

BARNES & NOBLE Summer Reading

for Grades 1-6

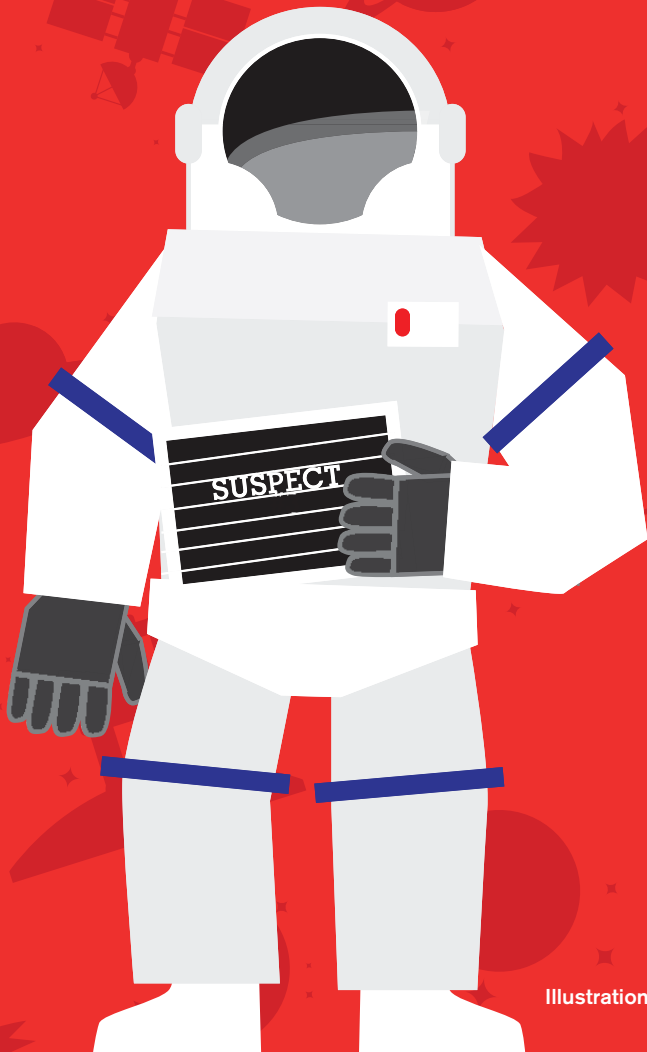

Dear Educator,

For 24 years, the Barnes & Noble Summer Reading Program has celebrated the joy *and* power of reading—while also reinforcing learning and motivating students to read on their own (as they earn a free book). We're proud to be your partner as we keep kids reading and growing throughout the year.

Here's How It Works:

- Distribute the reading journal to your students.
- Students pick any book and read at their own pace.
- Students complete the reading journal by listing the eight books they read and describing their favorite part of each book.
- During the months of July and August, they redeem their completed journal for a free book from their local Barnes & Noble store.

Thank you for your support of our Summer Reading Program. Please check back all summer long for events and special offers for readers of all ages!

BARNES & NOBLE

Resources for Schools and Educators

Educator Appreciation

Barnes & Noble offers Pre-K through Grade 12 educators 20% off list price on most in-store and online purchases. Throughout the year, we also host special appreciation events with giveaways and an extra 25% off discount.

Bookfairs

Our bookfairs are a perfect fundraising opportunity for Pre-K through Grade 12 schools. During your bookfair, supporters can shop in store or online, and your school receives a percentage of the net proceeds from the sales.

Required Reading Lists

We'll make your required reading lists readily available and help your students find all the books they need. We can even prepare special in-store displays just for your school.

Store Events

Our store events bring books to life and make reading fun for children and families. From Storytimes to author events and national celebrations, we offer something unique and fun to enhance learning all year long.

Educational Tools

Barnes & Noble offers an extensive selection of educational tools to help educators, students, and parents, including Nook[®] e-readers and tablets, books about teaching, reproducible books for classroom use, and workbooks to aid with skills practice. We also offer the smartest selection of STEM/STEAM products and educational toys and games to help kids learn and grow.

Visit your Barnes & Noble store or [BN.COM/educator](https://www.bn.com/educator) for more information.
