Curriculum Guide

2023-2024

TABLE OF CONTENTS

Section 1 – Mission Statement	3
Section 2 – Administration and School Counselor Contacts	4
Section 3 – College and Career Center	5
Section 4 – Choosing Your Courses	6
Section 5 – Graduation Requirements	7
Graduation Requirement Checklist.....	8
Section 6 – Academic Information	9-10
Section 7 – Course Pathways	11-12
Section 8 – Choosing Your Core Classes	13
English	14-15
Mathematics.....	16-18
Science	19-21
Social Studies	22-24
Section 9 – Choosing Your Elective Classes	25
Agriscience Technology	25
Animal Science and Services	25
Equestrian Studies	26
Veterinary Assisting.....	26
Army JR. ROTC.....	27
Art Education.....	28-29
Athletic Training	29
Communication and Multimedia Technology	30-31
Digital Information Technology	30
Digital Design.....	30
Digital Video Production	31
Criminal Justice	32
Driver’s Education	33
Experiential Education	33
Language Arts Electives	34
Journalism and Multimedia	34
AP Capstone Diploma Electives	35
Latinos in Action	35
Music (instrumental, vocal).....	36-37
Physical Education.....	38-39
STEM.....	40-41
Engineering Technology.....	40-41
Gaming Simulation and Animation Programming.....	41
Theater / Acting	42-43
World Languages	44-45

MISSION STATEMENT

Harmony High School
will make a positive
difference in the
academic, social,
emotional,
and physical well-being
of the students, staff, and
community.

ADMINISTRATION

Name	Title
James Hickey	Principal
Amanda Yontz	Assistant Principal
Jennifer Ramsey	Assistant Principal
Hank Hoyle	Assistant Principal
Dustin Keeton	Assistant Principal
Julie Reda	Dean
Jason Eno	Dean
Victoria Amaral	Dean
Jason Kraus	Dean
Patricia Abell	Dean

COLLEGE AND CAREER CENTER

The College and Career Center, located in Guidance, is a valuable resource for all Harmony High School students. Visit Mrs. Barton or the Harmony High School website for more information regarding Advanced Placement (AP) and Dual Enrollment (DE) opportunities, SAT/ACT test dates, upcoming events, applying to college, career exploration, and more.

COLLEGE AND CAREER PLANNING

In completing their postsecondary education plans, students may find it beneficial to take one or more of the following standardized tests which are used for college admissions, career planning, placement in college courses, and/or eligibility for scholarships:

ACT: Program (11th & 12th grade) www.act.org

ASVAB (11th & 12th grade): Armed Services Vocational Aptitude Battery

PSAT (9th, 10th, & 11th grade): Preliminary SAT

SAT (11th & 12th grade): www.collegeboard.org

PERT (9th-12th grade): Postsecondary Education Readiness Test—for Dual Enrollment purposes only

CHOOSING YOUR COURSES FOR 2023-2024

Welcome to your 2023-2024 curriculum guide! Please understand that it is very important that you choose classes for the upcoming year that will not only interest you, but that will challenge you as well. Make sure that you read through the curriculum guide, and if you follow these five steps, it will help ensure that you are in the correct classes and that you have an outstanding 2023-2024 school year.

1. Review your graduation requirements starting on page 3.
2. Consider your plans past graduation.
3. Choose your core classes (English, Math, Science, and Social Studies).
4. Choose your electives (check all prerequisites).
5. Review your choices with your parents/guardians and teachers.
6. Turn in your class pick sheet to your school counselor.

Schedule Change Policy

Once the school year begins, it is expected that all students remain in the courses they select. **Changes to class selections are made only for the following valid reasons: computer error, failing a required class, passing a class in summer school, lacking a graduation requirement, or lacking an appropriate prerequisite.** All schedule changes must be approved by an Administrator and School Counselor. If you are having difficulty in a class during the school year, please see page 40-41 for strategies to succeed in the class.

Please understand that classes are **NOT** changed for teacher or social preference. Any request for these reasons will be denied.

All freshmen, sophomores, and juniors are scheduled in 7 classes. It is NOT recommended for seniors to take less than 7 courses; however, some seniors who are on track for ALL graduation requirements, including testing and GPA requirements, may opt for a modified schedule. This request **MUST** be made prior to the start of school and before schedules are finalized. Dropping classes from students' scheduled or switching classes will not be permitting for any student in any grade level after the add/drop period has ended during the first week of school.

GRADUATION REQUIREMENTS

Credits:

4 English
4 Math (Algebra 1, Geometry, and higher)
3 Science (must pass Biology)
1 World History
1 U.S. History
.5 Economics (semester course)
.5 U.S. Government (semester course)
1 PE (Personal Fitness and .5 PE elective)
1 Fine or Practical Arts class
8 Electives (1 virtual school class flvs.net)

.5 credit Financial Literacy (semester course) **CLASS OF 2027 AND BEYOND ONLY!**

2 years of a World Language are not required for graduation but are required for a Bright Futures Scholarship and entrance to a 4-year college.

B.E.S.T. Testing:

EOC: End of Course State Subject Exam (must pass Algebra 1 Level 3 or higher)
EOC: Geometry, Biology, U.S. History, are worth 30% of final grade in class
F.A.S.T ELA: Level 3 or higher on the 10th grade test

Use the following graduation checklist on page 4 to keep track of your graduation requirements each year. Your school counselor will meet with you twice a year to review your requirements with you.

Bright Futures Scholarship Requirements (Florida Based Scholarship)

FAS-Florida Academic Scholarship 3.5 core GPA, 100 community service hours, 1330 SAT (Math and Verbal) or 29 ACT (composite), Algebra 1 or higher, 2 years of the same world language

FMS-Florida Medallion Scholarship 3.0 core GPA, 75 community service hours, 1210 SAT (Math and Verbal) or 25 ACT (composite), Algebra 1 or higher, 2 years of the same world language

GSV-Gold Seal Vocational 3.0 core GPA, 3.5 GPA in vocation, 30 community service hours, see Harmony website for test requirements; cannot be used for A.A., B.A. or B.S. degree.

*Core GPA includes English, Math, Science, Social Studies, and World Lang.
Subject to change. See Harmony Website for details.*

GRADUATION COURSE REQUIREMENT CHECKLIST

(2.0 unweighted GPA Required for Graduation)

2 years of the same World Language are required, and a 4th year of a science is recommended for College/University, Bright Futures and Scholars Diploma eligibility

ENGLISH – 4 Credits Required

- 1. _____
- 2. _____
- 3. _____
- 4. _____

SOCIAL STUDIES – Specific Courses

- 1. ____ World History (1.0)
- 2. ____ American History (1.0)
- 3a. ____ American Government (0.5)
- 3b. ____ Economics/Financial Literacy (0.5)

**SCIENCE – 3 Credits Required
(Must include Biology)**

- 1. _____
- 2. _____
- 3. _____

**MATHEMATICS – 4 Credits Required
(Must be Algebra I/Geometry and higher)**

- 1. _____
- 2. _____
- 3. _____
- 4. _____

PHYSICAL FITNESS – 1 Credit

- 1. ____ Personal Fitness/PE Elective

FINE ARTS – 1 Credit

- 1. _____

ELECTIVES – 8 Credits including 1 virtual school course

- 1. _____
- 2. _____
- 3. _____
- 4. _____
- 5. _____
- 6. _____
- 7. _____
- 8. _____

Additional for Standard Diploma

- 1) Pass 10th grade F.A.S.T ELA level 3 or higher ____
- 2) Pass Algebra 1 EOC level 3 or higher ____
- 3) 2.0 or higher unweighted GPA ____

ACADEMIC INFORMATION

Grading Scale

GRADE	PERCENT	POINT VALUE (Unweighted)	Weighted-Honors	POINT VALUE Weighted- AP, DE
A	90-100	4.0	4.5	5.0
B	80-89	3.0	3.5	4.0
C	70-79	2.0	2.5	3.0
D	60-69	1.0	1.5	2.0
F	0-59	0	0	0

Promotion Criteria

Freshman

0.0-6.0 credits

Sophomore

6.0-12.0 credits

Junior

13.0-16.5 credits

Senior

17.0-24.0 credits

Career & Technical Education (CTE) Programs Offered at Harmony High School

Animal Science Services (Agricultural Science, Veterinary Assisting)
Communication & Multimedia Technology (Digital Information Technology,
Digital Video Technology, Digital Design)
Criminal Justice
Engineering Technology
Gaming Simulation & Animation Programming
Journalism and Multimedia

Students enrolled in a CTE course will have the opportunity to earn an industry certification to utilize in a postsecondary setting.

Grade Forgiveness

Under State policy, students who receive a final grade of D or F in a class may retake the class to improve their grade with a grade of C or higher earned subsequently in the same or comparable course. The new, higher grade (C or higher) will replace the D or F in the GPA; however, the D or F will remain on the student's transcript.

