D. Attendance Guidelines

School attendance is the direct responsibility of parent(s)/ guardian(s) as required by Florida Statute 1003.24. All students are expected to attend school regularly and to be on time for classes in order to benefit from the instructional program and to develop habits of punctuality, self-discipline, and responsibility. Amended 07-15-03

Notes or telephone calls from parent(s)/ guardian(s) are required either before or after an absence. It is the responsibility of the student to make up work missed because of absences. Students receiving out-of-school suspension **must** be assigned schoolwork that will cover content and skills taught during the duration of the suspension. Amended 07-01-05

1. Student Absences

Non-attendance in a class shall be considered an absence unless the student is participating in a school activity. Absences shall be classified as:

a. Excused Absences

Absences shall be excused for the following reasons:

- illness or injury of the student,
- illness, injury, or death in the immediate family of the student. The immediate family shall be defined as listed in the United States Internal Revenue Service guidelines.

If there is a reasonable doubt concerning the illness claimed, the principal shall be authorized to require a statement from an accepted medical authority. Failure to comply with this requirement shall result in the absence being "unexcused."

The Principal of a school shall have sole discretion as to how absences shall be reported to the school. The parent or legal guardian shall report absences through a telephone call, a handwritten note, or both as determined by the Principal. Adopted 06-19-01

In cases of excused absences, the student shall be allowed to make up the work and teachers of the students shall give every reasonable assistance.

Make-up work shall be completed during a period of time equal to at least twice the time for which the absence is excused, unless the teacher allows more time.

b. Permitted Absences

"Permitted" absences may be granted. Only the principal shall have the authority to grant "permitted" absences and then only after he or she has considered the merits of each case. It shall be the principal's responsibility to give to the parents a copy of the School Board rules pertaining to permitted absences.

ES SPP -- 7

EFFECTIVE 07-01-11

Arrangements for make-up work shall be made in advance with the instructor of classes to be missed. The student shall assume complete responsibility for the make-up work. The teachers shall cooperate by making assignments, grading materials, and recording grades. The teacher shall set a timeline for receiving the student's work for credit, and this timeline will not exceed twice the number of days of absence.

Examples of situations warranting "permitted" absences include:

attendance at an important public function,

- attendance at church meetings, or observances of religious holidays,
- travel with parents in urgent circumstances,
- attendance at non-school conventions or conferences,
- other situations with parental permission and the approval of the principal, or
- participation in a non-instructional activity.

A student who wishes to participate in a non-instructional activity must:

- meet the academic requirements as set forth by the School Board,
- make arrangements, in advance, with the teacher for missing classes, and
- accept the responsibility for making up time and work.

c. Unexcused Absences Amended 07-01-08

All absences other than "excused" or "permitted" shall be deemed "unexcused," and a failing grade may be recorded for the period of the "unexcused" absence, except when students who are suspended from school during grade period exams or semester exams, such students shall be allowed to make up these exams.

- Upon each unexcused absence, the Principal or designee shall contact the student's parent or guardian to determine the reason for the absence.
- If a student has had at least five (5) unexcused absences within a calendar month or ten (10) unexcused absences within a ninety (90) day calendar period, the student's primary teacher shall report to the principal or designee that the student may be exhibiting a pattern of non-attendance. Unless there is clear evidence that the absences are not a pattern of non-attendance, the case shall be referred to the Early Truancy Intervention Team to determine if early patterns of truancy are developing. If the Early Truancy Intervention Team finds that a pattern of non-attendance is developing, whether the absences are excused or not, a meeting with the parent must be scheduled to identify potential remedies.
- If the initial meeting with the parent does not resolve the problem, the Early Truancy Intervention Team shall implement specific interventions that best address the problem.

The Early Truancy Intervention Team shall be diligent in facilitating intervention services and shall report the case to the Superintendent or his designee only after all reasonable efforts to resolve the problem have been exhausted.

- If the parent, guardian, or other person in charge of the child refuses to participate in the remedial strategies because he/ she believes that those strategies are unnecessary or inappropriate, the parent, guardian, or other person in charge of the child may appeal to the School Board. The School Board may provide a hearing officer, who may be an employee of the School Board, in lieu of a School Board hearing, who shall hear the case and make a recommendation for final action to the School Board. If the School Board's final determination is that the strategies of the Early Truancy Intervention Team are appropriate, and the parent, guardian, or other person in charge of the child still refuses to cooperate, the Superintendent may seek criminal prosecution for noncompliance with compulsory school attendance.
 - If a child subject to compulsory attendance will not comply with attempts to enforce school attendance, the parent, guardian or Superintendent or his designee shall refer the case to the case staffing committee pursuant to Florida Statutes, and the Superintendent or his designee may file a truancy petition pursuant to procedures outlined in Florida Statute 984.151. Amended 07-15-03, 07-01-08

2. Students with Disabilities

a. 504 Students Amended 07-01-04

In the case of a student with excessive absences, a 504 Reevaluation meeting should be held to determine if the absences are caused by the disability of record on the active 504 Plan. If the 504 committee determines that the absences are caused by the disability, the committee must also determine a reasonable course of action, which may include the possible waiver of the attendance guidelines in determining grades, as well as consideration of a change of placement.

If the 504 committee determines that the absences are not caused by the disability, the student is treated in the same manner as that for a general education student.

b. ESE Students

All exceptional students will follow regular education attendance procedures.

In the case of an ESE Student with excessive absences, an IEP team meeting must be conducted to determine whether or not the absences are related to the student's disability. If the IEP team determines that the excessive absences **are** related to the student's disability, the IEP team must determine a reasonable course of action which may include the possible waiver of the attendance guidelines in determining grades as well as a change of placement.

If the IEP team determines that the student's excessive absences are not related to the student's disability, the student is treated in the same manner as that for a general education student.

Within five school days prior to an expected absence for religious reasons, parent(s)/ guardian(s) must notify the principal in writing and request that the student be excused from attendance. A written excuse will not be required upon return to school and no adverse or prejudicial effects will result for any student availing herself/ himself of this provision. Adopted 07-01-09

The district is committed to the implementation of a Response to Intervention (RtI)/ intervention framework to integrate and align efforts to improve educational outcomes and to meet the academic and behavioral needs of all students. RtI is a data-driven decision-making process applied to education. The district's schools will provide high quality instruction and intervention(s) matched to student needs and will use rate of progress and level of performance to inform instructional decisions, including but not limited to, promotion, acceleration, remediation, and retention.

Intervention Assistance Teams will identify students through the review of universal screening data and through teacher referral to determine the appropriate types and levels of interventions. Standard district protocols will establish which initial interventions to use, and diagnostic assessment will determine more intensive interventions. Teachers will consult the district RtI Curriculum Guides for available supports. Students who receive interventions beyond the core curriculum will have their rate of progress and level of performance included in their records where appropriate.

Florida Statute 1008.25 requires that the district define specific levels of performance in reading, writing, mathematics, and science for each grade level. These levels of performance will be used to identify students who must receive remediation or be retained within an intensive program that is different from the previous year's program and takes into account the student's learning style.

