Quantity 1 Unit Price \$17.99

written by Shari Goldhagen

There are only three things that can get seventeen-year-old Molly Byrne out of bed these days: her job at FishTopia, the promise of endless episodes of Golden Girls, and some delicious lo mein. You see, for the past two years, Molly's been struggling with something more than your usual teenage angst. Her shrink, Dr. Brooks, isn't helping much, and neither is her mom, who is convinced that baking the perfect cake will cure Molly of her depression--as if cake can magically make her rejoin the swim team, get along with her promiscuous sister, or care about the SATs.

#2026843 36 Questions That Changed My Mind About You (Hardcover (Trade))

written by Vicki Grant

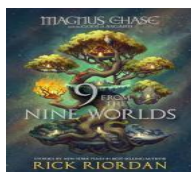

Two random strangers. Two secrets. Thirty-six questions to make them fall in love. Hildy and Paul each have their own reasons for joining the university psychology study that asks the simple question: Can love be engineered? The study consists of 36 questions, ranging from "What is your most terrible memory?" to "When did you last sing to yourself?" By the time Hildy and Paul have made it to the end of the questionnaire, they've laughed and cried and lied and thrown things and run away and come back and driven each other almost crazy.

#2019125 Aaron Rodgers: Champion Football Star (Library Binding)

Quantity 1 Unit Price \$21.70

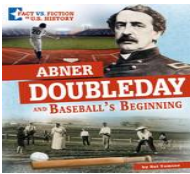

written by David Aretha

Kids know Aaron Rodgers as one of the NFL's best quarterbacks. He has won two NFL MVP Awards and led the Green Bay Packers to a Super Bowl title. He has orchestrated several "miracle" finishes, and he's the highest-rated passer in NFL history. In this book, kids will get to know Rodgers on a personal level. They'll see how he rose from a little-known QB at Butte Community College to a passing machine in Green Bay. Off the field, Rodgers impresses with his compassion, intelligence, and side-splitting humor. Engaging text--peppered with quotes--and high-impact photos accentuate the experience.

Psychology in Action (Mason Crest Publishers)

#2305437 Advertising and Marketing Psychology (Library Binding)
written by Leigh Clayborne

Most people like to think of themselves as rational, but when it comes to choosing what to buy, logic has very little to do with it. Emotional responses, habitual behaviors, and subtle hidden persuasion rule the day. Marketing psychologists use scientifically proven techniques to influence everything from how people see their products to how much they're willing to pay for them. Through a combination of true storytelling and science, the reader will explore how to become a marketing psychologist, the fascinating history of psychological marketing, the types of mental tricks that marketers use to convince them to buy their products, the dangers of falling for psychological marketing manipulations, and how every person can learn to identify these methods to become a more responsible and mindful consumer.

#1988593 Ali's Knockout Punch: How a Photograph Stunned the Boxing World (Library Binding)

written by Michael Burgan

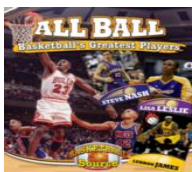

It's one of the most famous sports images of all time. Former heavyweight boxing champion Sonny Liston is sprawled on his back in the boxing ring. Muhammad Ali stands over Liston, holding his right hand as if ready to throw another punch. The reigning world champion had just thrown a short, right-handed punch to the side of Liston's head. In a flash, Liston had gone down. The photo of the angry Ali standing over the fallen challenger was taken in an instant by photojournalist John Rooney, but the controversy over the 1965 fight lingers to this day.

#84927 Barrel Racing (Library Binding)

written by Janell Broyles

Barrel racing is one of the few rodeo events in which animals and humans work cooperatively to defeat a common foe--in this case, the clock. Although this particular rodeo is so simple and is over quickly, it remains one of the most popular events of the sport and is one of the few dominated by female riders. The thrilling book opens by tracing the origins of barrel racing, describing the moment-by-moment breakdown of the event, and profiling various riders, including a barrel racing champion.

