SchoolCity Suite

New for the 2020-21 School Year

- Tests may be administered online
- Online testing supports technology enhanced questions and multi-part (A/B) question types.
- Analyze Reports tool for quick access to assessment reports
- Personalized Review Assignments: Provide instant reteaching and enriching activities to students within minutes of administering a Flexible assessment.

Access

Students, teachers, academic coaches and administrators all access SchoolCity through Classlink.

Online Features

- Drag and drop a PDF of your assessment and test your students online.
- Scientific calculators, periodic tables, and rulers may be added to online assessments.
- Set up testing windows with passwords and monitor student completion using the online administration screen.
- Create your own technology enhanced items, like graphing points, hot text, drag and drop and essay prompts.

Student Reports

View student test results with one of SchoolCity's 9 pre-made reports. Look at student's prior year assessment data, monitor mastery of standards on classroom assessments, and analyze re-teaching opportunities with the item analysis report.

Share Assessments

Ask your school's designated district platform coordinator to be added to a PLC group.

PLC members can create and share assessments for online testing or with GradeCam answer sheets.