Parent/Teacher Communication

If a student is experiencing a problem in a class, the best solution is communication between the parent, student, and teacher. Please call or email your concerns to your teacher. Email addresses can be found on the school website or via Focus. You may also arrange for a conference with a school counselor and teachers by contacting Guidance at 407-933-9900 x55300.

Accelerated Career and College Readiness

Students should expect to be scheduled into at least one accelerated course, such as an Advanced Placement (AP) course or Career & Technical Education (CTE) course. These courses prepare students with the opportunity to earn college credit through high school (AP) or an industry certification for post-secondary career opportunities in various industries.

Intensive Reading

In order to support student success in reading, students in grades 9 through 12 who have not passed the FSA ELA/F.A.S.T ELA or have not earned a concordant score (11th & 12th grades) will be scheduled into an Intensive Reading class. The purpose of this class is to support students in gaining the skills necessary to be successful in passing state testing requirements and/or standardized tests use as concordant scores (via PSAT/SAT or ACT). Juniors and Seniors who earn a concordant score prior to the end of the first semester will be given the opportunity to move into an available elective at the start of the second semester. Students who earn a concordant score during the second semester will remain in Intensive Reading until the end of the school year.

Harmony High School Classes for University Path

	English	Math	Science	Social Studies	World Language
G r. 9	Honors: Pre-AP English 1 or 2	Honors: Algebra 1, Geometry* or Algebra II*	Honors Biology or Chemistry*	AP: Human Geography	World Language I or II*
G r. 10	Honors: Pre-AP English 2 or English 3 AP English Language	Honors: Geometry, Algebra II, or AP Pre-Calculus	Honors: Chemistry 1, Physics AP: Chemistry or Biology	Honors: World History, US History AP: World History	World Language II or III
G r. 11	Honors: English 3 or 4 AP English Language, or English Literature	Honors: Algebra II or AP Pre-Calculus AP: Stats, or Calc AB/BC	Honors: Chemistry 1, Physics, Marine Science, Anatomy and Physiology AP: Biology, Chemistry, Physics, Environmental	Honors: U.S. History AP: U.S. History	Honors: World Language III AP: World Language
G r. 12	English 4 Honors, AP English Language, or AP English Literature	AP Pre-Calculus, AP Stats, or AP Calc AB/BC	Honors: Marine Science, Anatomy and Physiology, AP: Chemistry, Physics, Biology or Environmental Science	Honors: Econ/Gov't AP: U.S. Gov't/ AP Macro Economics	AP World Language

*Assumes student successfully completed prerequisite in 8th grade

The Scholars Diploma Designation

Diploma will be stamped to reflect outstanding academic accomplishments.

- To earn a Scholars Diploma Designation:**
- Earn level 3 or higher on the FSA ELA Assessment
 - Earn level 3 or higher on the following EOCs: Geometry, Biology, and U.S. History
 - Successfully Complete, Statistics or Pre-Calc, Chemistry or Physics, 2 credits of the same world language, and earn at least 1 credit in an AP or a Dual Enrollment course

General Path

(This path will lead you to a 2-year college, technical school, military or job placement)

	English	Math	Science	Social Studies	World Language
G r. 9	English 1	Algebra 1 Or Geometry*	Environmental Science		World Language I FSA ELA level 3+
G r. 10	English 2	Geometry, Algebra II, Math for College Algebra, or Math for College Stats	Marine or Biology	World History	World Language I or World Language II
G r. 11	English 3	Geometry, Algebra II, Math for College Algebra, Math for Data and Financial Literacy, or Math for College Stats	Biology, Chemistry, or Physics 1	U.S. History	World Language I, II (or III if interested)
G r. 12	English 4	Algebra II, Math for Data and Financial Literacy, or Math for College Stats	Marine Science, Chemistry, or Physics 1 Honors	Economics and Government	World Language I, II (or III if interested)

*Assumes student successfully completed Algebra 1 Honors in middle school.

**Assumes student successfully completed Physical Science in middle school.

Refer to the Harmony website for information on college and career planning or stop into the Career Center (located in the guidance office) for more information.

Merit Diploma Designation

(Diploma will be stamped to reflect Industry Certification)

To earn a Merit Diploma Designation:

Earn Industry Certification in Career Pathway: Agriscience, Digital Video Production, Engineering, Game and Simulation Design, Health Science, Veterinary Science

COURSE OFFERINGS

ENGLISH LANGUAGE ARTS (4 CREDITS REQUIRED)

PRE-AP ENGLISH (1001415)

Pre-AP English 1 focuses on reading, writing, and language skills that are relevant to students' current work and essential for students' future to future high school and college coursework. Texts take center stage, preparing students for close, critical reading and analytical writing. The course trains readers to observe small details in a text to arrive at a deeper understanding of the whole. It also trains writers to create complex sentences—building this foundational skill en route to sophisticated, longer-form analyses.

Prerequisite: 8th grade FSA ELA scores will determine level of Pre-AP English 1

PRE-AP ENGLISH 2 (1001416)

Pre-AP English 2 builds on the foundations of Pre-AP English 1. While English 1 introduces the fundamentals of close observation, critical analysis, and the appreciation of author's craft, English 2 requires students to apply those practices to a new array of nonfiction and literary texts.

As readers, students become aware of how poets, playwrights, novelists, and writers of nonfiction manipulate language to serve their purposes. As writers, students compose more nuanced analytical essays while never losing sight of craft and cohesion.

Prerequisite: Successful completion of Pre-AP English 1; 9th grade FSA ELA scores will determine level of Pre-AP English 2

ENGLISH 3 (1001370)

This course includes the frequent writing of papers, on a variety of topics using a variety of methods. American literature studied through the analysis of various genres, along with instruction in listening, reading, discussing, and writing.

Prerequisite: Successful completion of English 2 or equivalent

ENGLISH 3 HONORS (10013200)

The purpose of this course is to provide integrated educational experiences in the language arts strands of reading, writing, listening, viewing, speaking, language, and literature. The content should include, but not be limited to the following: using reading strategies to construct meaning from texts, acquiring an extensive vocabulary through reading, discussion, listening, and systematic word study, using speaking, listening, and viewing strategies in formal presentations and informal discussions, understanding and responding to a variety of literary forms by language successfully to influence the reader.

Prerequisite: Successful completion English 2 Honors or English 2

ADVANCED PLACEMENT ENGLISH LANGUAGE/COMPOSITION (10014200)

This course provides students with the understanding of semantic, structural, and rhetorical resources of the English language as they relate to the principles of effective writing. The course also provides a variety of writing opportunities calling for the use of different style and tones. Summer reading is required prior to the start of the school year. College credit can be earned by student successful performance (3 or better) on the Advanced Placement exam administered in May. An action research project is required. Grades 10, 11, 12

Prerequisite: Successful completion of English 2 or English Honors 2

ENGLISH 4 (10014050)

The purpose of this course is to provide students with the skills to determine what the text says explicitly and to make logical inferences from it; cite specific textual evidence when writing or speaking to support conclusions drawn from the text. Students will be able to cite strong and thorough textual evidence to support analysis of what the text says explicitly as well as inferences drawn from the text, including determining where the text leaves matters uncertain. Topics to be covered are: Key ideas and details, craft and structure, range and level of text complexity, text types and purposes, production and distribution of writing, research to build knowledge, conventions in writing and speaking as well as vocabulary acquisition and use.

Prerequisite: English 1-3

ENGLISH 4 HONORS (10014100)

The purpose of this course is to provide integrated educational experiences in the language arts strands of reading, writing, listening, viewing, speaking, language, and literature. The content should include, but not be limited to, the following: using the reading process to construct meaning using technical, informative, and imaginative texts, using writing processes for various purposes with attention to style and format, using the research process and individual inquiry to locate, analyze, and evaluate information, using effective listening, speaking, and viewing strategies in informal and formal situations understanding the power of language as it impacts the audience, understanding and analyzing literary texts responding critically and aesthetically to literature.

Prerequisite: Successful completion of English 3 or English 3 Honors, or FSA ELA level 4 or 5

ADVANCED PLACEMENT ENGLISH LITERATURE/COMPOSITION (10014300)

This course engages students in the careful reading and critical analysis of imaginative literature. Students will develop critical standards for interpreting the effects writers create by means of the artful manipulation of language. Individual works, and their characters will be studied. Summer reading is required prior to the start of school year. College credit can be earned by student successful performance (3 or better) on the Advanced Placement exam administered in May.

Prerequisite: Successful completion of English 2 Honors, English Honors 3 or AP Language and Composition, FSA ELA level 4 or 5

Seniors who have not completed an AP English class prior to 12th grade and would like to take an AP English course may enroll in AP Lang.

ENGLISH LANGUAGE DEVELOPMENT 1-4 (1002380)

The purpose of this course is to provide instruction to native speakers of a language other than English in developmental language arts skills, including reading, writing, listening, and speaking. Content includes grammar, vocabulary, and public speaking. This course will fulfill graduation requirements for English.