#2245614 Buried (Hardcover (Trade))

written by Melissa Grey

A heart-pounding, claustrophobic new story from Melissa Grey, the author of RATED. Ten years ago, disaster struck the remote town of Indigo Falls. A horrific event drove the residents underground, into shelters that keep them safe from the danger on the surface. No one speaks about what happened that fateful day, but even the youngest still remember the fear and, most of all, the searing pain when sunlight touched their skin. Now, a handful of families inhabit this bunker together, guided by a charismatic leader named Dr. Imogen Moran. There are many rules Dr. Moran has instilled to govern life belowground. You must always tell the truth. You must avoid the light of the sun. You must never touch skin to skin. But the most important rule, the one that was drilled into their heads from the moment the hatch slammed shut all those years ago, was at the very end of the list. It rattled around in their skulls when all was silent, echoing in the quiet, lonely dark. You must never go outside.

Psychology in Action (Mason Crest Publishers)

#2305438 Business Psychology (Library Binding)

written by Amy Sterling Casil

Business psychology, also called "industrial-organizational" (I-O) psychology, is the study and practice of how people interact in business and on the job. The field dates back to the late 19th and early 20th century with early pioneers like Frederick Taylor and Lillian Gilbreth, who was also a noted female engineer and product designer. I-O psychology is one of the fastest-growing fields in psychology, helping businesses to discover more effective ways of work. Business psychologists can work as clinical counselors in the workplace or consultants for management and leadership, or they can conduct research in marketing, human resources, or employment-related training. I-O psychologists also work with engineers and product designers to create ergonomically designed technology and environments. The nature of work and business is changing rapidly, thanks to new technology and ever-evolving human factors. From discovering the advantages of workplace diversity to studying the impact of virtual workspaces and teams, I-O psychologists work in one of psychology's most vital and challenging fields.

Children of Exile (Trade)

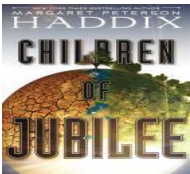

#1979391 (Vol. 01) Children of Exile (Hardcover (Trade))
written by Margaret Peterson Haddix

For the past twelve years, adults called "Freds" have raised Rosi, her younger brother Bobo, and the other children of their town, saying it is too dangerous for them to stay with their parents, but now they are all being sent back. Since Rosi is the oldest, all the younger kids are looking to her with questions she doesn't have the answers to. She'd always trusted the Freds completely, but now she's not so sure. And their home is nothing like she'd expected, like nothing the Freds had prepared them for. Will Rosi and the other kids be able to adjust to their new reality?

#2305439 Clinical Psychology (Library Binding)

written by Patricia Waldygo

"This book is an informative must-read for anyone who might seek psychotherapy, students who are interested in becoming clinical psychologists, or even people who simply want to learn how the mind works. Ever since humanistic psychologists rebelled against Sigmund Freud's theories, so many intriguing schools of thought have sprung up in the field of clinical psychology. Modern methods, such as cognitive-behavioral therapy (CBT) and family systems therapy, are brief and goal-focused. Positive psychology itself branched out in many directions. Abraham Maslow's hierarchy of human needs and transpersonal psychology stress self-actualization and peak experiences. Strength-based therapy and goal-focused positive psychotherapy help people optimize their lives. Narrative CBT teaches people to narrate their life stories in new, improved ways. Coherence therapy and rational emotive behavior therapy delve into hidden layers of the mind where problems arise. Acceptance and commitment therapy and mindfulness-based cognitive therapy train people to stay in the present moment with meditation practice and awareness exercises. And metacognitive therapy, though fairly new, shows intriguing success in helping people overcome depression. This book is a bite-sized smorgasbord of what's happening in clinical psychology, giving just a taste of each method to help people choose which areas to further explore."

