souvan
forceps : pens, pensèt	freshwater : dlo dous
forest conservation : konsèvasyon forè, pwoteksyon forè	fructose : friktoz
form : fòm, fòmilè	fruit : fwi
formation : fòmasyon	fruit fly : mouch ki manje fwi ak legim, mouch fwi
formula : fòmil	fumes : lafimen, vapè
fossil : fosil	fungi : chanpiyon, mwazi, mwezi
fossil fuel : gaz fosil	fungus : chanpiyon, mikoz
fossil record : rejis fosil, achiv fosil	fur : pwal bèt

ENGLISH / [INSERT LANGUAGE] G

BIOLOGY GLOSSARY – SECONDARY (9-12)

galactose : galaktoz	gas exchange : chanjman gaz
galactosemia : galaktosemi	gaseous exchange : chanjman gaz
gall bladder : vezikil bilyè	gasoline : gazolin
gallon : galon	gastric : gastrik, lestomak
gallstone : kalkil bilyè	gastric juice : sik gastrik
gamete : gamèt	gastrovascular cavity : kavite gastwovaskilè
gametogenesis : gametojènèz, pwosesis fòmasyon gamèt	gastrula : gastrila, anbriyon sitiye apre blastila
gamma globulin : gamaglobilin	gastrulation : gastrilasyon
ganglion : glann	gel electrophoresis : elektwoferèz an jèl
gene : jèn, jenetik	germination : jème, jèmen
gene expression : ekspresyon jenetik	gestation period : peryòd gwosès
gene frequency : frekans jenetik	GH (growth hormone) : òmón kwasans
gene linkage : lyezon jenetik, relasyon jenetik	giantism : jeyan
gene mutation : chanjman jenetik	gibberellin : jiberelin
gene splicing : episaj jenetik	gill : branchi
gene(s) : jèn	gizzard : zizye
generalization : jeneralizasyon	gland : glan, ògàn
genetic : jèn, jenetik	global warming : rechofman klimatik
genetic counseling : konsèy jenetik	glomerulus : glomeril
genetic disease : maladi jenetik	glucagon : glikagon
genetic diversity : varyete jenetik	glucose : glikoz
genetic engineering : jeni jenetik	glycerol : glisewò
genetic marker : endikatè jenetik, makè jenetik	glycine : glisin
genetic recombination : rekonpozisyon jenetik	glycogen : glikojèn
genetic variation : varyasyon jenetik	glycolysis : glikoliz

BIOLOGY GLOSSARY – SECONDARY (9-12)

genetically : jenetikman	goiter : gwat
genetics : jenetik	Golgi body (apparatus) : Aparèy Gòlji (aparèy)
genome : jenóm	gonad : gonad
genotype : jenotip	gonadotropin : gonadotwopin
genus : espès	gonorrhoea : gonore, blenoraji
geographic isolation : izòlman jewografik	gorilla : goril
geologic time scale : nivo tan jewolojik	gout : gout
geotropism : jewotwopis	gradualism : pwogresis
germ theory of disease : teyori jèm maladi	graduated cylinder : silenn gradye
German measles : Lawoujòl alman	grafting : grèf
gram : gram	greenhouse gas : rechofman tèrès
grana : grana	grid : rezo
graph : grafik	growth : kwasans
grasshopper : sotrèl	guanine : gwanin
grassland : patiraj, pelouz	guard cell(s) : selil pwoteksyon
gray matter : matyè gri	gullet : gòje, goblè
green algae : plant vèt nan dlo	gymnosperm : jimnospèm
green revolution : revolisyon ekolojik	gypsy moth : esponjyez
greenhouse effect : efè ekolojik	
ENGLISH / [INSERT LANGUAGE] H	
habit : abitud	hay : zèb
habitat : lojman	hay fever : wonm zèb

BIOLOGY GLOSSARY – SECONDARY (9-12)

habitat fragmentation : separasyon lojman	heart : kè
hair follicle : folikil kapiyè	heart attack : kriz kadyak
half-life : mwatye vi	heart transplant : grèf kadyak
haploid (monoploid) : aploid (monoploid)	heart-lung machine : aparèy kè-poumon
hardy-weinberg law : lwa hardy-weinberg	heartbeat cycle : frekans batman kè
harm : mal, domaj	haversian canal : kanal Havers
harmful : danjere, domaj	helix : elis
harmless : san danje, san risk	hemoglobin : emoglobin
harvesting : rekòlt	hemolysis : emoliz
hatching : kouve	hemophilia : emofil
heparin : eparin	homeowner : pwopriyetè
hepatic artery : veso epatik	hominid : ominide
hepatic portal circulation : sikilasyon pòtal epatik	homo sapiens : omosapyens
herb : zèb	homologous chromosome : kwomozom omològ
herbivore(s) : bèt, èbivò	homologous structure : estrikti omològ
hereditary : ereditè	homozygous : omozigòt
heredity : eredite	homozygous genotype : jenotip omozigòt
hermaphrodite : èmafwodit	hoofed animal : bèt ak sabo
heterotroph : etewotwòp	hookworm : ankilostom
heterotroph hypothesis : teyori etewotwofi, ipotèz etewotwofi	hormone : òmón
heterotrophic : etewotwofik	host : animatè, òganizatè
heterotrophic nutrition : alimantè etewotwofik	hot : cho
heterotrophs : etewotwòf	hot water bath : beny dlo cho
heterozygous : etewozigòt	huge : imans
heterozygous genotype : jenotip etewozigòt	hull : kòk, gous

BIOLOGY GLOSSARY – SECONDARY (9-12)

hibernation : ibernasyon	humerus : imeris
high blood pressure : tansyon wo	humidity : imidite
high energy bond : lyezon ak èneji elve	hummingbird : kolibri
hindbrain : sèvo pa dèyè	humoral immunity : iminite imoristik
hip joint : atikilasyon ranch	humus : imis
histamine : istamin	hunting : lachas
histidine : istidin, asid amine	hybrid : ibrid
histology : istoloji	hybrid vigor : fòs ibrid, pisans ibrid
histone : istón, pwoteyin	hybridization : ibridasyon
homeostasis : omewostazi	hydra : id, polid dlo dous
hydrocarbon : idwokabi	Hyperthyroidism : Ipètiwoyidi
hydrochloric acid : asid kloridrik	hypertonic solution : solisyon ipètonik
hydrogen acceptor : reseptè idwojèn	hypocotyl : ipokotil, aks ipokotile
hydrolysis : idwoliz	hyposalivation : iposekresyon
hydroponics : idwoponik	hypothalamus : ipotalamis
hydrotropism : idwotwopis	hypothesis : ipotèz
Hyperparasitism : ipèparazitis	hypothyroidism : ipotiwoyidi
hypertension : tansyon wo	hypotonic solution : solisyon ipotonik
ENGLISH / [INSERT LANGUAGE] I	
ibuprofen : ibipwofèn	import : enpòtasyon
ICF(intercellular fluid) : likid entraselilè, likid anndan selil	importation : enpòtasyon
identical : idantik, parèy, sanble	imprint : anprent, enpresyon
identical twin : vrè jimo, jimo monozigòt	impulse : pilsyon, elan

