

Community Service Opportunities

Tohopekaliga High School

Safety Practices

As you volunteer during the pandemic, you may be required to do the following:

- To wear a mask.
- Social distance when necessary.
- Maintain clean hands.
- Volunteer locations may require a temperature check.
- Some locations require that volunteers be fully vaccinated.

How do I document my volunteer hours?

- **Bright Futures Proposal:** Before beginning your volunteer hours, you will need to get your volunteer location **pre-approved**. You and a parent/guardian will need to complete and sign and date the Bright Futures Volunteer Service Work Plan. To get your work plan approved, submit it to your guidance counselor.
- **Bright Futures Log Form:** After your location is approved for community service, track your hours on the Bright Futures Volunteer Work Hours Log.
- **Community Service Location:** Each volunteer service location must have its own work plan to be pre-approved. Each volunteer service location must have its own log form and its own personal response essay.
- **Are other community service log forms acceptable?** The organization can document your community service on the organization's letterhead and include the volunteer service performed, when and where it occurred, the number of hours completed, and have it signed and dated by the supervisor, including his/her full name, email address, and phone number. If the community service location uses their own electronic time clock, you may submit a print-out of those hours.
- **Submitting Your Community Hours:** Ensure you have completed the reflection on the back of the log form. You and a parent/legal guardian must sign the necessary portions of the form. Submit to your assigned school counselor. As a precaution, take pictures of all volunteer forms that you submit.

What are the requirements for community service?

- Students must perform community service on their own time, which includes lunch breaks or after school.
- Fundraising for non-profit organizations or charities is acceptable.
- Service may be volunteered to the school or the community.
- Service may be performed for profit-making organizations **ONLY** if they are institutions like hospitals or nursing homes.
- Volunteer work for a religious or political organization will **ONLY** count as volunteer hours if, for example your church youth group helps with the Special Olympics or the political organization promotes non-partisan activities, such as voter registration.

What does not count towards community service?

- Service rendered as a prerequisite for employment.
- Service performed for a student's family, neighbors, or friends or for profit-making organizations.

- Attendance at self-improvement workshops, conferences, or competitions.
- Service performed as a result of disciplinary action taken by the school or courts.
- Participation in varsity or junior varsity athletics, or regularly scheduled band or chorus performances.
- Common activities such as acolyte, altar server, lay reader, church choir, and clerical work for religious organizations.
- Babysitting
- Any paid service
- Volunteer service work involving academic requirements for a class.

Background Checks and Applications

Volunteer service and programs may require background checks before approving volunteers for hospitals and clinics. Be aware of the necessary steps to become a volunteer. After background checks, volunteer sites may also require you to do a short orientation or training program. This process can take 2-4 weeks for approval.

You are not limited to this list of community service locations. However, you must get your volunteer location approved before beginning your volunteer hour.

High School Student Volunteer Opportunities

Due to COVID-19, locations and hours are subject to change.

Volunteer Match

www.volunteermatch.org