Prerequisite: Student Placement. **This course will count as an elective and is double blocked with English 1-4.**

COURSE OFFERINGS

MATHEMATICS (4 CREDITS REQUIRED)

ALGEBRA 1 (1200310)

This course provides students with the foundation for more advanced mathematics courses and aims to develop the skills needed to solve mathematical problems. Course content includes sets, variables, real number systems, equations and inequalities, relations and functions, graphs, rational and irrational numbers, and radicals. Students are required to pass an End of Course (EOC) exam to meet graduation requirement. Algebra EOC exam will count towards 30% of student's overall grade.

Grades 9

Prerequisite: None

ALGEBRA 1 HONORS (1200320)

This course provides students with the foundation for more advanced mathematics courses and to develop the skills needed to solve mathematical problems. Course content includes sets, variables, real number systems, equations and inequalities, relations and functions, graphs, rational and irrational numbers, and radicals. This course is more in-depth and at an advanced pace. Students are required to pass an End of Course (EOC) exam to meet graduation requirement. Algebra EOC exam will count towards 30% of student's overall grade.

Grades 9

Prerequisite: Successful completion of Advanced 8th grade Math

GEOMETRY (12063100)

This course emphasizes critical thinking involving the discovery of relationships and their proofs, and skill in applying the deductive method to mathematical situations. Course content includes logic and reasoning, the study of Euclidean geometry of lines, planes, triangles, similarity and congruence. Geometry EOC exam will count towards 30% of student's overall grade.

Grades 9, 10

Prerequisite: Successful completion of Algebra 1

GEOMETRY HONORS (1206320)

This course provides a rigorous in-depth study of geometry, with emphasis on methods of proof and the formal language of mathematics. Content includes the structure of geometry, separation properties, angle concepts, triangles, quadrilaterals, proofs, similar polygons, circles and spheres, volume and transformational geometry. Geometry EOC exam will count towards 30% of student's overall grade.

Grades 9, 10

Prerequisite: Successful completion of Algebra I Honors or Algebra 1

MATHEMATICS FOR COLLEGE ALGEBRA (1200710)

In this course, instructional time will emphasize five areas: (1) developing fluency with the Laws of Exponents with numerical and algebraic expressions; (2) extending arithmetic operations with algebraic expressions to include rational and polynomial expressions; (3) solving one-variable exponential, logarithmic, radical and rational equations and interpreting the viability of solutions in real-world contexts; (4) modeling with and applying linear, quadratic, absolute value, exponential, logarithmic and piecewise functions and systems of linear equations and inequalities; (5) extending knowledge of functions to include inverse and composition.

Grades: 10, 11

MATHEMATICS FOR DATA AND FINANCIAL LITERACY HONORS (1200388)

In this course, instructional time will emphasize five areas: (1) extending knowledge of ratios, proportions and functions to data and financial contexts; (2) developing understanding of basic economic and accounting principles; (3) determining advantages and disadvantages of credit accounts and short- and long-term loans; (4) developing understanding of planning for the future through investments, insurance and retirement plans and (5) extending knowledge of data analysis to create and evaluate reports and to make predictions.

Grades: 11, 12

MATHEMATICS FOR COLLEGE STATISTICS (1210305)

In this course, instructional time will emphasize four areas: (1) analyzing and applying linear and exponential functions within the context of statistics; (2) extending understanding of probability using data and various representations, including two-way tables and Venn Diagrams; (3) representing and interpreting univariate and bivariate categorical and numerical data and (4) determining the appropriateness of different types of statistical studies.

Grades: 10, 11, 12

ALGEBRA 2 (1200330)

This course provides students with a foundation for applying advanced skills to other mathematical and scientific fields. Content includes linear and quadratic equations, factoring of polynomials, graphing, systems of equations, and rational/irrational functions.

Grades 9-12

Prerequisite: Successful completion of both Geometry and Algebra I

ALGEBRA 2 HONORS (1200340)

This course presents an in-depth study of the topics of Algebra II, with emphasis on theory, proof, and development of formulas and their application. This is a rigorous study of functions, graphs, and the tools needed to study advanced mathematics.

Grades 9-12

Prerequisite: Successful completion of both Geometry Honors and Algebra 1 Honors or Geometry and Algebra 1

AP PRE-CALCULUS (Course number TBA)

This course emphasizes the skills necessary for the study of theorems of polynomial behavior, the relationships among the solutions of equations, understand mathematical induction, trigonometric functions and their applications.

Grades 10-12

Prerequisite: Successful completion Algebra 2

ADVANCED PLACEMENT CALCULUS AB (12023100)

This is a college level course designed to prepare students for the Advanced Placement exam. This course studies elementary functions and the general theory and techniques of calculus, which include limits, derivatives and integrals. College credit can be earned by successful performance (3 or above) on the Advanced Placement exam administered in May.

Grades 11-12

Prerequisite: Successful completion of Pre-Calculus

ADVANCED PLACEMENT STATISTICS (1210320)

This course is designed to provide college-level instruction on the concepts and tools for working with data. Students collect and analyze data and draw conclusions based on real-world information. The course challenges students to explore patterns, think critically, use a variety of tools and methods, and report their findings and conclusions.

Grades: 11, 12

Prerequisite: Successful completion of Algebra 2 Honors

COURSE OFFERINGS

SCIENCE (3 CREDITS REQUIRED)

ENVIRONMENTAL SCIENCE (20013400)

This course is an overview of the scientific study of the natural world and how people influence it. Major topics include: food, energy, human population, biodiversity and global change. Course will prepare students for biology.

Grade: 9

Prerequisite: None

BIOLOGY 1 (2000310)

This course provides students with general exploratory experiences and activities in the fundamental concepts of life. Content includes scientific method, scientific measurement, laboratory safety and use of apparatus, cell biology, cell reproduction, basic principles of genetics, and classification and surveying of plants and animals. Biology EOC exam will count towards 30% of student's overall grade.

Grades: 9, 10, 11

Prerequisite: FSA ELA Level 3 or higher to take class in 9th grade

BIOLOGY 1 HONORS (2000320)

This course is designed for upper-level students and includes the study of scientific method and measurement, laboratory safety and use of apparatus, biochemistry, cell biology, cell reproduction, genetics, classification, taxonomy, and ecological relationships. Biology EOC exam will count towards 30% of student's overall grade.

Grades: 9, 10

Prerequisite: FSA ELA Level 3 or higher to take in 9th grade

CHEMISTRY 1 (2003340)

This course provides students with the study of the composition, properties, and changes associated with matter. Content includes classification and structure of matter, atomic theory, the periodic table, bonding, chemical formulas, chemical reactions and balanced equations, the behavior of gases, physical changes, acids, bases, and salts, and energy associated with physical and chemical changes.

Grades: 10-12

Prerequisite: Successful completion of Biology 1 and Algebra 1

CHEMISTRY 1 HONORS (2003350)

This course provides students with a rigorous study of the composition, properties, and changes associated with matter. Content includes atomic structure, bonding, the periodic table, formulas, stoichiometry, phase changes, specific heat, equilibrium, solutions, acids, bases, and salts, nuclear chemistry, gas laws, and organic chemistry. There is an emphasis on tests in this class, and a research project is required.

Grades: 9-12

Prerequisite: Successful completion of Biology 1 Honors and Algebra 1 Honors

ANATOMY AND PHYSIOLOGY HONORS (2000360)

This course provides students with exploratory and advanced activities in the structure and function of the components of the human body. Content includes cellular processes and tissues, the skeletal, muscular, nervous, cardiovascular, respiratory, digestive, urinary, and reproductive systems, and special senses.

Grades: 10, 11, 12

Prerequisite: Successful completion of Biology 1

PHYSICS I HONORS (2003390)

This course is designed for upper-level students to study in-depth with enrichment concepts, theories, and laws governing the interaction of matter, energy, and forces, and their application through exploratory investigations and activities.

Grades: 10-12

Prerequisite: Successful completion of Algebra 2 and Chemistry 1, or placement

ASTRONOMY SOLAR/GALACTIC HONORS (2001350)

Students in this course will explore these concepts in greater depth. In general, the academic pace and rigor will be greatly increased for honors level course work. Laboratory investigations that include the use of scientific inquiry, research, measurement, problem solving, laboratory apparatus and technologies, experimental procedures, and safety procedures are an integral part of this course.

Grades: 11, 12

Prerequisite: Successful completion of Biology 1

MARINE SCIENCE HONORS (2002510)

While the content focus of this course is consistent with the Marine Science I course, students will explore these concepts in greater depth. In general, the academic pace and rigor will be greatly increased for honors level course work. It is a comprehensive science that incorporates oceanography and an introduction to marine biology. Course content includes biological, chemical, and physical aspects of Ocean environment, marine plant and animal life, marine ecology, and human interaction with the marine community.