BIOLOGY GLOSSARY – SECONDARY (9-12)

identity : idantite	in vitro fertilization : fegondasyon in vitwo
ileum : ileyon	inappropriate : pa apwopriye, pa kòrèk
illustrate : ilistre, egzanzp	inborn immunity : pwoteksyon natirèl
immigration : imigrasyon	inbreeding : konsangen
immune : iminite, defans	incidence : ensidans, malè
immune response : repons iminitè, reyaksyon	incisors : ensiziv
immune system : sistèm iminitè, sistèm defans	include : gen ladan
immunity : iminite, rezistans	incomplete dominance : dominasyon pasyèl, dominasyon enkonplè
immunization : vaksinasyon	incomplete protein : pwoteyin ki pa konplè
impact : efè, enpak	increase : ogmante, ajoute
implantation : grèf, enplan	incubation period : peryòd enkibasyon, delè
independent (manipulated) variable : varyab endepandan (varyab kontwole)	inorganic compound : konpoze mineral
independent assortment : chwa otonòm, asòtiman edepandan	insect : ensèk
index fossil : repètwa fosil, endikatè fosil	insecticide(s) : ensektisid
indicate : endike, montre	insectivorous plant : plant ensektivò, plant kanivò
indicator : endikatè	insert : mete, antre
individual : endividyèl, pèsonèl	inspect : enspekte, kontwole
industrial hazard : risk endistriyèl, danje endistriyèl	inspiration : enspirasyon
industrial melanism : melanis endistriyèl	instinct : reflèks
industrialization : endistriyalizasyon	insulin : ensilin
infantile paralysis : paralizi enfantil	interaction : echanj
infection : enfeksyon	interbreed(ing) : kwazman, ibridasyon
infectious : enfektye, kontajye	intercellular fluid : likid entèselilè
infer : dedwi, enfere	interference : entèferans
inference : enferans, dediksyon, konklizyon	interferon : entèfewon, pwoteyin

BIOLOGY GLOSSARY – SECONDARY (9-12)

inferior vena cava : venn kav enferyè	internal development : devlopman entèn
infinite : enfini	internal fertilization : fegondasyon entèn
inflammation : enflamasyon	internally : entèn, pa anndan
inflammatory response : reyaksyon enflamatwa	interneuron : entènewón
influence : enfliyans	interphase : entèfaz
ingestion : enjesyon, absòpsyon	interspecific competition : konkirans entèsektoryèl
inhibition center : sant kontwòl	intestinal juice : sik entestinal
inhalation : enspirasyon	intestine : entesten, trip
inherit : eritye	intracellular digestion : dijesyon entraselilè
inheritance : eritaj	introduce : prezante
innate behavior : konpòtman natirèl	intron : intwon
inorganic : inòganik, chimik	invasion : envazyon, anvayisman
invasive species : espès envayisan, espès envaziv	ionic bond : lyezon yonik
inversion : envèsyon, ranvèsman	iron : fè
invertebrate : envètebre	irradiation : iradyasyon, radyoterapi
investigation : envestigasyon, ankèt, sondaj	irritability : iritab, ki ka fache
involuntary muscle : mis envolontè	islets of Langerhans : ti zile Langerhans
involve(ing) : enplike, angaje	isolated : izole
iodine : yòd	isotonic solution : solisyon izotonik
ion : yon	isotope : izotòp
ENGLISH / [INSERT LANGUAGE] J	
jellyfish : mediz, jele nan lanmè	juvenile hormone : òmon lajenès

BIOLOGY GLOSSARY – SECONDARY (9-12)

joint : atikilasyon, jwenti	
ENGLISH / [INSERT LANGUAGE] K	
karyotype : karyotip	kinetic energy : enèji sinetik
karyotyping : karyotipaj	kingdom(s) : wayòm
kelp forest : forè varèch	Klinefelter's syndrome : sendwom Klinefelter
keratin : keratin	knee joint : atikilasyon jenou
kernels : nwayo, grenn	knee-jerk reflex : reyakson espontane, reflèks otomatik
kidney : ren	knowledge : konesans
ENGLISH / [INSERT LANGUAGE] L	
labor : travay	leaf sheath : anvlòp fèy, gèn folyè
laboratory : laboratwa	leaflet : depliyàn, bwochi
labyrinth : labirent	leaks : fuit
lack : mankman	learning : aprantisaj
lactase : laktaz	least : mwens, pi piti
lacteal : lenfatik	legume : legim
lactic acid : asid laktik	leguminous plant : plant legimine
lactose : laktoz	lens : lantiy
ladybug : koksine	leopard : leyopa
lake : lak, letan	leucine : lesin, asid amine
Lamarckism : Lamakis	leukemia : lesemi

BIOLOGY GLOSSARY – SECONDARY (9-12)

lamella : lamèl, manbràn	leukocyte : lekosit
lancet : lansèt, enstriman	lichen(s) : lichenn, chanpiyon lichenize
landfill : dechè, depotwa, dechaj	life cycle : sik byolojik
large intestine : gwo entesten, gwo trip	lifespan : lonjevite, esperans vi
larva : lav	ligament : ligaman
larynx : larenks	light microscope : mikwoskòp optik
latitude : latitud	light-dependent reaction : reyaksyon ki lye ak limyè
law of dominance : lwa dominasyon	lily : lili
law of independent assortment : lwa sou asòtiman endepandan	limestone : wòch kalkè
law of segregation : lwa sou segregasyon	limit : limit
law of use and disuse : dwa pou itilizasyon ak abandon	limiting factor(s) : faktè limitasyon
laxative : lakzatif, pwodui	limiting nutrient : eleman nourisan avèk limit
layering : makotaj	litmus paper : papye tounsòl
leaf : fèy	linked gene : jèn ki asosye
lipase : lipaz	longitudinal muscle : mis lonjitidinal
lipid : lipid	loop of henle : bouk ennle
lipid bilayer : bikouch lipidik, manbràn	louse : pou
lithosphere : litosfè	lubricating oil : lwil librifyan, lwil pou grese
liver : fwa	luminescent : limine
livestock : betay	lung : poumon
lizard : leza	luteinizing hormone(LH) : òmòn lityinizant
lobster : woma	lymph : lenf, likid
lock-and-key-hypothesis : ipotèz kle ak fèmèn	lymph gland : glann lenfatik
lockjaw : tetanòs	lymph node : glann lenfatik
locomotion : lokomosyon, mouvman	lymph vessel : veso lenfatik