- In compliance with School Board's Objective (Improve accepted measures of success annually) and Florida Statute 1008.25, students will be identified as performing at one of three levels which indicates a student's achievement:
 - above grade level,
 - at grade level, or •
 - . below grade level.
- 50 51

Performance levels are determined by various indicators that will include, but are not 1 limited to, multiple measures using appropriate grade-level assessments as well as 2 3 teacher judgment. 4 1. D. Promotion to a Higher Grade Level Amended 07-01-06, 07-01-08

- The assignment of a student to a higher grade which results in the student's accelerated promotion should be made based on exceptionally high achievement or evidence that the student will benefit more from the instructional program at the advanced grade level. The Superintendent or designee should authorize the assignment.
- The assignment will occur at the end of a grading period agreed upon by both the sending and receiving principal. If an ELL student is involved, the ELL committee shall meet to document the change in the ELL Student Plan.
- After agreement has been reached regarding an exceptional student, an Individual Education Plan meeting must be held prior to placement in the new assignment. The long-range academic, social, and emotional effect of the decision shall be considered.
- The principal has the responsibility for making such an assignment, but a student will not be
 accelerated without parental consent.
 Amended 06-30-91 and 06-27 00
- The student's cumulative record, report card, and permanent record must indicate,
 "accelerated grade placement" and the name of the principal who made the placement.
 Amended 06-15-99
 - Parents shall be notified in writing that their child is receiving an accelerated grade placement to the next higher grade. A copy of this notification shall be placed in the cumulative folder. Notices to parent/ guardian of ELL students must be provided in the primary language, whenever feasible. Amended 06-27-00
- 29 E. Progress Monitoring Plan (PMP) Process Amended 07-15-03, 07-01-06, 07-01-08
 - Florida Statute 1008.25 (4)(b) requires that schools must develop, in consultation with the student's parent(s), a School District of Osceola County Progress Monitoring Plan (PMP) for students who do not meet district and state levels of proficiency in reading, writing, mathematics, and/ or science. Each PMP must outline an intensive remedial program in the area(s) of weakness designed to assist the student in meeting state and/ or district expectations for proficiency.
- The PMP must clearly identify the: 1. specific, diagnosed academic needs to be remediated, 2. success-based intervention strategies to be used, 3. the intensive variety of remedial instruction to be provided, and 4. monitoring and reevaluation activities to be employed. FS 1008.25 (4)(b) Each student who does not meet the levels of performance as determined by the district must be provided with additional diagnostic assessments to determine the nature of the student's difficulty and areas of academic need. FS 1008.25 (4)(a) Data from the additional assessments are to be used to formulate the student's • PMP. Schools shall also provide for the frequent monitoring of the student's progress. FS 1008.25(4)(b)

1	
2	Any student who exhibits a substantial deficiency in reading, based upon locally
3	determined assessments, statewide assessments conducted in Kindergarten or
4	Grades 1, 2, or 3 must be given intensive reading instruction immediately
5	following the identification of the reading deficiency. FS 1008.25 (5)(a)
6	
7	
8	• Diagnosis and remediation will occur as soon as possible after a student has
9	been identified as deficient in reading, writing, mathematics, and/ or science per
10	FS 1008.25(4)(a).
11	
12	 If the student identification occurs during the fourth marking period, the diagnosis

15	
16	A student who is not meeting the school district or state requirements for

24	(4)(b)2; or
25	
26	An individualized progress monitoring plan. FS 1008.25 (4)(b)3
27	
28	The plan chosen must be designed to assist the student or the school in meeting
29	state and district expectations for proficiency. If the student has been identified
30	as having a deficiency in reading, the K-12 comprehensive reading plan required
31	by FS 1011.62 (8), shall include instructional and support services to be provided
32	to meet the desired levels of performance. District school boards may require
33	low performing students to attend remediation programs held before or after
34	regular school hours or during summer if transportation is provided. FS 1008.25
35	(4)(b)3

1 2 3 4 5 6 7 8 9 10		Intensive instruction is usually associated with the following: diagnostic/ prescription targeted to specific skill development variety of opportunities for repetitions (repeated exposure) smaller chunks of text or content guided and independent practice skill development and practice integrated into all activities frequent monitoring criterion-based evaluation of success
10 11 12		Students in Grades K-5 whose performance in reading, writing, mathematics, and/ or science requires remediation must have a PMP or comparable individual academic
13 14 15 16		 plan. Students whose performance is minimally below grade level may need a PMP. PMP's are required for Kindergarten and first grade students who
17 18		are performing below grade level.
19 20 21 22 23 24		 An existing PMP is to be closed at the conclusion of the school year. At that time, the teacher(s) of the student who had a PMP is to make recommendations regarding the student's educational program for the following year. The PMP should be placed in the student's permanent record at the close of each year or at the time of student withdrawal.
25 26 27 28 29 30 31 32 33		 If a student is to continue remediation during the following year, he or she is to receive a new PMP. The new PMP is to be developed through the collaboration of the receiving teacher(s) and the parent(s)/ guardian(s) and approved by the principal. Recommendations of the sending teacher(s) are to be reviewed as part of the PMP progress.
35 34 35 36 37		Students who do not meet minimum performance expectations for the statewide assessment tests in reading, writing, mathematics, and/ or science must continue remedial instruction until expectations are met.
	1.	ELL Students – Progress Monitoring Plan Process Amended 07-15-03 and 07-01-06
41 42 43 44 45		English Language Learner students who are unable to demonstrate mastery in academic subject areas as described in the Student Progression Plan will be referred to a Progress Monitoring Plan/ ELL committee. This committee will develop a PMP for the student in accordance with the following guidelines and procedures: Adopted 06-27-00
46 47 48 49		• The reason for the academic under-performance of an ELL student must not imply that he/ she needs an extra year to learn English or that it is due to the student's lack of English proficiency.
50 51 52		 Establish lack of academic progress in reading, writing, mathematics, and/ or science using a composite of indicators that includes, but is not limited to grade

level checklists, pre-tests and post-tests, CELLA results, alternate assessment 1 results, previous academic records, diagnostic assessment in the home 2 language, and any other appropriate indicator of academic progress. 3 4 The first PMP/ ELL committee meeting develops a PMP that includes a list of 5 intensive remedial instructional strategies designed to assist the ELL student 6 (NOTE: ESOL accommodations are not considered remedial strategies). 7 8 The second PMP committee meeting, with ESOL representation, is held within 9 18 weeks to review the effectiveness of the remedial strategies. If the ELL 10 11 student does not make satisfactory progress, the curriculum may be suspended and intense remedial instruction in reading and/ or mathematics is provided 12 based on the student's deficiencies. 13 14 If the ELL student still has not made satisfactory progress after implementing the 15 PMP for at least 27 weeks, the ELL committee may recommend retention unless 16 conditions exist such that retention would be more adverse for the student than 17 promotion. 18 19 The ELL Committee may exempt ELL students from the retention provision. The 20 ELL student may be recommended for promotion based on at least three (3) 21 good cause considerations such as educational background, academic ability in 22 home/ native language, receipt of two (2) years or less of instruction in an 23 approved ESOL program, current academic progress corresponding to the 24 language arts through ESOL manual, acculturation to new culture, home support, 25 age appropriateness, and mobility. 26 27 2. **Gifted Students** 28 29 For a gifted student who is performing below grade level, it is appropriate to develop a PMP. Accommodations and/ or interventions are to be addressed through the 30 31 Gifted Educational Plan (GEP) process. Amended 07-01-05 and 07-01-06 32 3. Students with Disabilities – Progress Monitoring Plan Process 33 34 504 Students Amended 07-01-04, 07-01-06, 07-01-09 35 a. Amended 07-01-05 and 07-01-06 41 42 A student who is not meeting the school district or state requirements for 43 proficiency in reading and math shall be covered by one of the following plans 44 to target instruction and identify ways to improve his or her academic 45 achievement: 46 47 1. A federally required student plan, such as an individual education plan, 48 FS 1008.25 (4)(b)1; 49 50 51 2. A schoolwide system of progress monitoring for all students, FS 1008.25 (4)(b)2; or 52

I. Extended School Year Amended 07-01-09

1. ELL Students

All English Language Learner (ELL) students in Grades K-5 are eligible for an extended school year for either academic or language maintenance needs, provided the services are rendered at the school. The following requirements must be met:

- The need for an extended school year must be documented in the student's ELL Student Plan.
- The specific academic or language maintenance needs of the student must be listed in the student's individual ELL Student Plan.

2. Students with Disabilities

a. 504 Students

Section 504 students may participate in an extended school year if it is available and if they meet the same eligibility requirements as established for all regularly attending students. The current Section 504 Plan would remain in effect for the extended school year. Adopted 07-01-09

b. ESE Students

The determination of Extended School Year (ESY) services is a decision of the Individual Educational Planning team. Services are recommended when the data collected over the course of the school year, including before and after scheduled breaks in instruction, indicate a significant regression in life skills. These are skills that cannot be recouped within a reasonable amount of time without ESY services. ESY services may include direct or indirect special education services, related services, or some combination of these. Adopted 06-27-00, Amended 07-01-06

3. Home Education Students

Home education students may participate in an extended school year if it is available and if they meet the same eligibility requirements as established for all regularly attending students.