Grade: 11, 12

Prerequisite: Successful completion of Biology 1

ADVANCED PLACEMENT PHYSICS (20034210)

This is a rigorous study of the main principles of classical and modern physics with an emphasis on problem solving. The A.P. Program specifies content. College credit can be earned by successful performance (3 or above) on the Advance Placement exam administered in May.

Grade: 11, 12

Prerequisite: Successful completion of Physics 1 or Chemistry 1

ADVANCED PLACEMENT ENVIRONMENTAL SCIENCE (2001380)

The purpose of this course is to study the interaction of man with the environment. The content includes scientific analysis of fundamental principles and concepts about the interdependence of Earth's systems, population dynamics, distribution, ownership, and degradation of renewable and nonrenewable resources, environmental quality, global changes and their consequences, and environment and society trade-offs and decision-making choices for the future. College credit can be earned by successful performance (3 or above) on the Advanced Placement exam administered in May.

Grade: 10-12

Prerequisite: Successful completion of Biology 1 and Chemistry 1

ADVANCED PLACEMENT BIOLOGY/GENETICS HONORS (2000340/2000440)

This course provides a study of the facts, principles, and processes of biology and the collection, interpretation, and formulation of hypotheses from available data. The A.P. Program specifies content. College credit can be earned by successful performance (3 or above) on the Advanced Placement exam administered in May.

Double block class – 2.0 credits

Grade: 10-12

Prerequisite: Successful completion of Biology 1 Honors and Chemistry 1 Honors

ADVANCED PLACEMENT CHEMISTRY/CHEMISTRY II HONORS (2003370/2003360)

This is a rigorous study of the development and application of chemistry principles and concepts. The purpose of this course is to study the development and application of chemistry principles and concepts. Content includes structure of matter, states of matter, reactions, descriptive chemistry, laboratory as well as chemical calculations and the mathematical formulations of principles. College credit can be earned by successful performance (3 or above) on the Advanced Placement exam administered in May.

Double block class - 2.0 credits

Grade: 10-12

Prerequisite: Successful completion of Biology 1 and Chemistry 1

COURSE OFFERINGS

SOCIAL STUDIES (4 CREDITS REQUIRED)

ADVANCED PLACEMENT HUMAN GEOGRAPHY (2103400)

The purpose of this course is to enable students to develop higher understanding of concepts and skills related to Human Geography. The content will include the following: regions, population studies, cultural concepts and spatial representation, political geography, land use, urbanization, issues related to space, place, scale, and economic geography. College credit can be earned by successful performance (3 or above) on the Advanced Placement exam administered in May.

Grades: 9 or counselor approval for grades 10-12

Prerequisite: FSA ELA Level 4 or 5

WORLD HISTORY (2109310)

This course provides students with the opportunity to acquire an understanding of the chronological development of civilization by examining the political, economic, social, religious, military, dynastic, scientific, and cultural events that affect humanity.

Grades: 10

Prerequisite: None

WORLD HISTORY HONORS (2109320)

The purpose of this course is to enable students to understand their connections to the development of civilizations by examining the past to prepare for their future as participating members of a global community. Students will use knowledge pertaining to history, geography, economics, political processes, religion, ethics, diverse cultures, and humanities to solve problems in academic, civic, social, and employment settings. The content includes the following: prehistory, rise of civilization, development of religion and the impact of religious thought, evolution of political systems and philosophies, influence of significant historical figures and events, and contemporary world affairs.

Grade: 9-10

Prerequisite: 3, 4, or 5 FSA ELA

ADVANCED PLACEMENT WORLD HISTORY (2109420)

This course is designed to include the chronological period from 600 C.E. to the present with a general analysis of developments before that time. Students will develop a knowledge and understanding of the cultures of the continents and how they interacted with the world today. Content is the content specified by the Advanced Placement Program. This course uses college-level textbooks and requires considerable work outside of the classroom including outside reading and research. College credit can be earned by successful performance (3 or above) on the Advanced Placement exam administered in May.

Prerequisite: Successful completion of English I or Honors English 1, 4 or 5 FSA ELA

Grades: 9, 10

U.S. HISTORY (2100310)

This course provides students with the opportunity to acquire an understanding of the chronological development of the American people by examining the political, economic, social, religious, military, scientific, and cultural events that have affected the rise and growth of our nation.

Grades: 11

Prerequisite: None

U.S. HISTORY HONORS (2100320)

The purpose of this course is to enable students to understand the development of the United States within the context of history with a major focus on the post-Reconstruction period. Students will use knowledge pertaining to history, geography, economics, political processes, religion, ethics, diverse cultures, and humanities to solve problems in academic, civic, social, and employment settings.

Prerequisite: 3, 4, or 5 FSA ELA

Grades: 11

ADVANCED PLACEMENT U.S. HISTORY (2100330)

Students will analyze the development of the U.S. within the context of history by examining connections to the past to prepare for the future as participants in a democratic society. Students will use knowledge pertaining to history, geography, economics, political processes, religion, ethics, diverse cultures, and humanities to solve problems in academic, civic, social, and employment settings. College credit can be earned by successful performance (3 or above) on the Advanced Placement exam administered in May.

Prerequisite: Successful completion of World History and English 2 or English 2 Honors, 4 or 5 FSA ELA

Grades: 11

ECONOMICS (with Financial Literacy) (.5 credit) (21023350)

This course provides students the opportunity to acquire an understanding of the way in which a society organizes its limited resources to satisfy unlimited wants. The student is introduced to the major characteristics of the mixed market economic system in the United States and studies the way in which basic economic questions are answered. Includes Financial Literacy.

Grades: 12

Prerequisite: Grade 12 given opposite Government

ECONOMICS (with Financial Literacy) HONORS (.5 credit) (21023450)

This course provides students the opportunity to acquire an understanding of the way in which a society organizes its limited resources to satisfy unlimited wants. The student is introduced to the major characteristics of the mixed market economic system in the United States and studies the way in which basic economic questions are answered. Includes Financial Literacy.

Grades: 12

Prerequisite: Grade 12 given opposite Government Honors

ADVANCED PLACEMENT MACROECONOMICS (.5 credit) (2102370)

This course provides instruction in theory, organization, principles, and functions of the national government, stressing the relationships of the individual to all levels of government in the political system and the economics course provides opportunities to acquire the knowledge and decision-making tools necessary for understanding how society must organize its limited resources to satisfy its unlimited wants. College credit can be earned by successful performance (3 or above) on the Advanced Placement exam administered in May.

Grades: 12

Prerequisite: Successful completion of A.P. U.S. History, Grade 12, given opposite AP Government

U.S. GOVERNMENT (.5 credit) (2106310)

This course provides students with the opportunity to acquire an understanding of American government and political behavior. Content includes an understanding of the evolving role of political parties and interest groups in determining government policy, how the rights and responsibilities of citizens in a democratic state have evolved and been interpreted, and the importance of civic participation in the democratic political process.

Grades: 12

Prerequisite: Grade 12 given opposite Economics

U.S. GOVERNMENT HONORS (.5 credit) (2106310)

This course provides students with the opportunity to acquire an understanding of American government and political behavior. Content includes an understanding of the evolving role of political parties and interest groups in determining government policy, how the rights and responsibilities of citizens in a democratic state have evolved and been interpreted, and the importance of civic participation in the democratic political process.

Grades: 12

Prerequisite: Grade 12 given opposite Economics Honors

ADVANCED PLACEMENT U.S. GOVERNMENT (.5 credit) (2106420)

This course provides instruction in theory, organization, principles, and functions of the national government. Students will understand the development of the United States within the context of history by examining connections to the past to prepare for the future as participating members of a democratic society. Students use knowledge pertaining to history, geography, economics, political processes, religion, ethics, diverse cultures, and humanities to solve problems in academic, civic, social and employment settings. College credit can be earned by successful performance (3 or above) on the Advanced Placement exam administered in May.

Grades: 12

Prerequisite: Successful completion of A.P. U.S. History, Grade 12 given opposite AP Economics

ADVANCED PLACEMENT PSYCHOLOGY (2107350)

Through the study of psychology, students acquire an understanding of and an appreciation for human behavior, behavioral interaction, and the progressive development of individuals. This will better prepare them to understand their own behavior and the behavior of others. The content should include research methodology, biological bases of behavior, sensation and perception, states of consciousness, learning and cognition, developmental psychology, theory psychological testing, abnormal psychology, and treatment of psychological disorders. College credit can be earned by successful performance (3 or above) on the Advanced Placement exam administered in May.

