5:20-5:27pm- Ms. Leah Boyd- Funding Request of \$2500 for calculators

Short 200 calculators due to population growth and wear and tear.

Some are broken due to age

Handheld calculators are better than laptop calculators in regards to the cognitive processing of information by the students

Need 100 four function calculators; 200 scientific calculators

Online calculators interfered with tests last year and did not work appropriately

*Parent asked why they had to buy calculators for their child if the school has them here. Ms. Boyd pointed out that the calculators for school can only be used in school and some of the student work that is done at home needs a calculator.
