ASVAB Testing at Tohopekaliga High School **Will be offered in November & March.**

Each military branch offers an online ASVAB called the PiCAT, which can only be taken at the recruiting center with a recruiter. This version is untimed, but your score will have to be verified during MEPS processing. You must test with the branch you are most serious about since your profile will have to be created in their individual systems which are not connected. For example, if you test with the Marine Corps, but decide to enlist in the Army, the Army cannot access your scores from the Marine Corps.