BIOLOGY GLOSSARY – SECONDARY (9-12)

log : rejis, jounal	lymphatic system : sistèm lenfatik
logging : anrejistreman, enskripsyon, koneksyon	lymphocyte : lenfosit
logistic growth : devlopman lojistik, kwasans lojistik	lysosome : lizozom
ENGLISH / [INSERT LANGUAGE] M	
macroevolution : makwoevolisyon	malathion : malatyon, konpoze òganik
macromolecule : makwomolekil	malfuction : move fonksyònman
macronucleus : makwonwayo	malignant : malen, kansè
maggot : astiko, lav	malnutrition : malnitrisyon
magnification : anplifikasyon, ogmantasyon	maltase : maltaz, glikozid
maintaining : konsève, retabli	maltose : maltoz
malaria : malarya	mammal(s) : mamifè
mammary gland : glann mamè	Mendelism : Menndelis, Iwa Mendel
mandible : mandibil, zo	meninges : menenj
mangrove : mangwòv	meningitis : menenjit
mangrove swamp : forè mangwòv, mangwòv	meniscus : menis
manipulated (independent) variable : varyab kontwole (endepandan)	menopause : menopoz
manufacturing : pwodiksyon, fabrikasyon	menstrual cycle : sik menstriyèl
marine : maritim	menstruation : règ
marine biome : byom maren, plant	mention : mansyoe, site, note
marrow : mwèl	mesentery : mezantè, manbràn
marsupial : masipyo, masipyalya, mamifè	mesoderm : mezodèm

BIOLOGY GLOSSARY – SECONDARY (9-12)

mass : mas, gwochè	mesophyll : mezofil, fèy
mass extinction : gwo ekstenksyon, kriz byolojik, kriz ekolojik	mesophyte : mezofit, plant
mass number : kantite mas, kantite nikleyon	messenger RNA (mRNA) : asid ribonikleyik mesaje, ARN mesaje
mate : mate, bwason tradisyonèl	metabolic : metabolik
material : materyèl	metabolic waste : dechè matabolik, pou pou
maternal immunity : pwoteksyon matènèl	metabolism : metabolis
mating : akoupleman	metal : metal
measles : lawoujòl	metamorphic rock : wòch metamòfik
measurement : mezi	metaphase : metafaz
mechanism : mekanis	metastasis : metastaz
medulla oblongata : mwèl alonje, bilb rachidyen	method : metòd
meiosis : meyo	methylene blue : ble metilèn
melanin : melanin	metric ruler : règ gradye
melanocyte cell : selil melanosit	metric system : sistèm metrik
melt(ing) : fonn, fizyone	microbe(s) : mikwòb
membrane : manbràn	microclimate : mikwoklima
microdissection : mikwodiseksyon	mold : moul, mwezi
microfilament : mikwofilaman	molecular : molekilè
micrometer : mikwomèt	molecular formula : fòmil molekil
micrometer : mikwomèt	molecule(s) : molekil)
micronucleus : mikwonwayo	mollusca : molisk
microorganism : mikwoòganis	mollusk : molisk, kokiya
microscope : mikwoskòp	Monera : Monera
microscopic : mikwoskopik	monocotyledon : monokotiledon
microtubule : mikwotibil, fib	monocyte : monosit

BIOLOGY GLOSSARY – SECONDARY (9-12)

midbrain : mezansefal, sèvo mwayen	monohybrid cross : kwazman monoyibrid
migration : migrasyon	monomer : monomè
milk : lèt	monoploid : monoployid, inipolè
milk tooth : dan tanporè	monosaccharide : monosakarid
milligram : miligram	monoxide : monoksid
milliliter : milimèt	morphine : mòfin
millimeter : milimèt	morphology : mòfoloji
mimicry : mimetis, imitasyon, mimik	mortality : mòtalite
mineral : mineral	morula : morila
mitochondria : mitokondri	mosaic : mozayik
mitochondrion : mitokondri, mitokondriyon	mosquito : moskito
mitosis : mitoz	moss(es) : mous
mitotic cell division : divizyon selilè mitotik	moth : papiyon, mit
mixture : melanj, konbinezon	motile : motil
model : modèl	motility : motilite
modification : modifikasyon	motor nerve : nè motè
molar : molè	motor neuron : newón motè
movement : mouvman	muscular system : sistèm miskilè
mRNA (messenger RNA) : asid ribonikleyik mesaje, ARN mesaje	mushroom : chanpiyon
mucous membrane : manbràn mizez	mussel : moul, kokiyaj
mucus : mizez	mutagen : mitajèn
multicellular : miltiselilè	mutagenic agent : ajan mitajenik
multiple allele(s) : alèl miltip	mutant : chanje, deplase
multiple birth : plizyè nesans	mutate(d) : chanje, deplase
multiple-gene inheritance : eritaj miltijenik	mutation : chanjman, deplasman

BIOLOGY GLOSSARY – SECONDARY (9-12)

multiply : miltipliye	mutualism : mityalis
mumps : oreyon	mycelia : miselya, miselyòm
muscle : mis	mycelium : miselyòm
muscle contraction : kontraksyon miskilè	myelin sheath : fouwo myelin
muscle fatigue : fatig miskilè	myofibril : myofib, myofibril
muscular : miskilè	myopia : myopi
ENGLISH / [INSERT LANGUAGE] N	
narcotic drug : estipefyan, nakotik	nearsightedness : myopi
nasal cavity : kavite nazal	nectar : ji fwi, bwason
natural immunity : pwoteksyon natirèl	negative feedback : kòmantè negatif
natural selection : seleksyon natirèl	negative : negatif
naturally : natirèlman	nematode : nematod
nature and nurture controversy : polemik ant lanati ak lakilti	nephron : nefwon
nearby : toupre	nerve : nè, nève
nerve cell (neuron) : selil nèvez (newón)	node : nod
nerve cord : mwèl epinyè, kòdon nève	nodule : nodil
nerve fiber : fib nève	noise pollution : polisyon sonò
nerve impulse : enpilsyon nève	noncommunicable : pa kontajye
nerve net : rezo nève	nondisjunction : nondijonksyon, echèk
nervous system : sistèm nève	nonplacental mammal : mamifè nonplasentè
neural plate : plak newón	nonrenewable resources : reous nonrenouvlab
neurohormone (neurotransmitter) : newoòmón (newotransmetè)	nonvascular plant : plant nonvaskilè