Students who expect to earn credit in a home education program during the summer must register with the Superintendent by the end of the first grading period (second week).

4. Summer Reading Camp (Adopted 07-01-04)

Beginning April 2003, school districts were directed by the Department of Education to provide a "research-based intensive summer reading activities for all students who have failed to meet third grade promotion standards. Such reading camps should be available to all third grade students who score Level 1 on the reading portion of the Florida Comprehensive Assessment Test (FCAT) and focus on intensive intervention in reading."

- Priority should be given to students who are deficient in reading by the end of Grade 3. The next priority is to serve students in other grade levels who fail to meet performance levels required for promotion as outlined in the Student Progression Plan.

FS 1008.25 (8)(a) specifies that the district school board must annually report to the parent of each student the progress of the student towards achieving state and district expectations for proficiency in reading, writing, science and mathematics, including the student's results on each statewide assessment test. The evaluation of each student's progress must be based upon the student's classroom work, observations, tests, district and state assessments, and other relevant information. Progress reporting must be provided to the parent in writing in the format adopted by the district school board. Progress reports for ELL students shall be provided in the parent's native language when feasible. No one test with a single administration should determine promotion or retention. The preponderance of evidence from evaluations should be used to determine if a student is ready for the work of the next grade.

FS 1008.25 (5)(c) specifies that beginning with the 2002-2003 school year, the parent of any student in K-3 who exhibits a substantial deficiency in reading must be notified in writing immediately of the following:

- That his or her child has been identified as having a substantial deficiency in reading and state the exact nature of the difficulty
 - A description of the current services that are provided to the child
 - A description of the proposed supplemental instructional services and supports that will be provided to the child that are designed to remediate the identified area of reading deficiency.
 - That if the child's reading deficiency is not remediated by the end of Grade 3, the child must be retained unless he or she is exempt from mandatory retention for good cause.
 - Strategies for parents to use in helping their child succeed in reading proficiency.
 - That the FCAT is not the sole determiner of promotion.
 - That additional evaluations, portfolio reviews, and assessments are available, and
 - The district's specific criteria and policies for mid-year promotion.
- 37 **B. Report Cards** Amended 07-15-03, 07-01-08
- FS 1003.33 (1) requires that district report cards for all elementary school
 students must clearly grade or mark:
 - the student's academic performance in each class or course in Grades K-5 (based upon examinations as well as written papers, class participation and other academic performance criteria);
 - the student's conduct and behavior; and
 - the student's attendance, including absences and tardiness.

The student's final report card for a school year shall contain a statement indicating end-of-year status regarding performance or nonperformance at grade level, acceptable or unacceptable behavior and attendance and promotion or nonpromotion.

2 3 Report	Card Grades Amended 07-01-04, 07-01-09
4	
5 1 .	Teachers will determine report card grades that provide the student and the student's parents(s)/ guardians(s) with an objective evaluation of the student's scholastic achievement, and effort.
8 9	 Marks are based on the quality of student performance relative to expected levels of achievement of the Sunshine State Standards/
10 11	Next Generation Sunshine State Standards that the teacher observes and evaluates.
12 13 14	 The student's academic grades are to reflect academic achievement. The quality of the work will be assessed by multiple measures that include, but are not limited to:
15 16 17	 teacher observations (oral presentations or reports, speeches, recitations, impromptu speaking, student participation and demonstrations);
18 19	 classroom assignments (reports, term or research papers, models, projects, exhibits, posters, computer programs and
20 21 22	 homework); examinations (essay, multiple-choice and completion tests, oral tests and skill tests requiring demonstrations);
23 24 25	 weekly core curriculum benchmark assessments; alternative methods (portfolios and performance assessment).
26 2 . 27 28 29	The teacher will record a sufficient number of grades/ marks, as defined in subsection IV.C.1. in this section, to justify the marking-period grade/ mark. A marking-period grade is not based solely on a single project. Passing grades on report cards indicate that the student is working within a range acceptable for the grade or subject, unless the subject is clearly identified as
31 32	remedial.
34 35 36 37 38 39	To receive a report card a student shall have been enrolled in school at least one-half $(1/2)$ of the forty-five day grading period as established by the official school calendar. If an elementary student is enrolled for less than one-half $(1/2)$ of the forty-five day grading period, a report card shall be issued, but a grade is not required. The report card needs to reflect the date of entry and attendance record. If a student withdraws, he shall be issued a grade on the withdrawal form as of the date of withdrawal. Amended 07-02-
41	96, 06-27-00, and 07-01-06 Students are to receive grades in all subjects in which they have received
43 44	instruction that grading period.
46	Change of Grades
48	Once a grade has been entered into a report card or electronically entered into a system for the preparation of report cards, then any and all grade changes should be made as follows:

REQUEST BY TEACHER FOR GRADE CHANGE:

- If the teacher who has made, entered or reported the grade feels it necessary to change the grade, he or she must submit a request in writing to the principal for a grade change.
- Whether the basis for the change is a mistake at the time of entry, or reconsideration of the assessment materials and evaluative sources, the teacher shall demonstrate in the writing the rationale, basis, and support for the grade as intended to be entered on the change.
- The principal shall consider the request made by the teacher, and meet with the teacher as the principal deems necessary, and determine whether to make the change as requested.
- The principal shall determine the request in writing and provide a written explanation as to the basis for the determination to the requesting teacher.
- Following the direction of the principal, the grade may be changed or left unchanged. Only if directed by the written notification of the principal, may the teacher entered grade be changed.
- Should a change in grade be directed after the student and parent(s)/ or parent(s) have been first notified of the grade, then the grade change shall be made on an official notification form to the parents, which shall contain the reasons and methodology for the change.

CHANGE OF GRADE WITHOUT TEACHER REQUEST:

- If a Principal considers changing a report card grade made, entered, or reported by a teacher, he or she must report in writing to the teacher that he or she is considering a student report card grade change.
- The teacher will be afforded an opportunity in writing to present the rationale, basis, and explanation for the grade as was entered.
- The principal shall consider the teacher's written support in making the grade.
- If the principal should determine to leave the grade as was entered unchanged, the principal need take no further action. If the principal determines to make a grade change over the teacher's objection, the principal shall set forth in writing the reason for the grade change, and provider therein a basis for the change of grade.
- Following the written notification of the teacher of the decision and basis for grade change, at the direction of the principal, the grade may be changed.

ELL Students

All ELL students are expected to participate in the FCAT-SSS Reading and FCAT Writing tests. However, ELL students who have received 12 months or less of instruction in an approved ESOL program can be exempt from taking FCAT-SSS Reading and FCAT Writing if an ELL Committee decides it is appropriate. Students with 504 plans may not be exempted from state assessments.

b. ESE Students

The IEP committee determines whether a student with a disability participates in state and district assessments. The decision to exclude any student with a disability must be documented by the IEP team by answering "yes" to all of the following questions:

- Is the student unable to master the grade-level Sunshine State Standards/ Next Generation Sunshine State Standards, even with appropriate and allowable course accommodations?
- Is the student's demonstrated cognitive ability the primary reason for the inability to master grade-level standards?
- Is the student participating in a modified or functional curriculum based on competencies from the Access Points for all academic areas?
- Does the student require extensive direct instruction in functional academics and Career and Technical competencies as well as domestic, community living and leisure activities?
- Does the student have deficits in adaptive behavior, as demonstrated by the inability to function effectively and independently in everyday living skills (interpersonal and social interactions) across a variety of settings?

Students who are excluded from state and district assessments will be assessed through the Florida Alternate Assessment.

