Our Mission: Inspiring all learners to reach their highest potential as responsible, productive citizens.

A Letter from the Superintendent

The 2018-2019 school year marks an exciting time for the Osceola School District. Our district continues to maintain a strategic focus on providing the highest quality of educational experience for all children within a framework of economic responsibility to the citizens of Osceola County. It is through the strongest collaboration amongst School Board members, staff, students, parents, and the community that we will take student achievement to new heights this year.

As we work towards continuous improvement, I firmly believe that all students are capable of learning and achieving high standards. Hundreds of stakeholders have joined me in providing input into the goals that will drive our efforts this school year in the areas of academic success, talent management, fiscal responsibility, community engagement, and governance.

Our commitment to preparing our students for college and careers is unwavering, and engaging our community for the purpose of increased student achievement has never been more important. For more information about our fully-accredited school district, please visit us online at www.osceolaschools.net. I also encourage you to visit our schools to see first-hand the outstanding offerings and learning environments that are in place that contribute to all of our students' successes.

BUDGET CONVENTIONS

ASSIGNED FUND BALANCE:

Unrestricted fund balance in the General Fund is assigned for the following purposes in the priority listed. Any remaining fund balance is unassigned. Items 1 and 2 are included as carryover appropriations each year.

- 1. Assigned for Contract Commitments The amount needed to pay the balance of outstanding purchase orders
- 2. Assigned for Carryover Appropriations The unspent balances in specific programs that carry forward due to internal policy rather than external requirements, e.g. facility use fees
- 3. Assigned for Projected Operating Deficit To fund any projected operating deficit for the next year

NON-SALARY BUDGETS:

Schools are allocated non-salary funds on a per student basis. These are expended at the school's discretion to cover non-salary operating costs of the school and may be transferred between accounts as necessary. Allowable expenses include supplies, equipment, substitutes, overtime, travel, repairs, communications and maintenance.

Departments are allocated non-salary funds on a per employee basis. These are expended at the department's discretion to cover non-salary operating costs of the department and may be moved between accounts as necessary. Allowable expenses include supplies, equipment, overtime, travel, and communications.

Other non-salary budgets in the General Fund are controlled by project number and restricted for designated purposes. These budgets are controlled by the Budget Department and cannot be adjusted by schools or other departments. Expenses from these budgets are reviewed to ensure reasonableness, allowability and compliance with the designated purpose. Examples of these non-salary budget appropriations are the Research-Based Reading Instruction Allocation, Instructional Materials Allocation, Supplemental Academic Instruction (SAI) funding and line items.

Non-salary budgets for grants in the Special Revenue Fund are managed by project managers within the department receiving the grant. The Special Programs Department monitors the reasonableness and allowability of expenses from these sources to ensure compliance with applicable Federal, State and Local regulations.

OVERTIME:

Overtime is recorded in three different categories:

- Straight overtime for hours worked between the employee's regularly scheduled hours per week (37.5 hours for most employees, 30 hours for bus drivers and attendants) and 40 hours per week.
- Extra pay for time worked in an assignment different from the employee's normal job.
- Time and one-half overtime for hours worked over 40 hours per week.

Overtime is normally not included in salary budgets, but is paid from the non-salary allocations of schools and departments. The average salary for bus drivers and attendants, however, includes overtime and is included in the original salary budget.

REIMBURSEMENTS:

Reimbursements frequently occur within the budget when salary or non-salary expenditures are originally incurred in one fund or department and are later charged to another fund or department, either directly or as an overhead cost allocation. In these cases, reimbursement accounts are normally used in the fund or department where the original charge occurred in order to maintain accounting of the original cost. Such cost reimbursements would allow the gross expenditures in a fund or department to exceed the budget by the amount of the expenditures reallocated to other funds or departments. The net expenditures in every fund or department will be covered by the appropriations approved by the Board. Reimbursements typically occur, for example, in the Transportation Department for field trips charged to schools, in the Facilities and Maintenance Departments for costs later charged to Capital Projects, and in other departments for overhead costs allocated to charter schools.