BIOLOGY GLOSSARY – SECONDARY (9-12)

neuromuscular junction : atikilasyon newomiskilè	noradrenaline : noradrenalin
neuron : newón	nostril : nostril
neurotransmitter : newotransmetè	notochord : notokòd
neutral : net	nourish : nourì, alimante
neutralization : netralizasyon	nuclear fuel : gaz nikleyè
neutron : netwon	nuclear membrane (envelope) : manbràn nikleyè (anvlòp)
niche(s) : nich, kreno	nuclei : nwayo
nicotine : nikotin	nucleic acids : asid nikleyik
night blindness : emaralopi, avèg nan nuit	nucleoli : nikleyòl
nitrification : nitrifikasyon	nucleolus : nikleyòl
nitrifying bacteria : bakteri nitrifyant	nucleotide : nikleyotid
nitrogen cycle : sik azòt	nucleus : nwayo
nitrogen fixation : fiksasyon byolojik azòt	numerous : anpil
nitrogen-fixing bacteria : bakteri ki fikse azòt	nutrient(s) : nitriman, eleman nourisan
nitrogenous : azote	nutrition : nitrisyon
nitrogenous waste : dechè metabolik, poupou	nutritional : nitrisyonèl
nocturnal : noktin, animal, lannwit	nymph : nenf, ensèk
ENGLISH / [INSERT LANGUAGE] O	
objective : objektif	operon : opewon, inite ADN
observation : obsèvasyon	opinion : opinyon
observe : obsève	opium : opyòm
obtain : jwenn, pwokire	opossum : oposòm, animal

BIOLOGY GLOSSARY – SECONDARY (9-12)

occasionally : okazyonèlman	opportunity : opòtinite
occur : rive, reyalize	optic nerve : nè optik
octopus : pyèv	optical microscope : mikwoskòp optik, mikwoskòp fotonik
ocular : okilè	optimum : optimòm
official : ofisyèl	order : lòd
offset : krizalid, ti plant	organ : ògàn
offspring : desandans, pwojeniti	organ system : sistèm òganik
olfaction : òlfaksyon	organelle(s) : òganèl
olfactory bulb : bilb okilè, anpoul òlfaktif	organic : òganik
olfactory cell : selil òlfaktif	organic acid : asid òganik
omnivore : omnivò, espès	organic compound : konpoze òganik
oncogene : onkojèn	organism : òganis
one gene-one polypeptide hypothesis : ipotèz yon jèn- yon anzim	osmosis : osmoz
ontogeny : ontojenèz	osmotic potencial : puisans osmotik
oocyst : owosis, ze	osmotic pressure : presyon osmotik
oocyte : owosit, ze	ossification : osifikasyon
oogenesis : owojenèz	osteoarthritis : atwoz
open circulatory system : sistèm sikilatwa ouvè	osteoblast : osteyoblas
osteocyte : osteyosit, selil zo	oxyhemoglobin : emoglobin
osteology : osteyoloji, syans	oyster : zwit
osteoporosis : ostewopowoz	ozone : ozón
outbreeding : kwazman	ozone layer : kouch dozón
ova : ova	ozone shield : kouch dozón
ovaries : ovè	overproduction : pwodiksyon anplis
ovary : ovè	oviduct : ovidik

BIOLOGY GLOSSARY – SECONDARY (9-12)

overall : global, jeneral	oviparity : oviparite, ze
overfishing : pèch destritif	oviparous : oviparite, ze
overgraze : eksè patiraj	ovulation : ovilasyon
oxygen consumption : konsomasyon oksijen	ovule : ovil, ze
oxygen cycle : sik oksijen	ovum : ovil, ze
oxygen debt : eksè konsomasyon oksijen	oxidation : oksidasyon
oxygen-carbon dioxide cycle : sik oksijen-dioksijen kabòn	
ENGLISH / [INSERT LANGUAGE] P	
pacemaker : estimilatè kadyak	parasite : parazit
paired : kouple	parasitic relationship : relasyon parazitè
Paleozoic : paleyozoyik	parasitism : parazitis
palisade mesophyll : mezofil palisad	parasympathetic nervous system (PNS) : sistèm nève parasenpatik
pancreas : pankreya	parathyroid hormone : òmón paratiwoyid
pancreatic duct : kanal pankreya	parent cell : selil parantal
pancreatic juice : ji pankreyatik	parent generation : jenerasyon paran
paramecium : paramesi	parental care : swen parantal
parietal lobe : lob paryetal	pericardium : perikadyòm
parrot : pewokè	period : peryòd
Parthenogenesis : Patenojenèz	peripheral nervous system : sistèm nève periferik
partial : patyèl	peristalsis : peristaltis
particular : patikilye, egzat	permafrost : pèjelisòl
passive immunity : pwoteksyon pasif	permeable : pèmeyab

BIOLOGY GLOSSARY – SECONDARY (9-12)

passive transport : transpò pasif	permit : pèmi, otorizasyon
pasteurization : pasterilizasyon	perspiration : pèspirasyon
patella : wotil	pest : nwizib, parazit
pathogen(s) : patojèn	pesticide(s) : pestisid
pathogenic : patojenik	petal : petal
peat : toub	petri dish : bwat petri
pedigree : jeneyaloji, filyasyon	petrification : petrifikasyon
pedigree chart : tablo jeneyaloji	pH indicator : endikatè PH
peer review : evalyasyon koup	pH scale : nivo pH
pellagra : pelag	phagocyte : fagositoz
pelvis : basen	phagocytosis : fagositoz
penicillin : penisilin	pharynx : farenks
penis : peni	phase contrast microscope : mikwoskopi ak kontras ki gen faz li
pepsin : pepsin	phenol : fenòl
peptic ulcer : ilsè gastrik	phenotype : fenotip
peptidase : pèptidaz	phenylalanine : fenilalanin
peptide bond : lyezòn peptidik	phenylketonuria(PKU) : fenilsetoniri
percentage : pousantaj	pheromone : fewomón
perennial : vivasite, perèn	phloem : flèm, tisi
perform : egzekite	phosphate : fosfat
phospholipid : fosfolipid	placental mammal : mamifè plasentè
phosphorus : fosfò	placental membranes : manbràn plasentè
Phosphorylation : Fosforilasyon	plague : pès, fleyo
photic zone : zòn fotik	plankton : plankton
photolysis : fotoliz, reyaksyon chimik	plant : plan