The School Board may provide a hearing officer, who may be an employee of the School Board, in lieu of a School Board hearing, who shall hear the case and make a recommendation for final action to the School Board. If the School Board's final determination is that the strategies of the Early Truancy Intervention Team are appropriate, and the parent, guardian, or other person in charge of the child still refuses to cooperate, the Superintendent may seek criminal prosecution for noncompliance with compulsory school attendance.

 If a child subject to compulsory attendance will not comply with attempts to enforce school attendance, the parent, guardian or Superintendent or his designee shall refer the case to the case staffing committee pursuant to Florida Statutes, and the Superintendent or his designee may file a truancy petition pursuant to procedures outlined in Florida Statutes. 2. Students with Disabilities

a. 504 Students Amended 07-01-04

In the case of a student with excessive absences, a 504 Reevaluation meeting should be held to determine if the absences are caused by the disability of record on the active 504 Plan. If the 504 committee determines that the absences are caused by the disability, the committee must also determine a reasonable course of action, which may include the possible waiver of the attendance guidelines in determining grades, as well as consideration of a change of placement.

If the 504 committee determines that the absences are not caused by the disability, the student is treated in the same manner as that for a general education student.

b. ESE Students

All exceptional students will follow regular education attendance procedures.

In the case of an ESE Student with excessive absences, an IEP team meeting must be conducted to determine whether or not the absences are related to the student's disability. If the IEP team determines that the excessive absences **are** related to the student's disability, the IEP team must determine a reasonable course of action which may include the possible waiver of the attendance guidelines in determining grades as well as a change of placement.

48 If the IEP team determines that the student's excessive absences are not

C. **Response to Intervention (Rtl)** 1 2

Adopted 07-01-09

The district is committed to the implementation of a Response to Intervention (RtI)/ intervention framework to integrate and align efforts to improve educational outcomes and to meet the academic and behavioral needs of all students. Rtl is a data-driven decisionmaking process applied to education. The systematic use of student assessment data at the district, school, and classroom levels will guide decisions about the allocation of resources and the intensity of the instruction and interventions needed to improve student learning or behavior. The district's schools will provide high quality instruction and intervention(s) matched to student needs and will use rate of progress and level of performance to inform instructional decisions, including but not limited to, promotion, acceleration, remediation, and retention.

Intervention Assistance Teams will identify students through the review of universal 15 screening data and through teacher referral to determine the appropriate types and levels of 16 interventions. Standard district protocols will establish which initial interventions to use, and 17 diagnostic assessment will determine more intensive interventions. Teachers will consult 18 19 the district Rtl Curriculum Guides for available supports. Students who receive interventions beyond the core curriculum will have their rate of progress and level of performance 20 included in their records where appropriate. 21

1 III. **PROMOTION**

The purpose of the instructional program in the schools of Osceola County is to provide appropriate instructional and selected services to enable students to perform at or above their grade level academically. Promotion, however, is based primarily on student proficiency in reading, writing, mathematics, and science, and is not automatic. Amended 07-15-03

Decisions regarding student promotion, and retention are primarily the responsibility of the individual school's professional staff. The final decision concerning grade placement is the responsibility of the principal.

Student promotion in the Osceola County schools is based upon an evaluation of each student's achievement in terms of appropriate instructional goals. The determination should reflect teacher judgment based upon the following: successful progress in the county adopted curriculum, progress tests, classroom assignments, daily observation, standardized tests, and other objective data. The primary responsibility for determining each student's level of performance and ability to function academically, socially and emotionally at the next grade level is that of the classroom teacher, subject to review and approval of the principal.

C. Student Performance Levels for Reading, Writing, Mathematics, and Science Amended 07-15-03

FS 1008.25 requires that the district define specific levels of performance in reading, writing, mathematics, and science for each grade level. These levels of performance will be used to identify students who **must** receive remediation or be retained within an intensive program that is different from the previous year's program and takes into account the student's learning style.

In compliance with School Board's Objective (Improve accepted measures of success annually) and FS 1008.25, students will be identified as performing at one of three levels which indicates a student's achievement:

- above grade level,
- at grade level, or
- below grade level.

Performance levels are determined by various indicators that will include, but are not limited to, multiple measures using appropriate grade-level assessments as well as teacher judgment.

1. Required Program of Study – Grades 6-8

Grades 6-8 promotion should be based on standardized test results, daily assignments, teacher observation, teacher made tests, satisfactory attainment of the student performance standards in the curriculum frameworks and other objective information. If the achievement level is not met, the teacher shall utilize deficiency/ progress reports to communicate with the parent during the grading period. Notices to parent/ guardian of ELL students must be provided in the primary language, whenever feasible. Amended 06-27-00 and 07-01-02

The Superintendent should authorize the assignment.
 - The assignment will occur at the end of a grading period agreed upon by both the sending and receiving principal. If an ELL student is involved, the ELL committee shall meet to document the change in the ELL Student Plan. Amended 07-01-06, 07-01-08
- After agreement has been reached regarding an exceptional student, an Individual Education Plan meeting must be held prior to placement in the new assignment. The long-range academic, social, and emotional effect of the decision shall be considered.
- 16 The principal has the responsibility for making such an assignment, but a student will not be 17 accelerated without parental consent. Amended 6/ 30/ 91 and 06-27-00

Each Progress Monitoring Plan must outline an intensive remedial program in the area(s) of weakness designed to assist the student in meeting state and/ or district expectations for proficiency.

The Progress Monitoring Plan must clearly identify the:

- 1. specific, diagnosed academic needs to be remediated,
- 2. success-based intervention strategies to be used, and
- 3. the intensive variety of remedial instruction to be provided, and
- 4. monitoring and reevaluation activities to be employed. FS 1008.25 (4)(b)
- Each student who does **not** meet the levels of performance as determined by the district **must** be provided with additional diagnostic assessments to determine the nature of the student's difficulty and areas of academic need. FS 1008.25 (4)(a)
- Data from the additional assessments are to be used to formulate the student's PMP.
- Schools shall also provide for the frequent monitoring of the student's progress. FS
 1008.25(4)(b)

1 2 3 4	 Diagnosis and remediation will occur as soon as possible after a student has been identified as deficient in reading, writing, mathematics, and/ or science, FS 1008.25(4)(a).
5 6 7 8	 If the student identification occurs during the fourth marking period, the diagnosis will be made at the beginning of the following school year with remediation immediately following.
9 10 11	A student who is not meeting the school district or state requirements for proficiency in reading and math shall be covered by one of the following plans to target instruction and identify ways to improve his or her academic achievement:
12 13 14 15	 A federally required student plan, such as an individual education plan, FS 1008.25 (4)(b)1;

19 20 21 22 23 24 25	The plan chosen must be designed to assist the student or the school in meeting state and district expectations for proficiency. If the student has been identified as having a deficiency in reading, the K-12 comprehensive reading plan required by FS 1011.62 (8), shall include instructional and support services to be provided to meet the desired levels of performance. District school boards may require low performing students to attend
25 26 27	remediation programs held before or after regular school hours or during summer if transportation is provided. FS 1008.25 (4)(b)3
28 29 20	If the documented deficiency is not remediated according to the PMP, the student may be retained. FS 1008.25 (4)(c)
30 31 32 33 34 35 36 37 38	Diagnostic assessments may include, but are not limited to: teacher assessment text/ placement tests reading running records diagnostic software STAR Reading STAR Math.

42	 variety of opportunities for repetitions (repeated exposure)
43	 smaller chunks of text or content
44	 guided and independent practice
45	 skill development and practice integrated into all activities
46	 frequent monitoring

48	Studente in Credeo 6.9 where performance in reading writing methometics and/
49	Students in Grades 6-8 whose performance in reading, writing, mathematics, and/ or
50	science requires remediation must have a PMP or comparable individual academic plan.
51 52	 Students whose performance is minimally below grade level may need a PMP. PMP's are required for Grades 6-8 students who are performing below grade level.