written by Amy Sterling Casil

Criminal psychologists work with law enforcement and the courts to inform the legal process and discover causes and solutions for crime and criminal behavior. They can work for the court system, or for a law enforcement agency. One of the best-known duties of a criminal psychologist is criminal profiler, a process where traits of a criminal suspect can be identified and used to solve crimes. Criminal psychology is a relatively new field, emerging in the late 19th century. From the impact of child abuse and neglect on future potential criminal behavior to uncovering the way that criminals identify and target their victims, criminal psychology is a vital field that will continue to play an important part in justice and mental health. From neuroscience to counseling victims of crimes, criminal psychologists perform valuable and fascinating work.

written by Agatha Christie

Gipsy's Acre was a truly beautiful upland site with views out to sea--and in Michael Rogers it stirred a child-like fantasy. There, amongst the dark fir trees, he planned to build a house, find a girl and live happily ever after. Yet, as he left the village, a shadow of menace hung over the land. For this was the place where accidents happened. Perhaps Michael should have heeded the locals' warnings: "There's no luck for them as meddles with Gipsy's Acre."

Psychology in Action (Mason Crest Publishers)

#2305442 Family Psychology (Library Binding)

written by Joyce A. Anthony

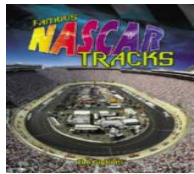

"Family psychology is a vast area of the psychological field. Despite its name, those who work in the field deal not only with families but also with groups who often function like families, including those in a workplace or a community organization. Family psychology has the task of helping families and other groups of people function as a unit while at the same time recognizing the value of the individual. This book covers everything you need to know to better understand the practice of family psychology. It covers the basics such as history and education, but it goes deeper. You will learn to see the kinds of people the field can help, and you will see what valuable lessons family psychology has to teach us."

**#1641030 Fly Fishing (Library Binding)
written by Sally Crockett**

Graceful, serene, and elegant, the art of fly fishing also provides thrilling, pulse-pounding contests between angler and fish. It's an art whose basics can be picked up in a morning, but whose finer points can be developed and refined over a lifetime. This book teaches the basics of rod, reel, and line selection, casting, fly selection and tying, and reeling in the big ones. It also offers secret tips on promising locations to find fish, how to "read" water, and what flies work best on what fish in what types of water and weather conditions. Safety on land and on water are also stressed and discussed thoroughly, as is environmental respect and conservation. A delightful introduction to the sport and art of fly fishing, this book will inspire in readers a lifetime of outdoor activity, passion, and stewardship.

But she isn't alone for long. In art class, she meets two offbeat students, Oscar and April. They don't look or act like the typical teenagers in her small New England town: they're creative, a little rebellious, and seem comfortable in their own skin in a way that Win can only dream of. The three bond through clandestine sleepovers, thrift store shopping, and zine publishing. Winifred is finally breaking out of her shell, but there's one secret she can't bear to admit to April and Oscar, or even to herself--and this lie is threatening to destroy her newfound friendships. 978-1-250-29722-8 First Second Books ©2022 6 x 8-1/2 352 pgs. Performance psychologists work with actors, musicians, athletes, public speakers, and others who need their natural talent to shine when they get in front of a crowd. There is no one-size-fits-all solution for helping performers make full use of their talent, and performance psychologists work closely with clients to create treatment plans that push them to the top of their game. Using therapeutic techniques like meditation, visualization, imagery, cognitive behavioral therapy, and more, performance psychologists can help performers who experience anxiety, fear of failure, and other issues that can hold them back from maximizing their potential.

#2148572 Pet Sematary (Hardcover (Trade))

written by Stephen King

First published in 1983, Pet Sematary has since been regarded as one of Stephen King's most frightening and controversial novels. Daring to cross the boundaries of conventional fiction, King has woven a tale so fundamentally startling that he himself was hesitant for it to see the light of day upon its completion. A multilayered examination into the nature of untimely death, shattering loss, and utter desperation, Pet Sematary tears asunder the very fabric connecting our seemingly normal world and the afterlife...leaving readers with an awful truth too haunting to forget.