BIOLOGY GLOSSARY – SECONDARY (9-12)

photon : foton, enèji	plasma : plasma
photosynthesis : fotosentèz	plasma membrane : manbràn plasma
phototropism : fotopris	plasmid : plasmid, molekil
phylum : anbranchman	plasmolysis : plasmoliz
physical : fizik	plastid : plastid, plas, òganit
physiology : fizyoloji	platelet : platlèt
physiotherapy : fizyoterapi	Platyhelminthes : platod, vè pla, platelment
phytoplankton : fitoplankton	pleura : plèv, tisi
pigment : pigman	pleural cavity : kavite pleral
pill : konprime, pilil	plexus : plaksis
pimple : bouton, akne	plumule : plantil
pineal : pineyal, glann	pneumonia : nemoni, enfeksyon
pineal body : glann pineyal	poaching : brakonaj
pinocytic vesicle : vezikil pinositoz	point mutation : mitasyon ponktyèl
pinocytosis : pinositoz	poisonous : pwazon
pioneer : pyonye	polar zone : zòn polè
pioneer species : espès pyonye	pole : pol
pistil : pistil	polio : polyo
pituitary dwarfism : nanis ipofizè	pollen grain : grenn polenn
pituitary gland : glann pitwitè, ipofiz	pollen tube : tib polinik
placenta : plasenta	pollination : polinizasyon
pollutant : polyan	predict : prediksyon dinamik
pollution : polisyon	prediction : prediksyon
polygenic : polijèn	pregnancy : ansent
polygenic traits : karakteristik polijenik	premature birth : nesans anvan lè

BIOLOGY GLOSSARY – SECONDARY (9-12)

polymer : polimè	prepare : prepare
polymerase chain reaction (PCR) : reyaksyon an chèn polimeraz	present-day : jodi a, kounye a
polymorphism : polimòfis	preserve : prezève
polyp : polip	prevent : anpeche, entèdi
polypeptide : polipetid, peptid	prevention : prevansyon
polyploidy : poliployidi	prey : pwa, jibye
polysaccharide : polisakarid	primarily : toudabò
pond : letan, lak	primary consumer : konsomatè prensipal
population : popilasyon	primary productivity : pwodiksyon prensipal
population density : dansite popilasyon	primary root : rasin prensipal
population genetics : jenetik popilasyon yo	primary succession : siksesyon primè
porifera : eponj	primate : primat
positive feedback : kòmantè pozitif	probability : pwoablite
posterior : posteryè	procedure : demach, metòd
potential : potansyèl, kapasite	process : tretman, pwosesis
pouched mammal : mamifè ak pòch	producer : pwodiktè, fabrikan
precipitation : presipitasyon	product : pwodwi
predation : predasyon	progesterone : pwojestewòn
predator : predatè	prohibit : entèdi
predator-prey relationship : relasyon predatwa-pwa	prokaryote : pwokaryòt
predatory : predatè	promoter : pwomotè
property : byen	pulmonary circulation : sikilasyon pilmonè
prophase : pwofaz	pulmonary vein : venn pilmonè
proportion : pwopösyon, pousantaj	pulp : pat ak papye
proposal : pwopozisyon	pulse : enpilasyon, poul

BIOLOGY GLOSSARY – SECONDARY (9-12)

prostaglandin : pwostaglandin	punctuated equilibrium : ekilib ponktye
prostate gland : glann pwostat	pupa : pip, krizalid
protease : peptidaz, anzim, pwoteyaz	pupil : elèv
protect : pwoteje	pure : pwòp
protein : pwoteyin	pure dominant : jèn dominan
prothrombin : pwotwonbin	pure recessive : jèn resesif
protist : pwotis, pwotista	purine : pirin, molekil
proton : pwoton	purple : poup, koulè
protoplasm : pwotoplas	pus : pis, likid
protozoa : pwotozoyè, pwotid	pyloric sphincter : fenktè pilorik, valv
provide(d) : founi, bay	pyramid : piramid
pseudopod : sedopod	pyramid of biomass : piramid byomas
psychosis : sikoz	pyramid of energy : piramid enèji
ptyalin : talin	pyrimidine : pirimidin, molekil
puberty : pibète	pyruvic acid : asid pirivik, konpoze chimik
pulmonary artery : atè pilmonè	
ENGLISH / [INSERT LANGUAGE] Q	
qualitative : kalitatif	quarantine : karantèn
quality : kalite	quinine : kinin
quantitative : kantitatif	quotation : devi, pri
ENGLISH / [INSERT LANGUAGE] R	
radial symmetry : simetri radyal	recombination : rekonbinezon
radiant energy : en•ji radyan	recombination gamete : rekonbinezon gamèt

BIOLOGY GLOSSARY – SECONDARY (9-12)

radiating canal : kanal reyonan	record : dosye, anrejistre
radiation : reyònman, radyasyon	recover : rekipere
radicle : radikil	rectum : rektòm
radioactive : radyoaktif	recycle : resikle
radioactive dating : datasyonn radyometrik	recycling : resiklay
radioactive element : eleman radyoaktif	red blood cell : globil wouj
radio-carbon method : metòd radyokabòn	red corpuscle (red blood cell) : kòpiskil wouj (globil wouj)
radiotherapy : radyoterapi	reduced : diminye, redwi
radius : reyon	reduction : diminisyon, rediksyon
ragweed : anbwazi	reduction division (meiosis) : divizyon rediksyon (meyoz)
random : owaza, aleyatwa	reflex : reflèks
rapidly : rapidman	reflex arc : ak reflèks
reabsorption : reyabsòbsyon	reflex center : sant refèks
reactant : reyaktif, rayaktè	reforestation : rebwazman
reaction rate : nivo reyaksyon	refractory period : peryòd refraktè
recently : dènyeman	refute : demanti, rejte
receptacle : kontenè, resipyan	regeneration : rejenerasyon, reyabilitasyon
receptor : receptè	regular : nòmàl
receptor molecule(s) : molekil reseptè	regulated : regle, reglemante
recessive : resesif	regulation : reglemantasyon, reglemantè
recessive gene : jèn resesiv	related : lye, konekte
recombinant DNA : ADN rekonbine	relationship : relasyon
relative dating : datasyon relatif	release : libere, relache
reliable : serye, fyab	resources management : jesyon resous
rely on : konte sou	respiration : respirasyon

