"EDUCATION THROUGH EXPLORATION"

Welcome to the School District of Osceola County community! As you get ready to enroll your child in kindergarten, please consider Canoe Creek K8 as your top choice. We work hard to keep your child engaged and thriving throughout their educational journey. Through a nurturing environment, our school offers a learning experience enriched with science, technology, engineering, and mathematics. Canoe Creek K8 offers unique extracurricular activities that align to the mission and vision of the school.

Canoe Creek K8 is an e-STEM school. Our elementary students explore the environment through strategically designed lessons. In Kindergarten, students will follow the life of a plant from seed to adult; they will also learn how plants impact the environment and study their importance to people. CCK8 Scholars will be provided the opportunity to participate in gardening and outdoor learning activities. Students will also explore the environment through participation, observation and hands on labs. Through AVID, students will learn organizational and study skills, communication, and self-advocacy.

Parents may contact Canoe Creek K8 to schedule a tour or to get additional information. Each school in Osceola County offers perspective students a unique experience. We hope you and your child will be able to join us for kindergarten this coming school year! Enrollment and registration can be accessed online at <https://www.osceolaschools.net/Page/3425> or in person at the school.

welcome to kindergarten
