

# DISCOVERY INTERMEDIATE SCHOOL

## 1:1 Technology Initiative Roll-out Plan

Our vision for the 1:1 technology initiative will provide a collaborative learning environment that will increase academic growth in all content areas.

On **Monday, September 9th** we will be checking laptops and hotspots out to each student to use at school and at home. Once the devices are checked out to the students they will be able to **take devices home** starting Monday. The students will receive an 11 inch lightweight Dell laptop, a charger for the laptop, and a T-Mobile hotspot. The student will need to bring the laptop back to school everyday fully charged ready for class. The laptops will be filtered and monitored during school and home use. The students will receive a laptop case soon that will be checked out to them.

The students will bring **two forms** home Monday evening. First form is the End of Year Check-in form with the care tips, responsibilities, and service fees for repairs on the back. Second form is how to connect to the hotspot and T-Mobile hotspot support information.

Hotspot information:

- Students will receive 2GB of high speed data each month, if data is used the speed will slow down.
- Student Technical Support:
  - Dial: 1-800-937-8997
  - Enter the T-mobile phone number that is located on the label on the back of the hotspot device.

If you have any questions please contact Lori Harrison at 407-343-7300 ext. 17683 or [lori.harrison@osceolaschools.net](mailto:lori.harrison@osceolaschools.net).