RESTRICTED FUND BALANCE:

The unspent balances in federal, state, and local grant programs are restricted by external authorities for specific purposes. These are reported as restrictions of beginning fund balance and included as carryover appropriations in the current year.

RESTRICTED NET ASSETS:

In the Internal Service Fund, the balance of unspent appropriations is restricted for the administration and support of the District's group health and life self-insurance and the casualty insurance programs. These amounts are reported as restricted net assets.

SALARY BUDGETS:

Salary budgets include salaries, FICA/social security, retirement, and board insurance contributions for all allocated positions.

Position control is a function of the Budget Department. Therefore, position allocations and salary budgets cannot be changed by schools or other departments. There must be an allocated position for any employee to be hired and paid.

The cost per allocated position is based on the actual current salary of the employee assigned to that position. The cost of vacant positions is estimated based on the average salaries of employees currently filling similar positions. Bus driver and bus attendant salaries are budgeted at average cost, including overtime.

UNASSIGNED FUND BALANCE:

Unassigned fund balance in the General Fund is allocated for the following purposes in the priority listed.

- 1. Unassigned 6% Minimum per Board Six percent (6%) of the total revenues and incoming transfers in the General Fund per School Board rule 7.10.
- 2. Unassigned Fund Balance Any remaining fund balance not assigned, committed or restricted for other purposes.

FLORIDA EDUCATION FINANCE PROGRAM (FEFP) COMPONENTS

ADJUSTMENTS:

The Department of Education is authorized to make prior year adjustments in the allocation of funds to a district for adjudication of litigation, mathematical errors, assessment roll change, FTE student membership errors, or allocation errors revealed in an audit report. If state revenue collections are not sufficient to fund the amount appropriated for the FEFP, a special session may be held to reduce the appropriation and allocations. If the program calculates an amount that exceeds the appropriation, a proration of available funds will be deducted from Districts' calculated funding in proportion to each district's relative share of state and local FEFP dollars. This procedure preserves equity in the distribution of available dollars.

BASE STUDENT ALLOCATION:

The Base Student Allocation from state and local funds is determined annually by the Legislature and is a component in the calculation of Base Funding. For the 2018-19 fiscal year, the base student allocation is \$4,204.42.

BASE FUNDING:

Base Funding is derived from the product of the weighted FTE (WFTE) students, multiplied by the Base Student Allocation and the District Cost Differential. For the 2018-19 fiscal year, the District's base funding per WFTE is \$4,148.92.

CATEGORICAL PROGRAM FUNDS:

Categorical program funds are added to the FEFP allocation for districts. Currently, Class Size Reduction funding is the only FEFP revenue treated as a categorical. As a result of the voter-approved amendment to Article IX, Section 1, of the Florida Constitution regarding class size reduction, additional operating and capital outlay funds were appropriated to assist districts in their efforts to not exceed the class size maximums. Beginning with the 2010-11 school year, Florida classrooms may have no more than 18 students in grades PK-3, 22 students in grades 4-8, and 25 students in grades 9-12. The 2011 legislature amended Section 1003.03, Florida Statutes (F.S.), (Section 15, Chapter 2011-55, Laws of Florida), by providing class size flexibility to schools that enroll students after the October Student Membership Survey. Up to three students may be assigned to a teacher in grade group K-3. Up to five students may be assigned to a teacher

in grade groups 4-8 and 9-12. The district school board must develop a plan that provides that the school will be in full compliance by the next October student survey.

DEPARTMENT OF JUVENILE JUSTICE (DJJ):

The total K-12 weighted full-time equivalent student membership in juvenile justice education programs in each school district shall be multiplied by the amount of the state average class-size reduction factor multiplied by the District's cost differential. An amount equal to the sum of this calculation shall be allocated in the FEFP to each school district to supplement other sources of funding for students in juvenile justice education programs.