Grades: 10-12

Prerequisite: FSA ELA level 3 or higher

COURSE OFFERINGS

ANIMAL SCIENCE SERVICES

AGRISCIENCE FOUNDATIONS 1 (8106810)

This course is designed to develop competencies in the areas of agricultural history and the global impact of agriculture; career opportunities; scientific and research concepts; biological and physical science principles; environmental principles; Agriscience safety; principles of leadership; and agribusiness, employability, and human relations skills in Agriscience. Laboratory-based activities are an integral part of this course. These include the safe use and application of appropriate technology, scientific testing and observation equipment. *Course counts as a science credit*

Grades: 9-12

Prerequisite: None

ANIMAL SCIENCE AND SERVICE 2 (8106210)

This course is designed to develop competencies in the areas of Agriscience industry careers; prevention and treatment of livestock diseases; livestock anatomy; wholesale cuts of meat; animal reproduction and identification; animal safety; animal-health certification; plant growth; plant fertilization; safe use of pesticides; maintenance of tools and equipment; record keeping; and employability skills.

Grades: 10-12

Prerequisite: Successful completion of Agriscience Foundations 1 or Veterinary Assisting 1

ANIMAL SCIENCE AND SERVICE 3 (8106220)

This course is designed to develop competencies in the areas of job and training requirements; professional organizations; crop identification; planting crops; fertilizer calculations and application; irrigation; pest control; harvesting, packing, and grading crops, safe equipment operation; finance; and employability skills.

Grades: 11, 12

Prerequisite: Successful completion of Animal Sci & Sers 2

ANIMAL SCIENCE AND SERVICE 4 (8106230)

This course provides students with skills and competencies basic to the science of agriculture. Content includes plant science; animal science; soil science; agricultural mechanics; natural resources and conservation; communication; and employability skills. Land Laboratory and shop activities are included. The FFA organization is an integral part of the instructional program.

Grade: 12

Prerequisite: Successful completion of Animal Sci & Sers 3

INTRODUCTION TO EQUESTRIAN STUDIES (8004210)

This course is designed to develop competencies in the areas of leadership, equine history and domestication, equine breeds and characteristics, anatomy, behavior, safety, grooming, handling and equitation skills with horses.

Grades: 10-12

Pre-Requisite: Agriscience Foundations

BEGINNING EQUESTRIAN (8004220)

This course is designed to develop competencies in the areas of leadership, equine safety procedures, the organizational structure of the equestrian riding discipline, and maintaining control of the horse at all times while mounted.

Grades: 11-12

Pre-Requisite: Agriscience Foundations and Introduction to Equestrian Studies

VETERINARY ASSISTING 1 (8111510)

This course is an introduction to Veterinary Science with emphasis on animal control, veterinary science terminology, companion animal first aid, identification, selection and overpopulation problems, and an overview of Veterinary Medicine. Laboratory and FFA (Future Farmers of America) activities are integral parts of the course.

Grades: 9-12

Prerequisite: None

VETERINARY ASSISTING 2 (8111540)

This course is designed to introduce Veterinary medicine with emphasis on human - animal bond, animal related laws, animal research, genetics and biotechnology, and enterprise management. Laboratory and FFA (Future Farmers of America) activities are integral parts of the course.

Grades: 10-12

Prerequisite: Veterinary Assisting 1 + Instructor Approval

VETERINARY ASSISTING 3 (8111550)

The emphasis of the course is nutrition - feeds for large and small animals. Students will study the recognition of malnutrition and remedies for animals. Laboratory experiences are required. FFA (Future Farmers of America) and leadership are integral parts of the program.

Grades: 11, 12

Prerequisite: Veterinary Assisting 2 + Instructor Approval

VETERINARY ASSISTING 4/5 (8111520/8111530)

This course emphasizes environmental conditions and pest management. Small and large animals are included. Laboratory and FFA (Future Farmers of America) activities are integral parts of the course.

Grade: 12

Prerequisite: Veterinary Assisting 3 or 4 + Instructor Approval

COURSE OFFERINGS

ARMY JUNIOR ROTC

2 years successful completion of JROTC will waive students from their fine arts and PE credit requirements.

LEADERSHIP EDUCATION AND TRAINING 1 (1801300)

This course teaches students the value of citizenship, leadership, and service to the community, while instilling in them self-esteem, teamwork, and self-discipline. Its focus is reflected in its mission statement, "To motivate young people to be better citizens." It prepares high school students for responsible leadership roles while making them aware of their rights, responsibilities, and privileges as American citizens. Content includes leadership development, drill and ceremony, personal health and fitness, first aid, map skills, techniques of writing and public speaking, American history, drug intervention and substance abuse, marksmanship, and safety. Extracurricular activities include Drill Team, Color Guard, Raider Team, Rifle Team, and Sabers Honor Club.

Grades: 9-12

Prerequisite: None

LEADERSHIP EDUCATION AND TRAINING 2 (1801310)

This course continues the development of the leadership skills that began in Leadership Education and Training I (LET I).

Grades: 10-12

Prerequisite: LET I

LEADERSHIP EDUCATION AND TRAINING 3 (1801320)

In this course, students continue the development of the leadership skills and activities that began in Leadership Education and Training I and II (LET I and LET II). Strategies for postsecondary school plans and goals are introduced.

Grades: 11, 12

Prerequisite: LET I and II

LEADERSHIP EDUCATION AND TRAINING 4 (1801330)

This course continues the development of the leadership skills and activities that began in previous Leadership Education and Training classes. Strategies for postsecondary school plans and goals are developed and implemented. Assistance in college entrance, military careers and/or transition to the workforce is also provided.

Grade: 12

Prerequisite: LET I, II, and III

COURSE OFFERINGS

ART EDUCATION

All courses fulfill the fine arts requirement for graduation.

2-D Studio Art 1 (0101300)

The purpose of this course is to give students extensive experience in the artistic expression of ideas through two-dimensional art media. Beginning drawing skills are taught. This course is a prerequisite to all other art courses.

Grades: 9-12

Prerequisite: None

2-D Studio Art 2 (0101310)

The purpose of this course is to enable students to develop intermediate-level perceptual, observational, and compositional skills necessary to communicate a range of subject matter, symbols, ideas, and concepts, using knowledge of drawing media, processes, and techniques. Includes writing about art pieces.

Grades: 10-12

Prerequisite: Successful completion of 2-D Studio Art

2-D Studio Art 3 Honors (0101320)

The purpose of this course is to enable students to develop advanced perceptual, observational, and compositional skills necessary to communicate a range of subject matter, symbols, ideas, and concepts using knowledge of drawing media, processes, and techniques.

Grades: 10-12

Prerequisite: Successful completion of 2-D Studio Art 1 and 2

SCULPTURE 1 (0111310)

The purpose of this course is to provide students the opportunity to develop additional skills in the use of sculpture media, design, processes and techniques. Emphasis shall be placed on the visual, spatial, and compositional concepts to communicate a range of ideas. This course is next level of 3-D Art/Sculpture class.

Grades: 10-12

Prerequisite: Successful completion of 2-D Studio Art 1 and 2

SCULPTURE 2/3 (0111320/0104300)

The purpose of this course is to enable students to develop intermediate-level skills in the use of sculpture media, design, processes, and techniques. Emphasis is placed on the use of visual, spatial, and compositional concepts to communicate a range of ideas.

Grades: 11, 12

Prerequisite: Successful completion of Sculpture 1/2

ADVANCED PLACEMENT ART – DRAWING PORTFOLIO (0104300)

The purpose of this course is to give advanced students the opportunity to develop quality, concentration, discipline, and breadth in drawing. The content includes experiences in the development of skills in the perceptual and conceptual aspects of drawing techniques of

preparation, presentation, and evaluation of portfolio content. Students will demonstrate perceptual abilities and drawing skills in rendering three-dimensional forms on a flat surface, the ability to communicate meaning in conceptual art forms, produce works judged to have aesthetic quality, the goal of artistic expression through drawing, the ability to solve a wide variety of drawing problems as well as the mastery of techniques for preparation, presentation, and evaluation of portfolio content.

Grades: 10-12

Prerequisite: 2-D Art, teacher approval

ADVANCED PLACEMENT STUDIO ART 2D (0109350)

This AP course is intended to address a very broad interpretation of two-dimensional (2-D) design issues. This type of design involves purposeful decision-making about how to use the elements and principles of art in an integrative way. It is for the advanced student who wishes to seek AP credit through submitting a Portfolio of work for consideration by the College Board. The content will include the advanced study of the elements of design and the advanced study of the principles of design.

Grades: 10-12

Prerequisite: 2-D Art, teacher approval

ADVANCED PLACEMENT STUDIO ART 3D (0109360)

This AP course is intended to address a very broad interpretation of sculptural issues in three-dimensional (3-D) design. Such elements and concepts may be articulated through additive, subtractive, and/or fabrication processes. It is for the advanced student who wishes to seek AP credit through submitting a Portfolio of work for consideration by the College Board. The content includes advanced study of the elements of design and the advanced study of the principles of design including a variety of 3-D forms such as traditional sculpture, architectural models, apparel, ceramics, jewelry, and three-dimensional fiber arts or metalwork.