1 An existing PMP is to be **closed** at the conclusion of the school year. 2 At that time, the teacher(s) of the student who had a PMP is to make 3 recommendations regarding the student's educational program for the following year. 4 The PMP should be placed in the student's permanent record at the close of each 5 • year or at the time of student withdrawal. 6 7 8 If a student is to continue remediation during the following year, he or she is to receive a new PMP. 9 The new PMP is to be developed through the collaboration of the receiving 10 teacher(s) and the parent(s)/ guardian(s) and approved by the principal. 11 Recommendations of the sending teacher(s) are to be reviewed as part of the PMP 12 13 progress. 14 Students who do not meet minimum performance expectations for the statewide 15 assessment tests in reading, writing, mathematics, and/ or science must continue remedial 16 instruction until expectations are met. 17 18 19 1. This committee will develop an PMP 24 for the student in accordance with the following guidelines and procedures: 25 Adopted 06-27-00 26 27 The reason for the academic under-performance of an ELL student must not 28 29 imply that he/ she needs an extra year to learn English or that it is due to the student's lack of English proficiency. 30 31 32 Establish lack of academic progress in reading, writing, mathematics, and/ or science using a composite of indicators that includes, but is not limited to: grade 33 level checklists, pre-tests and post-tests, CELLA results, alternate assessment 34 results, previous academic records, diagnostic assessment in the home 35 language, and any other appropriate indicator of academic progress. 36 37 The first PMP/ ELL committee meeting develops an PMP that includes a list of 38 intensive remedial instructional strategies designed to assist the ELL student 39 (NOTE: ESOL accommodations are not considered remedial strategies). 40 41 The second PMP committee meeting, with ESOL representation, is held within 42 18 weeks to review the effectiveness of the remedial strategies. If the ELL 43 student does not make satisfactory progress, the curriculum may be suspended 44 and intense remedial instruction in reading and/ or mathematics is provided 45 based on the student's deficiencies. 46 47 48 If the ELL student still has not made satisfactory progress after implementing the PMP for at least 27 weeks, the ELL committee may recommend retention unless 49 conditions exist such that retention would be more adverse for the student than 50 51 promotion. 52

EFFECTIVE 07-01-11

 The ELL Committee may exempt ELL students from the retention provision. The ELL student may be recommended for promotion based on at least three (3) good cause considerations such as educational background, academic ability in home/ native language, receipt of two (2) years or less of instruction in an approved ESOL program, current academic progress corresponding to the language arts through ESOL manual, acculturation to new culture, home support, age appropriateness, and mobility.

2. Gifted Students

- A schoolwide system of progress monitoring for all students, FS 1008.25 (4)(b)2; or
- 3. An individualized progress monitoring plan. FS 1008.25 (4)(b)3

If the student's federally required plan does not address the student's deficiency in reading or mathematics as required by Florida law, then the school must address these deficits in either a schoolwide progress monitoring system or an individual progress-monitoring plan.

When an ESE student is determined to be performing below grade level in reading, writing, or mathematics, ESE/ Regular Education Teacher should write a PMP to address the student's educational needs. The PMP should be developed with the involvement of the parent/ guardian.

A. Parent(s)/ Guardian(s) – Written Notification Requirements Amended 07-15-03, 07-01-04

FS 1008.25 (7)(a) specifies that the district school board must annually report to the parent of each student the progress of the student towards achieving state and district expectations for proficiency in reading, writing, science and mathematics, including the student's results on each statewide assessment test. The evaluation of each student's progress must be based upon the student's classroom work, observations, tests, district and state assessments, and other relevant information. Progress reporting must be provided to the parent in writing in the format adopted by the district school board. Progress reports for ELL students shall be provided in the parent's native language when feasible. No one test with a single administration should determine promotion or retention. The preponderance of evidence from evaluations should be used to determine if a student is ready for the work of the next grade.

- 19 **B. Report Cards** Amended 07-15-03, 07-01-08
 - FS 1003.33 (1) requires that district report cards for all secondary school students must clearly grade or mark:
 - the student's academic performance in each class or course in Grades 6-8 (based upon examinations as well as written papers, class participation and other academic performance criteria);
 - the student's conduct and behavior; and
 - the student's attendance, including absences and tardiness.
- The student's final report card for a school year shall contain a statement indicating end-of-year status regarding performance or nonperformance at grade level, acceptable or unacceptable behavior and attendance and promotion or nonpromotion.
 - All schools shall use a standard report card appropriate for the level (K, 1-2, 3-5, 6-8, and 9-12) as the primary means of reporting student progress.
 - With the approval of the Superintendent and the School Board, schools may develop additional or supplementary instruments, which may be used in conjunction with the standard report card. Amended 07-29-97 and 06-25-99
 - Report cards shall be issued for all students, 6-8, at the close of each grading period. Amended 06-30-92
 - Progress Reports may be issued at the end of the extended year programs and services, i.e., extended school year, Saturday school, before and after school programs. Adopted 06-27-00, 07-01-09

- Parents are to be notified in writing midway in a nine week grading period or at any time during a grading period when it is apparent that the student may not pass or is performing unsatisfactorily in any course or grade level. The county Deficiency/ Progress Report and/ or approved electronic Progress Report form will be used for this notification. Amended 06-15-99 and 06-27-00
 - Report cards for English Language Learner (ELL) students must be in the primary language of the parent/ guardian, whenever feasible. These primary language report cards are to be attached to the English report card. Adopted 06-27-00

C. General Rules of Marking

Report Card Grades Amended 07-01-04, 07-01-09

- 1. Teachers will determine report card grades that provide the student and the student's parents(s)/ guardians(s) with an objective evaluation of the student's scholastic achievement, and effort.
 - Marks are based on the quality of student performance relative to expected levels of achievement of the Sunshine State Standards/ Next Generation Sunshine State Standards that the teacher observes and evaluates.
 - The student's academic grades are to reflect academic achievement. The quality of the work will be assessed by multiple measures that include, but not limited to:
 - teacher observations (oral presentations or reports, speeches, recitations, impromptu speaking, student participation and demonstrations);
 - classroom assignments (reports, term or research papers, models, projects, exhibits, posters, computer programs and homework);
 - examinations (essay, multiple-choice and completion tests, oral tests and skill tests requiring demonstrations);
 - weekly core curriculum benchmark assessments;
 - alternative methods (portfolios and performance assessment).
- 2. The teacher will record a sufficient number of grades/ marks, as defined in subsection IV.C.1. in this section, to justify the marking-period grade/ mark. A marking-period grade is not based solely on a single project. Passing grades on report cards indicate that the student is working within a range acceptable for the grade or subject, unless the subject is clearly identified as remedial.
- 3. To receive a report card a student shall have been enrolled in school at least one-half (1/2) of the forty-five day grading period as established by the official school calendar. If a middle school student is enrolled for less than one-half (1/2) of the forty-five day grading period, a report card shall be issued, but a grade is not required. The report card needs to reflect the date of entry and attendance record. If a student withdraws, he shall be issued a grade on the withdrawal form as of the date of withdrawal. Amended 07-02-96, 06-27-00, and 07-01-06

- 4. Students are to receive grades in all subjects in which they have received instruction that grading period.
 - 5. <u>Change of Grades</u>

 Once a grade has been entered into a report card or electronically entered into a system for the preparation of report cards, then any and all grade changes should be made as follows:

REQUEST BY TEACHER FOR GRADE CHANGE:

- If the teacher who has made, entered or reported the grade feels it necessary to change the grade, he or she must submit a request in writing to the principal for a grade change.
- Whether the basis for the change is a mistake at the time of entry, or reconsideration of the assessment materials and evaluative sources, the teacher shall demonstrate in the writing the rationale, basis and support for the grade as intended to be entered on the change.
- The principal shall consider the request made by the teacher, and meet with the teacher as the principal deems necessary, and determine whether to make the change as requested.
- The principal shall determine the request in writing and provide a written explanation as to the basis for the determination to the requesting teacher.
- Following the direction of the principal, the grade may be changed or left unchanged. Only if directed by the written notification of the principal, may the teacher entered grade be changed.
- Should a change in grade be directed after the student and parent(s)/ or parent(s) have been first notified of the grade, then the grade change shall be made on an official notification form to the parents, which shall contain the reasons and methodology for the change.