After traveling through history multiple times and finding out his original identity, Jonah thought he'd fixed everything. But some of his actions left unexpected consequences. His parents--and many other adults--are still stuck as teenagers. And now Jonah has a new sibling, an identical twin brother named Jordan. As odd as all this is for Jonah, it's beyond confusing for Jordan. How does everyone in his family have memories of Jonah when he doesn't? How can his annoying kid sister Katherine speak so expertly about time travel--and have people from the future treating her with respect? A few rash moves by Jordan send them all into the future--and into danger. What if he's also the only one who can get them back to safety, once and for all?

#2305445 Rehabilitation Psychology (Library Binding)
written by Joyce A. Anthony

"Disabilities come in many varieties, both visible and hidden. Losing a limb or eyesight is life-changing. Disabilities can take the form of physical impairment such as these or they can take the form of hidden difficulties such as mental health issues, limited mental capacity, addiction, and homelessness. Even being newly released from prison can pose challenges to living a productive and full life. These things present both physical and psychological challenges. It is the task of a rehabilitation psychologist to help those with disabilities and their families get to a place where the disabled person can experience the greatest quality of life possible. This can include things like counseling, helping make school and workplaces more accessible, and helping a person get the equipment they need to function on a daily basis. Learn what all a rehabilitation psychologist does and how you can pursue this as a career."

All About the Author (Rosen Young Adult)

#1674973 Rick Riordan (Library Binding)

written by Adam Furgang

Everything Rick Riordan works on seems to be devoured instantly by eager young people all around the world who are willing to learn and are excited to hear a great story well told. Through his wildly popular series Percy Jackson & the Olympians, Kane Chronicles, 39 Clues, and The Heroes of Olympus, Riordan has sparked young readers' interest in world mythology and literature, a renewed fascination that is reinforced by film adaptations, toys, games, and other "tie-ins." As a child, Riordan thought of books as too difficult to read and, in the end, not very interesting or worth the effort--in fact, he grew up as a reluctant reader who didn't like books. While Riordan did eventually grow to love both reading and writing, it was a long journey for him. He has now found enormous success as a writer and storyteller. When he noticed his own young son struggling with reading, Riordan was able to capture his attention in the same way that he had finally been hooked--through an interest in the otherworldly appeal of mythology. It was from these bedtime stories that he told to his son that the Percy Jackson series was born. The series not only helped to capture his son's imagination, it started a very successful career for Riordan as a young adult writer. Today, not only do Percy Jackson fans eagerly await another movie installment of the bestselling books, but increasing hype surrounds the film adaptations of the Kane Chronicles and The 39 Clues, too. Behind all of these impressive tokens of fame and success lie very humble beginnings. The stories millions of children love today came from the mind of just one man. This is Riordan's inspiring story, one that is every bit as intriguing, dramatic, motivational, and full of unexpected twists and turns as any of his beloved and fantastical works of fiction. This volume includes fact sheets on the author and his work, a timeline, and critical reviews.

#2019116 Ronda Rousey: Champion Mixed Martial Arts Star (Library Binding)

written by Ellina Litmanovich

When Ronda Rousey approached the president of the UFC and told him that one day she would fight for him, he was skeptical. Rousey made a name for herself as the youngest judoka and a force to be reckoned with when she qualified for the 2004 Olympics at the age of seventeen. Through a combination of determination and hard work, Rousey went on to become the first UFC women's bantamweight champion. With easy-to-follow text and full-color photos, readers will learn about Rousey's life and the challenges she has overcome. Sidebars help readers learn more about the sport. A glossary helps readers master new vocabulary, while Further Reading encourages further exploration.