Grades: 10-12

Prerequisite: 2-D art, Teacher Approval

ATHLETIC TRAINING

CARE AND PREVENTION OF ATHLETIC INJURIES (.5 credit class) (15024901)

This course is offered to introduce athletic training and the career opportunities it represents. The purpose is to convey knowledge of basic taping techniques as well as human anatomy and physiology as it relates to the nature, prevention, care, and rehabilitation of athletic injuries. Students must be able to attend practices after school and attend sporting events.

Grades: 10-12

Prerequisite: **Athletic trainer approval**, paired with First Aid and Safety, successful completion of Personal Fitness or HOPE, and Biology 1

FIRST AID AND SAFETY (.5 credit class) (08003202)

The purpose of this course is to enable students to acquire skills in first aid, emergency care, and personal safety. Students will learn first-aid procedures and adult, child, and infant CPR. Students will be able to identify community resources and services as well as career and public service opportunities.

Grades: 10-12

Prerequisite: Successful completion of Care and Prevention of Athletic Injuries

COURSE OFFERINGS

COMMUNICATION AND MULTIMEDIA TECHNOLOGY

DIGITAL INFORMATION TECHNOLOGY (8207310)

This course is designed to provide a basic overview of current business and information systems and trends, and to introduce students to fundamental skills required for today's business and academic environments. Emphasis is placed on developing fundamental computer skills. The intention of this course is to prepare students to be successful both personally and professionally in an information-based society. Digital Information Technology includes the exploration and use of databases, the internet, spreadsheets, presentation applications, management of personal information and email, word processing and document manipulation, HTML, web page design, and the integration of these programs using software that meets industry standards. After successful completion of this core course, students will have met Occupational Completion Point A, Information Technology Assistant - SOC Code 15-1151. *Class will fulfill fine arts graduation.*

Grades: 9-12

Prerequisite: None

DIGITAL DESIGN 1 (8209510)

This course is designed to develop the entry-level skills required for careers in digital design. The content includes computer skills; digital publishing concepts and operations; layout, design, and measurement activities; digital imaging; communication, collaboration and decision-making activities; critical thinking and problem-solving.

DIGITAL DESIGN 2 (8209510)

This course continues the development of entry-level skills required for careers in digital design. The content includes computer skills; digital publishing operations; layout, design, and measurement activities; digital imaging; communication, collaboration and decision-making activities; critical thinking and problem solving.

Prerequisite: Digital Design 1

DIGITAL VIDEO PRODUCTION 1 (8772410)

This class is an introduction to Digital Video production techniques. Emphasis will be placed on camera and lighting techniques, scriptwriting, jobs within the industry, legal and technical issues, and history of video production, teamwork and the use of video editing software (iMovie). Most projects will be in the one- to five-minute consisting of ads, short stories, news stories, etc.

Grades: 9-12

Prerequisite: None

DIGITAL VIDEO PRODUCTION 2 (8772420)

The purpose of this class is to build on the first course of Digital Video Production. Students will be able to demonstrate safe and efficient work practices, generate a production schedule, create appropriate lighting for location and/or set productions, operate a video camera, record, mix and edit audio resources, operate control room equipment, organize and edit video resources, and describe the importance of professional ethics and legal responsibilities.

Grades: 10-12

Prerequisite: Digital Video Production 1

DIGITAL VIDEO PRODUCTION 3 (8772430)

The purpose of this class is to prepare students for initial employment as production assistants, audio/video equipment technician, video/TV camera operators, video editors, multi-media artists/animators and broadcast technicians. The content should include, but is not limited to, communication skills; leadership skills; human relations and employability skills; safe and efficient work practices; and preparation to assume responsibility for overall production of digital video activities including scripts, lighting, camera operation, electronic news gathering, field/studio production, and video editing.

Grades: 11, 12

Prerequisite: Digital Video Production 2

DIGITAL VIDEO PRODUCTION 4 (8772440)

The purpose of this class is to prepare students for initial employment as production assistants, audio/video equipment technician, video/TV camera operators, video editors, multi-media artists/animators and broadcast technicians. The content should include, but is not be limited to, communication skills; leadership skills; human relations and employability skills; safe and efficient work practices; and preparation to assume responsibility for overall production of digital video activities including scripts, lighting, camera operation, electronic news gathering, field/studio production, and video editing.

Grade: 12

Prerequisite: Digital Video Production 3

COURSE OFFERINGS

CRIMINAL JUSTICE

CRIMINAL JUSTICE OPERATIONS 1 (8918010)

In Criminal Justice Operations 1, a one-credit course, is designed to introduce students to the fields of law enforcement, the court system, and the correctional system. This course provides technical skill proficiency, industry content knowledge and competency-based applied learning that contributes to the higher-order reasoning and problem-solving skills, work attitudes, general employability skills, technical skills, and occupation-specific skills, needed in all aspects of Law, Public Safety and Security Careers. This course is about criminal justice and its development. Due to the nature of this subject, the material can be very detailed and in some cases shocking. Students who complete four years of this program will be eligible to become a 911 Dispatcher.

Prerequisite: None

CRIMINAL JUSTICE OPERATIONS 2 (8918020)

This course is to introduce the student to the characteristics and procedures of patrol, complete written reports, and crime prevention programs. Students will also describe guidelines for Use-of-force, perform CPR/ first aid techniques, and procedures to protect from Blood-Borne pathogens. Training for Traffic Control Officer and Parking Enforcement Specialist IAW Florida Statute 316.640 will be accomplished.

Prerequisite: Successful completion of Criminal Justice Operations 1

CRIMINAL JUSTICE OPERATIONS 3 (8918030)

This course is to introduce the student to the crime scene safety, conducting criminal investigations, conducting forensic processing, and complete property control procedures. Students will conduct a traffic crash investigation completing the proper report forms. Computer skills as well as job related math skills will be performed. Enhancing the awareness of human diversity will be instructed.

Prerequisite: Successful completion of Criminal Justice Operations 2

DISPATCHER: POLICE, FIRE, AMBULANCE (9101100)

This course is designed to prepare students for certification as a dispatcher as defined s. 365.172(3)(a).

COURSE OFFERINGS

DRIVER'S EDUCATION

DRIVER EDUCATION CLASS/LAB (1900310)

The purpose of this course is to introduce students to the highway transportation system and to provide instruction in strategies that will develop driving knowledge and skills. Course content includes an in-depth study of the scope and nature of accident problems and how to avoid them. In addition, the course discusses the effects of drugs and alcohol while operating a motor vehicle. This course is a semester course that is paired with Critical Thinking (1700370).

Grades: 10-12

Prerequisite: Eligible for a Learner's Permit; 15 years of age

EXPERIENTIAL EDUCATION

AVID 1-4 (Advancement via Individual Determination)

The purpose of this course is close the achievement gap by preparing all students for college readiness and success in a global society. This course provides support for students through curricular and mentoring activities. It develops the fundamental skills in the following: academic instruction and support for students taking college preparatory/advanced courses, strategies for acquiring, storing, and retrieving information and linking new information with prior knowledge, strategies for oral and written communication, skills for personal success, including time management and organizational skills, and college awareness and potential.

Grades: 9-12

Prerequisite: Application only

PERSONAL, CAREER, AND SCHOOL DEVELOPMENT SKILLS 3-4: BEST BUDDIES (0500510/0500530/0500530)

Best Buddies follows four pillars: Leadership, Friendship, Jobs and Inclusive Living. Within these pillars, Best Buddies offers nine different programs that help people with all abilities feel included and valued in their schools and communities! The mission of Best Buddies is to establish a global volunteer movement that creates opportunities for one-to-one friendships, integrated employment, leadership development, and inclusive living for people with intellectual and developmental disabilities (IDD).

Grades: 10-12

Prerequisite: **Must** be approved by teacher

EXECUTIVE INTERNSHIP I (0500300)

The purpose of this course is to provide a practical introduction to the work environment through direct contact with professionals in the community. Students apply textbook learning, leadership skills and understanding in challenging and creative professional areas.

Grade: 12 only

Prerequisite: 3.5 unweighted GPA, no discipline records, and Administrative Approval

COURSE OFFERINGS

JOURNALISM AND MULTIMEDIA

FOUNDATIONS OF JOURNALISM (820300)

This course is designed to develop basic entry-level skills required for careers in the writing and editing industry.

Grades: 9-12

Prerequisite: None

DIGITAL DESIGN 1 (8209510)

This course is designed to develop basic entry-level skills required for careers in the digital publishing industry. The content includes computer skills; digital publishing concepts and operations; layout, design, and measurement activities; decision-making activities; and digital imaging.

PHOTOJOURNALISM (8203001)

This course is designed to introduce students to basic photojournalism techniques, including camera operation, lighting, composition, photo manipulation, and storytelling for print and online publications. Through this course, the students will become familiar with Digital Single Lens Reflex (DSLR) and as well as cameras on mobile devices and learn how to create authentic journalistic documents. An emphasis will be placed on using the camera as a reporting tool and will cover industry expectations for professional photojournalists.

