**COVID-19 Symptomatic Decision Tree For Students**

1. **Exposed** to COVID-19 positive case
   - Asymptomatic: Return after
   - Symptomatic: See Section 2

2. **Symptomatic or COVID-19 positive**
   - Return after
     - Positive case within previous 90 days or fully vaccinated: No action required
     - Symptomatic: See Section 2

3. **Students with prior COVID-19 infection**
   - If fully vaccinated, no quarantine needed as long as remain asymptomatic - should monitor for symptoms
   - If not fully vaccinated:
     - 10 days have passed since symptom onset or positive test result, the student has had no fever for 24 hours and the student's other symptoms are improving: See Section 2
     - Student receives written permission from a healthcare provider to return to school

**Notes:**
- **Per CDC, exposure is close contact of 6 feet or less for 15 minutes or more. Contact at greater than 6 feet or for less than 15 minutes is generally not sufficient to transmit the virus.**
- As of August 18, 2021