Snowboard is one of the youngest sports in the Olympics, and it was once viewed as the sport of "bad boys" and "rebels." It might have lost some of that rowdy image, but it still has its pop pizzazz. Snowboarders do stunts with names like "540," "double grab," "caballeria," and "burger flip." This book will explain what these tricks are and how they're done. It'll tell you where snowboarding came from and where it's going. And you'll meet some of the most colorful characters you'll find in any sport.

#2305447 Sports Psychology (Library Binding)

written by David Wilson

"Athletes the world over must train not only their bodies but also their minds. The science of sport psychology helps to unlock potential and overcome barriers as athletes search for pathways to victory. Employed by professional teams in search of victory, the stakes for sports psychologists are quite high, and a small advantage in a player's mental strength can turn into a major advantage on the field. Psychologists work to develop better concentration, stress management, self-confidence, and teamwork among athletes, helping to make sure that the natural talents and physical skills are not impeded by a troubled mind. Sports psychologists not only help athletes to win championships, but also help them to overcome all manner of personal problems, including problems unique to an athlete's lifestyle. Some athletes struggle with the limelight, turning to substance abuse, while others develop trust issues due to their celebrity and massive paychecks. A sports psychologist can provide troubled athletes with strategies, techniques, and coping mechanisms that help them to maintain focus and overcome the issues that can affect their careers."

#1974170 Who Is Hillary Clinton? (Prebound)

written by Heather Alexander

At age fourteen, Hillary Clinton thought it would be thrilling to become an astronaut, so she sent an application to NASA. The reply was a flat out rejection: the space program didn't take women. It was a critical moment for the young girl, one that made her realize the world she lived in needed changing and that she had better try to make those changes happen. Clinton's life has been a thrilling series of firsts--First Lady of the US, then first First Lady to become a US Senator, Secretary of State, and possibly the first woman to run as the Democratic candidate for President. This easy-to-read biography gives readers a firm grounding not only in Clinton's life history but the history of the times in which she's lived. It comes out as she makes her historic run for the White House.

#2005729 Who Is J.K. Rowling? (Prebound)

written by Pam Pollack

In 1995, on a four-hour-delayed train from Manchester to London, J. K. Rowling conceived of the idea of a boy wizard named Harry Potter. Upon arriving in London, she began immediately writing the first book in the saga. Rowling's true-life, rags-to-riches story is as compelling as the world of Hogwarts that she created. This biography details not only Rowling's life and her love of literature but the story behind the creation of a modern classic.

written by Stephanie Spinner

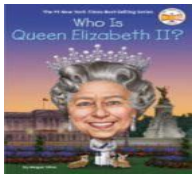

Jorge Mario Bergoglio, aka Pope Francis, from Argentina, is the first Jesuit pope, the first from the Americas, and the first from the Southern Hemisphere. Since being elected pope he has shown a humbler, less formal approach to his office than his predecessors: a warm style that has been referred to as "no frills." His common touch and accessibility, as well as his insistence that the church be more open and welcoming, has quickly endeared him not only to Roman Catholics but to millions of others around the world.

#2218735 Yolk (Hardcover (Trade))

written by Mary H. K. Choi

Jayne and June Baek are nothing alike. June's three years older, a classic first-born, know-it-all narc with a problematic finance job and an equally soulless apartment (according to Jayne). Jayne is an emotionally stunted, self-obsessed basket case who lives in squalor, has egregious taste in men, and needs to get to class and stop wasting Mom and Dad's money (if you ask June).

#1959864 You Wouldn't Want to Live Without Poop! (Prebound)
written by Alex Woolf

We all do it. We usually don't like to talk about it, but going to the toilet is a natural and necessary part of our lives. We couldn't live without poop because there are some parts of our food that contain no nutrients that can be used by our bodies for energy, growth or health, and those parts have to be ejected. But poop can also be used to power our cars, heat our homes and help grow our crops. Learn why and how animals and people produce poop, and about the many marvellous uses for this misunderstood substance.