MULTIMEDIA PRODUCTION (8771110)

This course is designed to develop basic entry-level skills required for careers in the communications industry.

LANGUAGE ARTS ELECTIVES

FOUNDATIONS OF JOURNALISM: Yearbook (820300Y)

The yearbook course is designed to provide students with journalism skills and the ability to apply those skills to the actual production of the yearbook. Units of study include content production, writing style, layout, design, advertising, and distribution, the history of Journalism, and ethics and legal issues.

Grades: 10-12

Prerequisite: Instructor approval

PERSONAL, CAREER, AND SCHOL DEVELOPMENT SKILLS 1: FRESHMAN SEMINAR (0500500)

Freshman seminar is a course designed to promote a successful transition between middle school and high school. Taught by Fairview High School teachers, the course provides students with opportunities for academic enrichment and assistance, as well as the chance to improve organizational and communication skill.

Grades: 9th grade only.

ALL 9TH GRADE STUDENTS WILL BE SCHEDULED INTO THIS COURSE.

COURSE OFFERINGS

AP CAPSTONE DIPLOMA ELECTIVES

AP CAPSTONE SEMINAR (1700500)

AP Capstone™ is an innovative diploma program from the College Board that equips students with the independent research, collaborative teamwork, and communication skills that are increasingly valued by colleges. AP Capstone is built on the foundation of two AP courses — AP Seminar and AP Research. They are designed to complement and enhance the in-depth, discipline-specific study experienced in other AP courses.

In AP Seminar, students investigate real-world issues from multiple perspectives, gathering and analyzing information from various sources in order to develop credible and valid evidence-based arguments. In AP Research, students cultivate the skills and discipline necessary to conduct independent research and inquiry in order to produce and defend their scholarly work.

Prerequisite: Junior level course

AP CAPSTONE RESEARCH (1700500)

AP Research allows students to deeply explore an academic topic, problem, or issue of individual interest. Through this exploration, students design, plan, and conduct a year-long research-based investigation to address a research question. In the AP Research course, students further their skills acquired in the AP Seminar course by understanding research methodology; employing ethical research practices; and accessing, analyzing, and synthesizing information as they address a research question. Students explore their skill development, document their processes, and curate the artifacts of the development of their scholarly work in a portfolio. The course culminates in an academic paper of 4000–5000 words (accompanied by a performance or exhibition of product where applicable) and a presentation with an oral defense.

Prerequisite: Senior level course; must have taken and passed AP Capstone Seminar

LATINOS IN ACTION

LEADERSHIP SKILLS DEVELOPMENT 1-2 (2400300/2400310)

Latinos In Action (LIA) offers an asset-based approach to bridging the graduation and opportunity gap for Latino students, working from within the educational system to create positive change. Personal assets, excellence in education, service, and leadership are the four pillars of Latinos In Action. Through culturally responsive social and emotional learning, college and career readiness, and interpersonal development, Latinos in Action empowers Latino and other youth who desire to expand their academic performance, leadership skills, and service opportunities, thereby strengthening their community.

Grades: 11-12

Prerequisite: Application & Instructor Approval

COURSE OFFERINGS

MUSIC

(All courses fulfill the fine arts requirement for graduation.)

Instrumental Music:

BAND 1 (Band introduction) (1302300)

This course develops musical skills in band instrumental performance. Content includes development of characteristic tone, technique, scales, phrasing, rhythmical technique, and musical terms. The student's performance at practices, parades, special performances, football games, and competitions may be used in determining the grade in this course.

Grades: 9-12

Prerequisite: None

BAND 2/3/4 (1302310/1302320/1302330)

This course develops musical skills in band instrumental performance. Content includes development of characteristic tone, further development of scales, music reading, sight-reading, more advanced rhythmic studies, and form. The student's performance at practices, parades, special performances, football games, and competitions may be used to determining the grade in this course.

Grades: 9-12

Prerequisite: Successful completion of sequential class

BAND 5/6 HONORS (1302340/1302350)

This course includes the development of advanced instrumental ensemble techniques and skills, extended music literacy and theory, and deep aesthetic engagement. Musical independence and leadership are particularly encouraged in this setting. Extra rehearsals and performance are required, and students must serve as members of the marching band.

Grades: 11, 12

Prerequisite: Successful completion of Band IV, Teacher Placement

GUITAR 1/2/3 (1301320)

The purpose of this course is to enable students to develop basic skills in guitar performance, including interpretation of notation and performance in varied styles.

Grades: 9-12

Prerequisite: None

JAZZ ENSEMBLE (1302500)

This course is for advanced instrumental musicians who wish to further their music through diverse music compositions. Musical independence and leadership are key for this course. Performance required.

Grades: 9-12

Prerequisite: Successful completion of Band 1

ORCHESTRA 1-5 (1302360/1302370/1302380/1302390/1302400)

Students who have little or no orchestral experience study and perform high-quality beginning orchestra literature of diverse times and styles. Rehearsals focus on the development of critical listening skills, rudimentary string techniques, music literacy, ensemble skills, and aesthetic awareness. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend and/or participate in rehearsals and performances outside the school day to support, extend, and assess learning in the classroom. Students in this class may need to obtain (e.g., borrow, rent, purchase) an instrument from an outside source.

Grades: 9-12

Prerequisite: None/successful completion of sequential course

Vocal Music:

CHORUS 1 (1303300)

This course provides students with experiences in basic vocal production techniques and part-singing. Content includes enabling students to develop basic fundamental skills in vocal tone production and choral performance techniques.

Grades: 9-12

Prerequisite: None

CHORUS 2-4 (5/6 Honors) (1303310/1303320/1303330)

The purpose of this course is to enable students to develop intermediate-level individual and ensemble skills in choral performance through preparation of varied high school literature. Emphasis is placed on healthy and expressive singing, accurate interpretation of notation, and development of critical and aesthetic response to music.

Grades: 9-12

Prerequisite: Successful completion of sequential course

COURSE OFFERINGS

PHYSICAL EDUCATION

(All physical education classes require that students dress for exercise.)

PERSONAL FITNESS/ COMPREHENSIVE FITNESS (1501300/1501310) *GRADUATION REQUIREMENT*

The purpose of this course is to develop healthy behaviors that influence lifestyle choices for students. The content includes fitness and health concepts, wellness and nutrition plans, safety and injury prevention, mental and emotional health, stress management, disease prevention, tobacco, alcohol, drug use and abuse, and teen pregnancy prevention.

Grades: 9-12

Prerequisite: None

INDIVIDUAL AND DUAL SPORTS I/II (1502410/1502420)

The purpose of this course is to enable students to develop knowledge and skills in specified individual and dual sports and to maintain or improve personal fitness. The content includes the following safety practices, rules, terminology, and etiquette, history, biomechanical and physiological principles, techniques and strategies, and fitness assessment.

Grades: 9-12

Prerequisite: None

SOCCER/RECREATION (1503300/1502470)

This course provides students with opportunities to acquire knowledge and skills in soccer that may be used in recreational pursuits today, as well as later in life, and to maintain or improve personal fitness.

Grades: 9-12

Prerequisite: Teacher Placement

TEAM SPORTS I/II (1503350/1503360)

This provides students with opportunities to acquire knowledge of team sports play, develop skills in selected team sports, and maintain or improve personal fitness. Content includes rules and safety practices necessary to participate in selected team sports.

Grades: 9-12

Prerequisite: None

WEIGHT TRAINING I and AEROBICS I (1501340/150340)

The purpose of this course is to help students acquire basic knowledge and skills in weight training that may be used in physical fitness pursuits. The course is designed to improve muscular strength and endurance, and to enhance body image. The students are required to set up their own program in nutrition, stretching, and strength and demonstrate improvements over a given period of time.

Grades: 10-12

Prerequisite: None

WEIGHT TRAINING II and AEROBICS II (1501350/1503410)

This course involves reinforcement of basic weight training, knowledge of safety practices, application of knowledge of designing and implementing a personal weight-training program to meet specific needs and goals, and knowledge of the organization and administration of weightlifting activities.

Grades: 11, 12

Prerequisite: Weight Training I

WEIGHT TRAINING III and AEROBICS III (1501360/1503420)

The purpose of this course is to enable students to acquire basic knowledge and skills in power weight training and to maintain or improve personal fitness. Content includes safety practices, rules and terminology, techniques and strategies, biomechanical and physiological principles, as well as fitness assessment.

Grades: 12

Prerequisite: Weight Training II

POWER WEIGHT TRAINING 1 and PERSONAL FITNESS TRAINER (1501410/1501380)

This purpose of this course is for students to master weight training through the use of heavy weights. Content builds upon previous courses to improve overall strength and fitness.

