## 2021-22 SCHOOL YEAR FOR STUDENTS

01 PAUSE

Be surgical not sweeping. Quickly assess and limit the impact.

If you feel sick or see symptoms of sickness, stay home or send home.

Schools should continue to encourage routine cleaning of classrooms and high-traffic areas.

Continue to encourage and practice hand washing throughout the day.

PROTOCOLS FOR CONTROLLING COVID-19

## **COVID-19 Symptomatic Decision Tree For Students\***

\*\*Per CDC, exposure is close contact of 6 feet or less for 15 minutes or more. Contact at greater than 6 feet or for less than 15 minutes is generally not sufficient to transmit the virus.

Exposed\*\* to COVID-19 positive case

Asymptomatic

Return after

Symptomatic See Section 2

\_

Student receives a negative test at least 4 days after the date of exposure

If fully vaccinated, no quarantine needed as long as remain asymptomatic - should monitor for symptoms

ΩP

Student is asymptomatic and 7 days have passed since the date of exposure to positive individual

Student receives a negative test and is asymptomatic

OR

10 days have passed since symptom onset or positive test result, the student has had no fever for 24 hours and the student's other symptoms are improving

OR

Student receives written permission from a healthcare provider to return to school

Protocol for Students Symptomatic or COVID-19 positive

Return after

Students with prior COVID-19 infection

Positive case within previous 90 days or fully vaccinated

Symptomatic

No action required

See Section 2

\*As of August 18, 2021