BIOLOGY GLOSSARY – SECONDARY (9-12)

remain : rete, demere	respiratory chain : chèn respiratwa
remote : adistans	respiratory surface : sifas respiratwa
renal artery : atè renal	respiratory tract : vwa respiratwa
renal circulation : sikilasyon renal	response : repons, reyaksyon
renal portal vein : venn pòtal renal	resting potential : potansyèl repo
renal vein : venn renal	resting stage (interphase) : estad repo (entèfaz)
renewable : renouvlab	restriction enzyme : anzim restriksyon
renewable resource(s) : resous renouvlab	result : rezilta
rennin : renin, chimozin	reticulum : retikilòm
replicate : repwodwi, rekreye	retina : retin
replication : repwodiksyon	retrovirus : retwoviris
represent : reprezante	Rh negative blood : san Rh negatif
reproduce : repwodwi	Rh positive blood : san Rh pozitif
reproduction : repwodiksyon	Rhesus factor (Rh factor) : Faktè rezis (faktè Rh)
reproductive isolation : izolasyon repwodiktif	rheumatic fever : rimatis atikilè grav
reptile : reptil	rheumatoid arthritis : polyatrit rimatoyid
require : egzijans, obligasyon	rhizoid : rizoyid, filaman
research plan : plan rechèch	rhizome : rizom
researcher : chèchè, anketè	rib : rib, toraks
resemble : resanble	rib cage : kaj torasik
residue : rezidi, rès	riboflavin : riboflavin, laktoflavin
resistance : rezistans	ribonucleic acid (RNA) : asid ribonikleyik (RNA)
ribosomal RNA : asid ribonikleyik ribozomik	ribose : riboz, aldopenntoz
resource(s) : resous	root hair : rasin cheve
ribosome(s) : ribozom	root : rasin

BIOLOGY GLOSSARY – SECONDARY (9-12)

rickets : rachitis	root nodule : nodil rasin
ringing : sònri, son	root pressure : presyon rasin
ringworm : tèy, enfeksyon po	rotation of crops : wotasyon kiltiral
rip : rip, dechire	roughage : fib, fouraj
ripped : dechire	roundworm : askarid, vè won
risk : risk	routine : woutin, abitid
RNA polymerase : ARN polimeraz	rubella : ribeyòl
roach : ravèt	rudimentary organ : ògàn ridimantè
Rocky mountain spotted fever : Lafyèw gwo glòb bouton	ruminant : rimiran
rodent : ronjè	runner : kourè
ENGLISH / [INSERT LANGUAGE] S	
sabin vaccine : vaksen saben	salmonella : salmonela
saccharide : sakarid	salt marsh : marè sale
saccharin : sakarin	saltwater : dlo sale
salamander : salamann	sample : modèl, echantiyon
saline : dlo sèl	sand : sab
salinity : kantite sèl fonn	sandy soil : sòl ki gen sab
saliva : saliv	sanitary : sanitè
salivary amylase : amilaz salivè	sap : sape, mine, sèw
salivary gland : glann salivè	saprophyte : sapwofit
salk vaccine : vaksen salk	saprophytism : sapwofitis
salmon : salmon	saturated fats : grès satire

BIOLOGY GLOSSARY – SECONDARY (9-12)

scale : nivo, echèl	secondary mycelium : miselyòm segondè
scallop : woma, petonk	secondary sexual characteristics : karakteristik seksyèl segondè
scarcity : rate, peniri	secondary succession : siksesyon segondè
scavenger : chawonya	secretin : sekretin, òmón
schizophrenia : eskizofreni	secretion : sekresyon
Schwann's cell : selil Schwann	sedimentary strata : kouch sedimantè
science : syans	seed : semans
scientific literacy : konpetans syantifik	seed dispersal : dispèse grenn, gaye grenn
scientific method : metòd syantifik	seep out : enfiltre, koule
scientific theory : teyori syantifik	segment : segman
scientist : syantis	segregation : segregasyon
scion : boujon, branch fen	selection : seleksyon, chwa
sclera : esklewotik	selective breeding : elvaj selektif, repwodiksyon selektif
sclereid : esklereyid, selil	selective permeability : pèmeyablite selektif
sclerosis : esklewoz	selectively permeable membrane : manbràn pèmeyablite selektif
scorpion : eskèpyon	self-fertilization : otofegondasyon
scrotum : eskwotòm	self-pollination : otopolinizasyon
scurvy : ba, eskòbit	semen : semans, espèm
sea anemone : anemón lanmè	semicircular canal : kanal semisikilè
sea cucumber : konkonm lanmè	semilunar valve : valv semilinè
sea urchin : ousen lanmè	seminal vesicle : vezikil seminal
seal : jwen, so	seminiferous tubule : tibil seminifè
sebaceous gland : glann sebase	semipermeable membrane : manbràn semipèmeyab
sebum : sebòm	sensitivity : sansiblite
second filial generation : dezyèm jenerasyon filyal	sensitization : sansibilizasyon

BIOLOGY GLOSSARY – SECONDARY (9-12)

secondary consumer : konsomatè segondè	sensor : kaptè, detektè
sensory area : espas sansoryèl	shark : reken
sensory nerve fiber : fib nève sansoryèl	shore : rivaj, tè
sensory neuron : newón sansoryèl	shortsightedness :myopi, vizyon kouut
sensory receptor : reseptè sansoryèl	shoulder joint : atikilasyon zepòl
separate : separe	shrub layer : anba bwa, kouch bwison
septum : septòm	shrub(s) : bwa
sequence(s) : sekans	siamese twin : jimo kole ansanm
series : seri	sibling(s) : frè ak sè
serum : sewòm	sickle cell : falsifòm, drepanositoz
served as : sèvi kòm	sickle cell anemia : anemi falsifòm
sessile : sesil	side effect : efè segondè
setup : konfigire, enstale	significance : siyifikasyon, enpòtans
sewage : dlo ize, dlo rigòl	simple microscope : mikwoskòp senp
sex cell : selil seksyèl	simple reflex action : aksyon reflèks senp
sex chromosome : kwomozom seksyèl	simple sugar (monosaccharide) : sik senp (monosakarid)
sex hormone : òmón seksyèl	single circulation : sans inik
sex organ : ògàn seksyèl	single-gene trait : karaktè monojenik
sex-linkage inheritance : eritaj koneksyon seksyèl	sino-atrial node (S-A node) : ne sinoatriyal (ne S-A)
sex-linked gene : jèn ki lye ak sèks	sinus : sinis
sex-linked trait : karaktè ki lye ak sèks	siphon : sifon
sexual : seksyèl	site : sit
sexual generation : jenerasyon seksyèl	skeletal muscle : mis eskeletik
sexual maturity : matirite seksyèl	skeletal system : sistèm zo, sistèm eskeletik
sexual reproduction : repwodiksyon seksyèl	skeleton : eskèlèt