Grades: 12

Prerequisite: Weight Training III

COURSE OFFERINGS

STEM (SCIENCE, TECHNOLOGY, ENGINEERING, MATHEMATICS)

AP COMPUTER SCIENCE PRINCIPLES (02003350)

AP Computer Science Principles introduces students to the central ideas of computer science, instilling the ideas and practices of computational thinking, and inviting students to understand how computing changes the world. Students develop innovative computational artifacts using the same creative processes artists, writers, computer scientists, and engineers use to bring ideas to life.

Grades: 9-12

Prerequisite: Successful completion of Algebra 1

Engineering Technology: *All courses fulfill the fine arts AND online requirement for graduation*

INTRODUCTION TO ENGINEERING DESIGN (8600550)

This course teaches problem-solving skills using a design development process. Models of product solutions are created, analyzed, and communicated using solid modeling computer design software.

Grades: 9-12

Prerequisite: Successful completion of Algebra 1 or teacher placement

PRINCIPALS OF ENGINEERING (8600520)

This course helps students understand the field of engineering/engineering technology. Exploring various technology systems and manufacturing processes help students learn how engineers and technicians use math, science, and technology in an engineering problem solving process to benefit people. The course also includes concerns about social and political consequences of technological change.

Grades: 10-12

Prerequisite: Introduction to Engineering Design

DIGITAL ELECTRONICS (8600530)

This is a course in applied logic that encompasses the application of electronic circuits and devices. Computer simulation software is used to design and test digital circuitry prior to the actual construction of circuits and devices.

Grades: 11, 12

Prerequisite: Principals of Engineering or teacher placement

CIVIL ENGINEERING & ARCHITECTURE (8600590)

This course is designed to give a clear understanding of Civil Engineering and Architecture, the study of the design and construction of residential and commercial building projects. The course includes an introduction to many of the varied factors involved in building design and construction including building components and systems, structural design, storm water management, site design, utilities and services, cost estimation, energy efficiency, and careers in the design and construction industry.

Grade: 12

Prerequisite: Digital Electronics or teacher placement

ENGINEERING DESIGN AND DEVELOPMENT (86000650)

This course is the capstone course in the PLTW high school engineering program. It is an engineering research course in which students work in teams to design and develop an original solution to a valid open-ended technical problem by applying the engineering design process. The course applies and concurrently develops secondary level knowledge and skills in mathematics, science, and technology.

Grade: 12

Prerequisite: Teacher placement

AEROSPACE ENGINEERING (8600620)

This course is intended to engage students in analyzing and designing solutions to engineering design problems related to aerospace information systems, astronautics, rocketry, propulsion, the physics of space science, space life sciences, the biology of space science, principles of aeronautics, structures and materials, and systems engineering. Students work in teams, exploring hands-on projects and activities to learn the characteristics of aerospace engineering and work on major problems to be exposed to the various situations that aerospace engineers face in their careers.

Grade: 12

Prerequisite: Teacher placement

Gaming Simulation and Animation Programming *All courses fulfill the fine arts AND online requirement for graduation*

GAME AND SIMULATION FOUNDATION/GAME 1 (8208110)

This course is designed to study different genres of games, history of games and simulation, where is gaming and simulation going, marketing strategies, design and build different games. Resources: "Gamemaker" magazine - free game making program, various web sites, books, gaming systems.

Grades: 9-12

Prerequisite: None

GAME AND SIMULATION DESIGN/GAME 2 (8208120)

This course covers fundamental principles of designing a game or simulation application, in particular Human Computer Interface (HCI) principles, rules and strategies of play, conditional branching, design and development constraints, the use of sound and animation, design tools, and implementation issues. The content includes market research, product design documentation, storyboarding, proposal development, and presentation of a project report. Emphasis is placed on the techniques needed to develop a well-documented, structured game or simulation program.

Grades: 10-12

Prerequisite: Game and Simulation Foundation

GAME AND SIMULATION PROGRAMMING (8208330)

This course is focused on students acquiring the appropriate programming skills for rendering a game or simulation product, including program control, conditional branching, memory management, scorekeeping, timed event strategies and methodologies, and implementation issues. Standards included in this course of instruction have been aligned to the academic courses shown below. This table shows the number of aligned benchmarks, the total number of academic benchmarks, and the percentage of alignment.

Grades: 11-12

Prerequisite: Game and Simulation Design

COURSE OFFERINGS

THEATER/ACTING

(All courses fulfill fine arts requirement for graduation)

ACTING 1 (0400370)

Through this course, students will learn improvisation, simple scripted scenes, performance projects, and/or practical application, students learn to identify what makes performances believable and explore the tools used to create, articulate, and execute them. Upon completion of this course, students have a strong foundation for future scene work, script analysis, and play production. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend and/or participate in rehearsals and performances outside the school day to support, extend, and assess learning in the classroom.

Grades: 9-12

Prerequisite: None

ACTING 2 (0400380)

This course continues the student's development of acting and technical skills. Students must develop pieces for competition. Students must devote time beyond regular class hours to rehearsals, competitions, and performances. One extensive research project is required during second semester.

Grades: 10-12

Prerequisite: Successful completion of Acting 1

ACTING 3 (0400390)

This course continues the student's development of acting and technical skills. Students must develop pieces for competition. Students must devote time beyond regular class hours to rehearsals, competitions, and performances. One extensive research project is required during the second semester.

Grades: 11, 12

Prerequisite: Successful completion of Acting 2

ACTING 4 HONORS (0400400)

This course continues the development of the student's acting and technical skills. Students must develop pieces for competition. Students must devote time beyond regular class hours to rehearsals, competitions, and performances. One extensive research project is required during the second semester.

Grade: 12

Prerequisite: Successful completion of Acting 3

**TECHNICAL THEATRE: DESIGN AND PRODUCTION 1-4
(0400410/0400420/0400430/0400440)**

Students focus on developing the basic tools and procedures for creating elements of technical theatre, including costumes, lighting, makeup, properties (props), publicity, scenery, and sound. Technical knowledge of safety procedures and demonstrated safe operation of theatre equipment, tools, and raw materials are central to success in this course. Students explore and learn to analyze dramatic scripts, seeking production solutions through historical, cultural, and geographic research. Students also learn the basics of standard conventions of design presentation and documentation; the organizational structure of theatre production and creative work in a collaborative environment; and the resulting artistic improvement. Public performances may serve as a culmination of specific instructional goals. Students may be required to attend or participate in technical work, rehearsals, and/or performances beyond the school day to support, extend, and assess learning in the classroom.

Grade: 9-12

Pre-Requisite: None

COURSE OFFERINGS

WORLD LANGUAGES

SPANISH 1 (0708340)

This course will develop listening, speaking, reading, and writing skills, including pronunciation and oral communication in the Spanish language. After completing this course, the student will be able to understand a basic conversation with a nonnative Spanish speaker and be able to communicate simple and personal information, verbally and in writing. This course will empower the student with a basic knowledge of the Spanish culture.

Grades: 9-12

Prerequisite: None

SPANISH 2 (0708350)

This course will reinforce the fundamental skills acquired by the students in Spanish I, including grammatical construction of the Spanish language. After completing this course, the student will be able to understand an intermediate conversation with a nonnative Spanish speaker and be able to communicate basic information verbally and in writing. This course will also empower the student with a general knowledge of the Spanish culture.

Grades: 9-12

Prerequisite: Successful completion of Spanish 1

SPANISH 3 Honors (0708360)

This course will enhance the skills acquired in Spanish 1 and 2. After completing this course, the student will be able to understand an intermediate conversation with a native Spanish speaker and be able to communicate using structures that are more advanced verbally and in writing. Intensive use of vocabulary for comprehension is an integral part of this class.

Grades: 10-12

Prerequisite: Successful completion of Spanish 2

ADVANCED PLACEMENT SPANISH LANGUAGE (0708400)

The purpose of this course is to develop oral and written fluency in the language. The student will be able to understand a lecture in Spanish and participate actively in a discussion of a literary topic. Students will read modern Spanish and Hispanic-American literature in all genres. In addition, students will analyze the form and content of literary work, critically, orally and in writing. College credit can be earned by successful performance (3 or better) on the Advanced Placement exam in May.

Grades: 11-12

Prerequisite: Successful completion of Spanish 3

FRENCH 1 (0701320)

French 1 introduces students to the target language and its culture. The student will develop communicative skills in all 3 modes of communication and cross-cultural understanding. Emphasis is placed on proficient communication in the language. An introduction to reading and writing is also included as well as culture, connections, comparisons, and communities.

Grades: 9-12

Prerequisite: None

FRENCH 2 (0701330)

French 2 reinforces the fundamental skills acquired by the students in French 1. The course develops increased listening, speaking, reading, and writing skills as well as cultural awareness. Specific content to be covered is a continuation of listening and oral skills acquired in French 1. Reading and writing receive more emphasis, while oral communication remains the primary objective. The cultural survey of the target language-speaking people is continued.

Grades: 9-11

Prerequisite: Successful completion of French 1