CHANGE OF GRADE WITHOUT TEACHER REQUEST:

- If a Principal considers changing a report card grade made, entered, or reported by a teacher, he or she must report in writing to the teacher that he or she is considering a student report card grade change.
- The teacher will be afforded an opportunity in writing to present the rationale, basis, and explanation for the grade as was entered.
- The principal shall consider the teacher's written support in making the grade.

1 I. ENTRY, ATTENDANCE, AND WITHDRAWAL

All children who have attained the age of six (6) years or who will have attained the age of six (6) years by February 1 of any school year or who are older than six (6) years of age but who have not attained the age of sixteen (16) years are required to attend school regularly during the entire school term.

A. Initial Entry Requirements

It is the responsibility of parent(s)/ guardian(s) of students entering Osceola County schools for the first time to present the following at the time of registration:

1. Evidence of Age Amended 06-27-95, 07-15-03

Florida Statute (FS) 1003.21 requires that students enrolling in Florida public schools must present evidence of their age. Evidence submitted shall be a valid birth certificate, or other documentation of birth, as listed in Florida Statute 1003.21.

*If a passport or immigration document is used as evidence of age, it may not be duplicated. Only a notation may be placed in the student's record. Adopted 06-27-00

Maximum Age Limit for Attendance

- A person who has attained the age of eighteen (18) years and has not earned at least 16 credits on or before opening of the school year shall not be enrolled in any regular high school program and shall be directed to enroll in a Career Center or the Adult High School unless a Review Committee, composed of a guidance counselor, the principal, and the Student Services Director, determines it is the most appropriate educational placement.
- A student who attains the age of sixteen (16) years during the school year is not subject to compulsory school attendance beyond the date upon which he/ she attains that age if the student files a formal declaration of intent to terminate school enrollment with the district at the exit interview. The declaration must acknowledge that terminating school enrollment is likely to reduce the student's earning potential and must be signed by the exiting student and the parent/guardian.
 - A child who attains the age of eighteen (18) years during the school year is not subject to compulsory school attendance beyond the date which he/ she attains that age.

A student with a disability shall be considered to be "in a continuous study program" when that student's Individual Education Plan (IEP) requires continued services by the district. If a student with a disability graduates with a special diploma, a certificate of completion, or a special certificate of completion, and has not reached the age of 22, the student may, at his/ her option, continue to receive Free and Appropriate Public Education (FAPE) until that student's twenty-second (Age 22) birthday or until he/ she earns a standard diploma whichever comes first. Graduation with a standard diploma, regardless of age, constitutes cessation of FAPE requiring written prior notice.

2. Health Requirements

a. Certificate of Physical Examination Amended 06-30-92, 07-01-09

A certificate of a physical examination within the twelve-month period immediately preceding enrollment shall be presented before a child is allowed to attend classes. The certificate shall be signed by a licensed practicing physician, or an Advanced Registered Nurse Practitioner certifying that the student has no contagious or communicable disease which would warrant the student's exclusion from public schools. A Physician's Assistant operating under the supervision of Osceola County Public Health Director may also sign the certificate. Amended 06-27-95

Students, other than children of military personnel, transferring from a foreign country must possess an examination certificate issued within the United States.

Exception:

The student was previously enrolled in a Florida school.

b. Immunization Amended 07-21-98 and 07-15-03

Each student who is otherwise entitled to admittance to an Osceola County School, shall be required to present a certificate of immunization on a Florida form, showing that the student has received inoculations for those communicable diseases for which immunization is required by the Division of Health, and Florida Statute 1003.22.

B. Transfer Students

1. General Transfer Information Amended 07-01-04 and 07-01-06

The school principal or designee will determine placement of a student who transfers from other countries, counties, states, private schools or from a home education program.

The procedures for the acceptance of transfer work and credit for students entering Osceola County's public high schools shall be as follows:

(1) Credits and grades earned and offered for acceptance shall be based on official transcripts, when available, and shall be accepted at face value subject to validation if required by the receiving school's accreditation. All out of state credits will be accepted as regular level credits unless specifically designated otherwise. If validation of the official transcript is deemed necessary, or if the student is unable to obtain an official transcript or is a home education student, credits shall be validated through performance during the first grading period as outlined in subsection B.1.(2). However, schools shall make every appropriate effort to assist the student in obtaining an official transcript.

(2) Validation of credits shall be based on performance in classes at the receiving school. A student transferring into a school shall be placed at the appropriate sequential course level and should have a minimum grade point average of 2.0 at the end of the first grading period. Students who do not meet this requirement shall have credits validated using the Alternative Validation Procedure, as outlined in subsection (3).

(3) Alternative Validation Procedure. If validation based on performance as described above is not satisfactory, then any one of the following alternatives shall be used for validation purposes as determined by the teacher, principal, and parent:

33	and parent:	
34		(a) Portfolio evaluation by the superintendent or designee;
35		(b) Written recommendation by a Florida certified teacher
36		selected by the parent and approved by the principal;
37		(c) Demonstrated performance in courses taken through dual
38		enrollment or at other public or private accredited schools;
39		(d) Demonstrated proficiencies on nationally-normed
40		standardized subject area assessments;

Adopted 07-01-09

The district is committed to the implementation of a Response to Intervention (RtI)/ intervention framework to integrate and align efforts to improve educational outcomes and to meet the academic and behavioral needs of all students. RtI is a data-driven decision-making process applied to education. The systematic use of student assessment data at the district, school, and classroom levels will guide decisions about the allocation of resources and the intensity of the instruction and interventions needed to improve student learning or behavior. The district's schools will provide high quality instruction and intervention(s) matched to student needs and will use rate of progress and level of performance to inform instructional decisions, including but not limited to, promotion, acceleration, remediation, and retention.

Intervention Assistance Teams will identify students through the review of universal screening data and through teacher referral to determine the appropriate types and levels of interventions. Standard district protocols will establish which initial interventions to use, and diagnostic assessment will determine more intensive interventions. Teachers will consult the district Rtl Curriculum Guides for available supports. Students who receive interventions beyond the core curriculum will have their rate of progress and level of performance included in their records where appropriate.

D. Advanced Placement Scholars (APS) Program

Adopted 07-01-09

The Advanced Placement Scholars (APS) program is designed to give students multiple Advanced Placement (AP) course offerings by teachers who are specially trained through the College Board. Each program offers a wide variety of AP courses relating to personal interests and individual academic strengths. Students who successfully complete the program will receive an AP Scholars Program diploma seal, transcript notations, and special recognition at graduation.

Unlike a traditional AP program, as ninth-grade students enter the program, they will be enrolled in pre-AP courses to prepare them before they enter formal AP courses. This procedure will provide additional preparation and support for students as they pursue AP curricula. The students will enroll in AP Human Geography, a formal ninth grade AP course. The AP preparation will continue in tenth grade, as students enroll in AP World History and specially designed English, math, science, and elective courses that prepare them for a larger slate of AP courses in both the eleventh and twelfth grades. With the assistance of parents, the site coordinator, and the faculty, student education will be individualized. Students will not have a prescribed curriculum universally, but rather an individualized learning plan which capitalizes on students' unique interests, abilities, and future goals.

E. Career and Technical Education Programs

The School District of Osceola County offers a variety of career and technical education programs at the high school level that help students prepare for high skill-high wage occupations and for postsecondary educational opportunities. It is essential that students, parents, teachers, guidance counselors, and administrators be aware that most individual career and technical education courses do not stand alone but are part of a planned sequence of courses leading to occupational proficiency and program completion at the high school or postsecondary level. Many of the career and technical education programs also prepare students to acquire industry certification in the career field. Not all career and technical education programs are offered at all high schools. Some are offered as a Career and Technical Academy. Students are encouraged to complete an electronic Personal Education Plan (ePEP) before entering a career and technical education program or a career academy.