BIOLOGY GLOSSARY – SECONDARY (9-12)

sexually transmitted diseases : maladi seksyèl trapan	sketch : kwoki
skin : po	somatic cell : selil somatik
skull : tèt mò	somatic nervous system : sistèm nève somatik
sleeping sickness : maladi somèy	soot : swif, chabon volatil
slide : dyapozitif	sort : triye
sludge : labou	source : sous
small intestine : ti trip, ti entesten	specialized : espesyalize
smallpox : varyèl, ti fe	speciation : espesyasyon
smog : esmog	species : espès
smooth muscle : mis lis	species diversity : varyete espès
sneezing reflex : reflèks estènè	specific : espesifik
soak : tranpe	specificity : espesifisite
socket : priz	specimen : espesimenn
sodium : sodyòm	spectacular : espektakilè
sodium bicarbonate : bikabonat sodyòm	spectrum : espektwòm
sodium chloride : klori sodyòm	sperm : espèm
sodium ion : yon sodyòm	sperm duct : kanal lakrimal
soil : sòl, tè	sperm nuclei : nwayo espèm
soil conservation : konsèsyon sòl	spermatid : espèmatid, espèmatozoyid
soil depletion : epwizman sòl, tè mèg	spermatocyte : espèmatosit
soil erosion : ewozyon sòl	spermatogenesis : espèmatojenèz
solar energy : eneji solè	spermatophyte : espèmatofit
solid bone : zo solid	sphincter : esfenktè
solute : solite	spike : espikil, peplomè
solution : solisyon	spill : ranvèsman, devèse

BIOLOGY GLOSSARY – SECONDARY (9-12)

solvent : solvan	spinal column : kolòn vètebral
somatic : somatik	spinal cord : mwèl epinyè
spinal nerve : nè vètebral	stable : estab
spindle : tij, bwòch	stain : tach
spindle fiber : fizo mitotik	staining : kolorasyon
spleen : melankoli	stalk : tij
splice : rakò, episaj	stamen : etamin
splits : divizyon	staminate flower : flè estamine
sponge : eponj	staphylococcus : estafilokòk
spongy bone : zo esponjye	starch : amidon
spongy layer : kouch esponjye	starfish : etwal lanmè
spongy mesophyll : mezofil esponjye	statement : deklarasyon
spongy tissue : tisi esponjye	steady state : eta ekilibre
spontaneous generation theory : teyori jenerasyon espontane	stem : tij, ke
spontaneous mutation : mitasyon espontane	stereomicroscope : esteyomikwoskòp
sporangium : esporanj	stereoscope : estereyoskòp
spore : espò, selil	sterile : esteril
spore reproduction : repwodiksyon espò	sterility : esterilite
sporogenesis : espwojenèz	sterilization : esterilizasyon
sporophyte generation : jenerasyon espowofit	sterilizing : esterilize
sporulation : esporilizasyon	sternum : estènòm
spot test for fat : tèl depistaj pou grès	steroid : estewoyid
sprain : antòs	stethoscope : estetoskòp
spray : vaporizatè	stigma : estigmatizasyon
sputum : krache	stimulate : estimile

BIOLOGY GLOSSARY – SECONDARY (9-12)

square : kare	stimuli : estimili
squid : eskwid, magnetomèt	stimulus : estimili
stability : estabillite	stinging cell : selil itikant, nidosit
stock : estòk	sucrase : sikreri
stolon : estolonn	sucrose : sakawoz
stomach : lestomak	suction pressure : presyon aspirasyon
stomata : estomat	sulfa drug : antibyotik silfamide
stomate (stoma) : estomat	sulfur : souf
stops : arè	sulfur dioxide : diyoksid souf
storage : estokaj, depo	superior vena cava : venn kav siperyè
storage tissue : tisi estokaj	surface tension : tansyon sipèfisyèl
strains : souch	surgery : operasyon
strand : bren, mèch	surrogate parent : paran ranplasan
stream : ti kanal	surround : antoure
streptococcus : estreptokòk	survival : soti vivan
streptomycin : estreptomisin	survival of the fittest : pi fò yo soti vivan
striated muscle : mis estriye	survive(d) : soti vivan
strip : bann	suspension : sispansyon
strip cropping : kilti an bann	sustainable use : itilizasyon dirab
stroma : estwoma	suture : operasyon
structural formula : fòmil estriktirèl	swamp : marekaj
structure : estrikti	sweat gland : glann sidoripa
style : estil	swim-bladder : vesi natatwa
subsoil : sousòl, anba tè	symbiosis : senbyoz
subspecies : sou espès	symbiotic : senbyotik

BIOLOGY GLOSSARY – SECONDARY (9-12)

substance : sibstans	sympathetic : senpatetik
substrate : sibstra	sympathetic nervous system : sistèm nève senpatetik
succession : siksesyon	symptom : sentom
sucker : sisè, sisèt	synapse : sinaps
synthesis : sentèz	system : sistèm
synthesize : sentize	systemic circulation : sikilasyon sistemik
synthetic : sentetik	systole : sistòl
syphilis : sifilis	systolic pressure : presyon sistolik
ENGLISH / [INSERT LANGUAGE] T	
tadpole : teta	tendon : tandon
taiga : tayiga	tentacle : tentakil
tail fin : najwa pa dèyè	terminal bud : boujon tèminal
tanker : sitèn	termite : tèmit
tap root : rasin pivotant	terrace : teras
tapeworm : tenya, vè solitè	terrestrial : tèrès
tar : goudwon	terrestrial biome : byòm tèrès
taste bud : boujon gïstatif	territory : teritwa
taxonomy : taksonomi	test cross : kwazman kontwòl
Tay-Sachs disease : maladi Tay-Sachs	testis : testikil, gonad
technique : teknik	testosterone : testostewón
technology : teknoloji	tetanus : tetanòs
telophase : telofaz	tetrad : tetrad

BIOLOGY GLOSSARY – SECONDARY (9-12)

temperate deciduous forest : forè tanpere ak fèy kadik	tetraploid : tetraployid
temperate zone : zòn tanpere	thalassemia : talasemi
temperature inversion : envèsyon tanperati	theory : teyori
template : modèl	theory of use and disuse : teyori itilizasyon ak san itilizasyon
tend to : swanye, pran swen	therapy : terapi
thermal pollution : polisyon tèmik	toothpick : egwi dan
thicker : pi pwès	topsoil : tè jaden, kouch vejetal
third-level consumer : konsomatè twazyèm nivo	toxic : toksik
thoracic duct : kanal torasik	toxin(s) : toksin
thorax : toraks	trace element : oligo eleman
threshold : plafon, limit	trachea : trache
thrombin : twonbin	tracheophyte : tracheyofit
thromboplastin : twonboplastin	trade-off : konpwomi
thrombosis : twonboz	traffic : trafik
thrombus : twonbis	trait(s) : karakteristik
thymine : timin	transcription : transkripsyon
thymus gland : glann timis	transduction : transdiksyon
thyroid gland : glann tiwoyid	transfer : transfè
thyroid-stimulating hormone(TSH) : tireyostimilin, tireyotwofin	transfer RNA (tRNA) : transfè RNA (tRNA)
thyroxine : tiroksin	transformation : transfòmasyon
tibia : titya	transfusion : transfizyon
tissue culture : kilti tisilè	transgenic : transjenik
tissue fluid : likid tisilè	translation : translasyon
tissue(s) : tisi	transmission : transmisyon
tobacco : takak	transmit : transmèt

