help@autismspeaks.org

Newly diagnosed:

Contact ART to learn how to make the best use of the first 100 days after receiving an ASD diagnosis.

School support:

ART can provide resources and tools to help you support a student's individual needs.

Transition to adulthood:

ART can connect you to resources to start planning for your adolescent child's future.

Local referrals:

ART can help you find autism service providers in your area.

Dear Parents,

This year the Autism Speaks Walk you know and love is going virtual, for the safety of our community. The best part is that remote doesn't mean apart! This October, in honor of anti-bullying month, and in anticipation of World Kindness Day on November 13th, we invite you to join us in creating a kinder and more inclusive world for those with autism and their families.

We invite you to join us at this year's Autism Speaks Walk on Saturday, November 14th, 2020 by walking where you are. Celebrate in whatever way feels safe and fun for your family. Join us by creating a walk team at www.autismspeakswalk.org/centralflorida today.

Have questions about the walk? Give us a call at (407) 483-2282 or email us at centralfloridawalk@autismspeaks.org
