

Health Kiosks by Medical Screening Solutions

Interactive, bilingual Health Kiosks are placed in various locations across the District. These kiosks can measure blood pressure, heart rate, body weight, and BMI. This information can be uploaded to an easy-to-create confidential health record to be shared with your doctor.

IMPORTANT NOTE: The Health Kiosks are not intended to be a substitute for professional medical advice, diagnosis, or treatment. Always seek the advice of your physician or other qualified health provider with any questions you may have regarding a medical condition.
