

3DE[™]
BY JUNIOR ACHIEVEMENT

3DE is a comprehensive instructional model that is designed to inspire and prepare young people to succeed in a global economy.

- 3DE integrates authentic case method to systemically engage local and national business partners and provide students exposure to various industries, as well as the opportunity to collaborate and produce solutions to real-world problems.
- 3DE lifts competencies as part of an expanded definition of student success and supports students with mastering the skills necessary for post-secondary plans.
- 3DE implements interdisciplinary cohorts that deliver thematic content to contextualize learning and infuse relevance across core academics.