BIOLOGY GLOSSARY – SECONDARY (9-12)

ton : ton	transpiration : transpirasyon
tongue rolling : woulman lang	transpiration pull : tiraj transpirasyon
tonsil : amigdal	transplant : grèf
tonsillitis : amigdalit	transport system : sistèm grèf
tooth decay : kari dantè	transverse colon : kolon transvèsal
tooth root : rasin dantè	transverse section : seksyon transvèsal
trauma : twoma	tropism : twopis
treatment : tretman	trypsin : tripsin
treat : trete	tuber : tibèkil
trend : tandans	tuberculosis : tibèkiloz
trial : esè	tubing : tib, tiyotri
triceps : trisèp	tubule : tibil
trilobite : trilobit	tumor : timè, kansè
translocation : translokasyon	tundra : toundra
triple-beam balance : balans ak twa feso	turbidity : tibidite
triplet code : kòd triple	turgid : tijesan, selil
triploid : triployid	turgor pressure : presyon tijesans
trophic level : nivo twofik	Turner's syndrome : sendwom Turner
tropical rain forest : forè twopikal imid	typhoid : tifoyid
tropical zone : zòn twopikal	
ENGLISH / [INSERT LANGUAGE] U	
ulcer : ilsè	undergo : sibi

BIOLOGY GLOSSARY – SECONDARY (9-12)

ulna : kibitis	unicellular : iniselilè
ultracentrifuge : iltrasantrifijez	universal recipient : resipyan inivèsèl
ultrafiltration : iltrafiltrasyon	unsaturated fats : grès non satire
ultrasound : iltrason	uracil : irasil
ultraviolet light : limyè iltravyolè	uranium : iranyòm
umbilical cord : kòdon onbilikal	urban desert : dezè iben
umbilicus : onbilik	urbanization : ibanizasyon
urea : ire	urinary system : sistèm irinè
urease : ireyaz	urine : pipi, irin
ureter : irèt	uterine lining : pawa iterin
urethra : irèt	uterus : iteris
uric acid : asid irik	utilize : itlize
urinary bladder : vesi irinè	
ENGLISH / [INSERT LANGUAGE] V	
vacant : lib	vas deferens : kanal deferan
vaccinated : vakinen	vascular bundle : feso vaskilè
vaccination : vaksinasyon	vascular cylinder : silenn vaskilè
vaccine : vaksen	vascular plant : plant vaskilè
vacuole(s) : vakyèl	vascular ray : reyon vaskilè
vagina : vajen	vascular system : sistèm vaskilè
valid : valid	vascular tissue : tisi vaskilè
valine : valin, asid	vasoconstriction : vazokonstriksyon
valuable : presye	vasodilation : vazodilatasyon
valve : valv	vasopressin : vazopresin

BIOLOGY GLOSSARY – SECONDARY (9-12)

vane : jiwouèt	vector : vektè
variability : varyabilite	vegetation : vejetasyon
variable : varyab	vegetative propagation : pwopagasyon vejetal
variable factor : faktè varyab	vein : venn
variation : varyasyon	vena cava : venn kav
variegated leaf : fèy panache	venereal disease : maladi veneryèn
variety : varyete	venous flow : debi sangen
various : divès	ventral : vantral
ventral blood vessel : veso sangen vantral	viral disease : maladi viral
ventral nerve cord : kòdon nève vantral, mwèl epinyè	virus : viris
ventral root : rasin vantral	viscera : visè
ventricle : vantrikil	visceral muscle : mis viseral
venule : venil	visible spectrum : chan vizib
Venus's-flytrap : pyèj amouch venis	vital : vital
vertebra(e) : vètebre	vital capacity : kapasite vital
vertebral column : kolòn vètebral	vitamin : vitamin
vertebrate(s) : vètebre	viviparous : vivipa
vesicle : vezikil	vocal cords : kòd vokal
vessel : vesi	volume : volim
vestigial : vestij	voluntary action : aksyon vlontè
vestigial : vestijye	voluntary behavior : konpòtman volontè
vigorously : vivman	voluntary muscle : misk volontè
villi : vilozite	volunteer : volontè
villus : vilozite	

BIOLOGY GLOSSARY – SECONDARY (9-12)

ENGLISH / [INSERT LANGUAGE] W	
waiting : tann	water potential : potansyèl nan dlo
walnut : nwa	wavelength : longèdond
warm-blooded : san cho	wax layer : kouch lasi
warning coloration : kolorasyon alèt	weasel : belèt
waste : dechè	weather : tanperati, tan
water vascular system : sistèm vaskilè dlo	weathering : alterasyon, vyeyisman
water-cycle : sik dlo	web : entènèt
weed : move zèb	wind break : koupe van
weed killer : dezèbè, touye move zèb	wind erosion : ewozyon ewolyèn
wetland : zòn imid	wind pollination : polinizasyon ewolyèn
wet-mount slide : glisyè ak montaj imid	windpipe : trache atè
whale : balèn	wingspan : anvègi zèl yo
wheat : ble	within : nan, anndan
white blood cell : selil blan	womb : iteris, matris
white corpuscle : kòpiskil blan	woody fiber : fib linyez
white matter : matyè blan	woody stem : tij bwa
whole blood : san konplè	woolly mammoth : mamout an lèn
whooping cough : koklich	worker bee : abèy ouvriyè
wildlife conservation : konsèvasyon espès sovaj	worm : vè
wilt : flewo	
ENGLISH / [INSERT LANGUAGE] X	
xanthophyll : zantwofil	x-chromosome : kwomozom x
xanthoproteic test : tèz zantwopeyik	xylem : zilèm

BIOLOGY GLOSSARY – SECONDARY (9-12)

ENGLISH / [INSERT LANGUAGE] Y	
Y-chromosome : kwomozom Y	yolk : jón ze
yeast : levi	yolk sac : pòch vitelin
yeast fermentation : fèmantasyon avèk levi	
ENGLISH / [INSERT LANGUAGE] Z	
zonation : zonaj	zygote : zigòt
zooplankton : zowoplankton