If a student is to continue remediation during the following year, he or she is to 1 receive a **new PMP**. 2 3 The new PMP is to be developed through the collaboration of the receiving 4 teacher(s) and the parent(s)/ guardian(s) and approved by the principal. 5 Recommendations of the sending teacher(s) are to be reviewed as part of the 6 PMP progress. 7 8 Students who do not meet minimum performance expectations for the statewide 9 assessment tests in reading, writing, mathematics, and/ or science must continue 10 11 remedial instruction until expectations are met. 12 1. ELL Students – Progress Monitoring Plan Process 13 Amended 07-15-03 and 07-01-06 14 15 English Language Learner students who are unable to demonstrate mastery 16 in academic subject areas as described in the Student Progression Plan will 17 be referred to an Progress Monitoring Plan / ELL committee. This committee 18 will develop an PMP for the student in accordance with the following 19 guidelines and procedures: Adopted 06-27-00 20 21 22 The reason for the academic under-performance of an ELL student must **not** imply that he/ she needs an extra year to learn English or that it is 23 due to the student's lack of English proficiency. 24 25 Establish lack of academic progress in reading, writing, mathematics, and 26 • science using a composite of indicators that includes, but is not limited to: 27 grade level checklists, pre-tests and post-tests, CELLA results, alternate 28 assessment results, previous academic records, diagnostic assessment 29 in the home language, and any other appropriate indicator of academic 30 31 progress. 32 The first PMP/ ELL committee meeting develops an Progress Monitoring 33 Plan that includes a list of intensive remedial instructional strategies 34 designed to assist the ELL student (NOTE: ESOL accommodations are 35 not considered remedial strategies). 36 37 The second PMP committee meeting, with ESOL representation, is held 38 within 18 weeks to review the effectiveness of the remedial strategies. If 39 the ELL student does not make satisfactory progress, the curriculum may 40 be suspended and intense remedial instruction in reading and/ or 41 mathematics is provided based on the student's deficiencies. 42 43 If the ELL student still has not made satisfactory progress after 44 implementing the Progress Monitoring Plan for at least 27 weeks, the ELL 45 committee may recommend retention unless conditions exist such that 46 retention would be more adverse for the student than promotion. 47 48

1 2 3 4 5 6 7 8 9 10		 The ELL Committee may exempt ELL students from the retention provision. The ELL student may be recommended for promotion based on at least three (3) good cause considerations such as educational background, academic ability in home/ native language, receipt of two (2) years or less of instruction in an approved ESOL program, current academic progress corresponding to the language arts through ESOL manual, acculturation to new culture, home support, age appropriateness, and mobility.

- Students who selected the accelerated option before July 1, 2004, are grandfathered in under the original state requirements.
- Florida Statute 1003.43 permits that participation in an interscholastic sport, at the junior varsity, or varsity level for two full seasons, may substitute for the Physical Education requirement if the student passes a competency test on personal fitness with a score of "C" or better. This substitution fulfills the Physical Education requirement but does not grant credit toward the overall 24-credit state requirement for graduation.
- Students who entered prior to the 2007 school year and are enrolled in a marching band class or a physical activity class that requires participation in marching band activities may substitute ½ the Physical Education requirement with participation in the marching band. This substitution fulfills ½ the Physical Education requirement but does not grant credit toward the overall 24-credit state requirement for graduation. Amended 7/ 01/ 02 and 07-01-06
- Students must still satisfy the 24-credit requirement for graduation by earning equivalent credit in another course but will not be required to meet the one (1) credit requirement in physical education. The Physical Education credit cannot be required of ninth grade students. Adopted 07-29-97, Amended 07-21-98
 - <u>Students who entered Grade 9 prior to the 2007-08 school year</u> may fulfill the practical arts requirement with any credit for a secondary or eligible postsecondary course in the Career and Technical Section of the Florida Course Code Directory or by substituting one of the basic Computer Education Courses or Journalism II, III or IV on a curriculum equivalency basis. Adopted 07-01-08
 - No more than one (1) credit in Exploratory Technical courses may be used for credit toward high school graduation.
 - A student may not enroll in Level I courses unless the assessment of the student indicates that a more rigorous course of study would be inappropriate, in which case, a written assessment of the need must be included in the student's individual education plan or in a student performance plan signed by the principal, guidance counselor, and the parent. Parents of students who have cumulative grade point averages less than 0.5 above the required graduation level shall be notified that the student is at risk of not meeting the graduation requirements. This notification shall be in the form provided in the District approved reporting procedures. Adopted 07-29-97, Amended 06-19-

• Grade Forgiveness Policy

Students entering ninth grade in 2000-2001 and thereafter who earn grade of "D" or "F" may retake a course to improve their skills, grade, and GPA.

The grade forgiveness policy for *required courses* shall be limited to replacing a grade of "D" or "F," or the equivalent of a grade of "D" or "F," with a grade of "C" or higher, or the equivalent of a grade of "C" or higher, earned subsequently in the *same or comparable course*.

The grade forgiveness policies for *elective courses* shall be limited to replacing a grade of "D" or "F," or the equivalent of a grade of "D" or "F," with a grade of "C" or higher, or the equivalent of a grade of "C" or higher, earned subsequently in *another course*.

A. Parent(s)/ Guardian(s) – Written Notification Requirements Amended 07-15-03, 07-01-04

Florida Statute 1008.25(7)(a) specifies that the district school board must 5 annually report to the parent of each student the progress of the student 6 towards achieving state and district expectations for proficiency in reading, 7 writing, mathematics, and science, including the student's results on each 8 statewide assessment test. The evaluation of each student's progress must 9 be based upon the student's classroom work, observations, tests, district and 10 state assessments, and other relevant information. Progress reporting must 11 be provided to the parent in writing in the format adopted by the district 12 school board. Progress reports for ELL students shall be provided in the 13 parent's native language when feasible. 14 No one test with a single administration should determine promotion for retention. The preponderance 15 of evidence from evaluations should be used to determine if a student is 16 ready for the work of the next grade. 17

18 B. Report Cards Amended 07-15-03

19FS 1003.33 (1) requires that district report cards for all secondary school20students must clearly grade or mark:

- the student's academic performance in each class or course in Grades 9-12 (based upon examinations as well as written papers, class participation and other academic performance criteria);
 - the student's conduct and behavior; and
 - the student's attendance, including absences and tardiness.

The student's final report card for a school year shall contain a statement indicating end-of-year status regarding performance or nonperformance at grade level, acceptable or unacceptable behavior and attendance and promotion or nonpromotion.

- All schools shall use a standard report card appropriate for the level (K, 1-2, 3-5, 6-8, and 9-12) as the primary means of reporting student progress.
 - With the approval of the Superintendent and the School Board, schools may develop additional or supplementary instruments, which may be used in conjunction with the standard report card.
 - Report cards shall be issued for all students, 9-12, at the close of each grading period.
 Amended 06-30-92
- Parents are to be notified in writing at any time during a grading period when it is apparent that the student may not pass or is performing unsatisfactorily in any course or grade level. The county Deficiency/ Progress Report and/ or approved electronic Progress Report form will be used for this notification. Amended 06-15-99 and 06-27-00

1 2 Progress Reports may be issued at the end of the extended year programs and 3 services, i.e., extended school year, Saturday school, before and after school programs. Adopted 06-27-00, 07-01-09 4 5 Report cards for English Language Learner (ELL) students must be in the 6 primary language of the parent/ guardian, whenever feasible. These primary 7 8 language report cards are to be attached to the English report card. Adopted 06-27-00 9 10 11 Adult Education students will be issued a Certificate of Attendance or a Certificate of Program Completion upon request. Amended 06-29-93 and 06-27-12 95 13 14 C. **General Rules of Awarding Grades and Credit** 15 Amended 07-01-09 16 17 1. Teachers will determine report card grades that provide the student and the 18 student's parents(s)/ guardians(s) with an objective evaluation of the 19 student's scholastic achievement and effort. Students and parents are to be 20 advised of the grading criteria employed in the school and in each class at 21 22 the time of enrollment. 23 2. 24 Marks are based on the quality of student performance relative to expected 25 levels of achievement of the Sunshine State Standards/ Next Generation Sunshine State Standards that the teacher observes and evaluates. 26 27 3. The student's academic grades are to reflect academic achievement. The 28 quality of the work will be assessed by multiple measures that include, but not 29 limited to: 30 teacher observations (oral presentations or reports, speeches, recitations, 31 • 32 impromptu speaking, student participation and demonstrations); classroom assignments (reports, term or research papers, models, 33 • 34 projects, exhibits, posters, computer programs and homework); examinations (essay, multiple-choice and completion tests, oral tests and 35 • 36 skill tests requiring demonstrations); weekly core curriculum benchmark assessments; 37 • alternative methods (portfolios and performance assessment). 38 39 4. Grades in conduct are to be assigned independently of academic 40 achievement. Standards for grading in these areas are to be explained to the 41 students. 42 43 5. A remedial student making a C or better at grade level for two (2) grading 44 periods shall be considered for placement in the regular classroom. 45 46 6. Students who enroll in school or class late shall be allowed to make up the 47 class work. In order to receive full semester credit, a student must be 48 enrolled in any school a minimum of forty-five days. 49 50

- 7. The teacher will record a sufficient number of grades/ marks, as defined in subsection V.C.3. in this section, to justify the marking-period grade/ mark. A marking-period grade is not based solely on a single project. Passing grades on report cards indicate that the student is working within a range acceptable for the grade or subject, unless the subject is clearly identified as remedial.
 - 8. To receive a report card a student shall have been enrolled in school at least one-half (1/2) of the forty-five day grading period as established by the official school calendar. If an elementary student is enrolled for less than one-half (1/2) of the forty-five day grading period, a report card shall be issued, but a grade is not required. The report card needs to reflect the date of entry and attendance record. If a student withdraws, he shall be issued a grade on the withdrawal form as of the date of withdrawal. Amended 07-02-96, 06-27-00, and 07-01-06
 - 9. Students are to receive grades in all subjects in which they have received instruction that grading period.
 - 10. Change of Grades

- Whether the basis for the change is a mistake at the time of entry, or reconsideration of the assessment materials and evaluative sources, the teacher shall demonstrate in the writing the rationale, basis and support for the grade as intended to be entered on the change.
- The principal shall consider the request made by the teacher, and meet with the teacher, as the principal deems necessary, and determine whether to make the change as requested.
- The principal shall determine the request in writing and provide a written explanation as to the basis for the determination to the requesting teacher.
- Following the direction of the principal, the grade may be changed or left unchanged. Only if directed by the written notification of the principal, may the teacher entered grade be changed.
- Should a change in grade be directed after the student and parent(s)/ or parent(s) have been first notified of the grade, then the grade change shall be made on official notification to the parents, which shall contain the reasons and methodology for the change.

For a course in which a **quarterly exam** is given, the quarterly exam grade shall count no more than 10% of the final grade.

A minimum of 30% of the student's course grade must be comprised of performance on the **statewide**, **standardized end-of-course assessment** if one is required for that course (see IV.D.). For such a course,

15. In Grades 9-12, a numerical average is determined by the teacher, at the end of each nine (9) week grading period and the corresponding letter grade (as determined by the grading scale in subsection V.D.1.) is recorded on the report card. If a semester exam is given, the numerical exam score is also converted to the corresponding letter grade as determined by the grading scale in subsection V.D.1. To determine the final grade, the numerical grades are averaged together, as outlined in subsection V.C.14, and the numerical average will be converted to the corresponding letter grade from the grading scale, and reported on the report card.

If the resulting average is not a whole number, the number is rounded to the nearest whole number as follows:

- If the decimal is equal to or greater than 0.5, then the number is rounded up to the nearest whole number.
 - If the decimal is less than 0.5, then the number is rounded down to the nearest whole number.

16. If an "I" (incomplete) is recorded on a report card, the requirements for which the incomplete was assigned must be satisfied within two weeks of the issuance of report cards or the "I" becomes "F." At the teacher's discretion, a longer period of time may be allowed for makeup work. For each student granted additional time, the teacher shall complete and submit in a timely

Guidelines for Grading and Reporting Academic Progress of ELL Students Amended 06-27-00, 07-01-09

The course grade and academic progress of ELL students will be based on the results of teacher observation, alternative assessments, and modified tests used to assess the understandable instruction provided through the use of ESOL teaching strategies, appropriate instructional materials, and curriculum accommodations.

If there is a continued pattern of failure in classroom performance and assessments, the ELL committee shall meet to review the reasons for the student's lack of progress. The reason(s) documented for the academic under-performance of an ELL student **cannot imply** that he/ she needs an extra year to learn English or that it is due to the student's lack of English proficiency.

The following documentation needs to be in the student permanent records:

- Documentation of the ESOL strategies used by the ESOL language arts and basic content area teacher(s) to provide understandable instruction, including the alternative assessment instruments and test accommodations used to evaluate the student's academic progress.
- The records of parental contacts or attempts made to inform the parent/ guardian of the student's under-performance. When applicable, copies of the deficiency reports signed by the student and parent/ guardian. Notices to parent/ guardian of ELL students must be provided in the home/ native language, whenever feasible.
- The instructional support requested by the teacher(s) to provide additional assistance for the student from the ESOL Assistant, Title III Specialist (if available), or ESOL Educational Specialist available at the school.

F. District/ State Assessment Programs

Adopted 06-19-01, Amended 07-01-06

All students must participate in all regular district and state assessments for accountability purposes [FS 1008.22, 1008.25 (4)(a)].

Parents are to be advised of their child's performance on all standardized tests administered as part of the countywide testing program.

Home education students who wish to participate in the Florida Comprehensive Assessment Test (FCAT) may do so under the following conditions:

- Home education students may take the FCAT only at the school for which they are zoned.
- Home education students must abide by all the rules of the Student Code of Conduct while on any Osceola County school campus. Failure to do so will result in the removal of the student from the campus and loss of testing privileges.
- Home education parents must notify the appropriate school(s) of their intention to participate in testing at least two weeks in advance of the scheduled test.

Exemptions from District/ State Assessments for Special Program Students Amended 07-01-08

ELL Students

All ELL students are expected to participate in the FCAT-SSS Reading and FCAT Writing tests. However, ELL students who have received 12 months or less of instruction in an approved ESOL program can be exempt from taking FCAT-SSS Reading and FCAT Writing if an ELL Committee decides it is appropriate. The alternate assessment to be used is the CELLA which will be given at the appropriate grade level. All ELL students, regardless of years of instruction, are expected to participate in the FCAT-SSS Mathematics and Science tests.

2. Students With Disabilities

a. 504 Students

Students with 504 plans **may not** be exempted from state assessments.

b. ESE Students Amended 07-01-06, 07-01-09

The IEP committee determines whether a student with a disability participates in state and district assessments. The decision to exclude any student with a disability must be documented by the IEP team by answering "yes" to all of the following questions:

- Is the student unable to master the grade-level Sunshine State Standards/ Next Generation Sunshine State Standards, even with appropriate and allowable course accommodations?
 - Is the student's demonstrated cognitive ability the primary reason for the inability to master grade-level standards?
 - Is the student participating in a modified or functional curriculum based on competencies from the Access Points for all academic areas?
 - Does the student require extensive direct instruction in functional academics and Career and Technical competencies as well as domestic, community living and leisure activities?
 - Does the student have deficits in adaptive behavior, as demonstrated by the inability to function effectively and independently in everyday living skills (interpersonal and social interactions) across a variety of settings?

Students who are excluded from state and district assessment will be assessed through the Florida Alternate Assessment. Students excluded from the state required graduation test will not be eligible for a standard high school diploma.

1 2 3 4 5 6 7 8 9	I.	Students with disabilities, as defined in Section 228.041(18), Florida Statutes, are eligible for consideration of a special exemption from the graduation test requirement under extraordinary circumstances that create a situation where the results of administration of the graduation test would reflect a student's impaired sensory, manual, or speaking skills rather than the student's achievement.