DECLINING ENROLLMENT SUPPLEMENT:

The declining enrollment supplement is determined by comparing the unweighted FTE (UFTE) for the current year to the UFTE of the prior year. In those districts where there is a decline in UFTE, 25 percent of the decline is multiplied by the prior-year base funding per UFTE.

DISCRETIONARY MILLAGE COMPRESSION (0.748 MILLS):

If any school district levies the full 0.748 mill levy and it generates an amount of funds per unweighted FTE (UFTE) that is less than the state average amount per UFTE, the school district shall receive a discretionary millage compression supplement that, when added to the funds generated by the district's 0.748 mill levy, shall be equal to the state average as provided in Section 1011.62(5), F.S.

DISTRICT COST DIFFERENTIAL:

Section 1011.62(2), F.S., requires the Commissioner to annually compute district cost differentials (DCDs) by adding each district's Florida Price Level Index for the most recent three years and dividing the sum by three. The result is multiplied by 0.800, and 0.200 is added to the product to obtain the DCD. For the 2018-19 fiscal year, the DCD is 0.9868.

EXCEPTIONAL STUDENT EDUCATION (ESE) GUARANTEED ALLOCATION:

This allocation provides funding to support the additional cost for exceptional education students that are identified for services in program levels 111, 112, or 113. Funding is calculated based on a different methodology for exceptional students that are in a support level of 4 or 5.

FLORIDA DIGITAL CLASSROOMS ALLOCATION:

H.B. 5101 created the Florida Digital Classrooms Allocation to support efforts to improve student performance outcomes by integrating technology in classroom teaching and learning. The District must adopt a district digital classrooms plan and submit the plan to the Department of Education for approval on an annual basis.

FLORIDA TEACHERS CLASSROOM SUPPLY ASSISTANCE:

Pursuant to Section 1012.71, F.S., these funds are to be used only by classroom teachers for the purchase of classroom instructional materials and supplies for use in teaching students. The Florida Teachers Classroom Supply Assistance Program appropriation provides an allocation to each school district based on the district's prorated share of the total K-12 unweighted FTE student enrollment.

FUNDING COMPRESSION ALLOCATION:

For the 2018-19 fiscal year, a Funding Compression Allocation provides funding for school districts and developmental research schools whose total funds per FTE in the prior fiscal year were less than the statewide average.

INSTRUCTIONAL MATERIALS:

The Instructional Materials allocation provides for core subject instructional materials, as well as library/media materials and science lab materials. These funds are allocated to provide growth and maintenance funding for each District school, to purchase dual enrollment textbooks, library/media and science lab materials, and to cover the cost of district-wide textbook adoptions.

Effective July 1, 2014, districts must spend at least 50% of this allocation to purchase digital instructional materials.

MENTAL HEALTH ALLOCATION:

The Mental Health Assistance Allocation provides funding to school districts to help establish or expand school based mental health care. At least 90 percent of this allocation must be spent to provide mental health assessment, diagnosis, intervention, treatment and recovery services to students with one or more mental health or co-occurring substance abuse diagnosis and students at high risk of such diagnoses; and to coordinate such services with a student's primary care provider and the student's other mental health providers.

RESEARCH-BASED READING INSTRUCTION ALLOCATION:

The Research-based Reading Instruction Allocation is designed to create a K-12 comprehensive, district-wide system of research-based reading instruction. The District uses these funds to support Reading Coach salaries, summer reading camp and other reading-based professional development. Effective July 1, 2016, charter schools shall be given a proportional share of the Research-Based Reading Instruction Allocation. Charter schools must ensure the funds received through this allocation are spent in accordance with section 1011.62(9)(c), Florida Statutes.

REQUIRED LOCAL EFFORT:

The required local effort is subtracted from the state and local FEFP dollars. This is the amount of required local effort that each district must provide to participate in the Florida Education Finance Program. The Commissioner computes and certifies the required local effort millage rate for each district. For the current fiscal year FEFP calculation, each district's contribution for required local effort is the product of the certified mills times 96 percent of the taxable value for school purposes of the district. Section 1011.62(4), F.S., directs the Commissioner to adjust required local effort millage rates if the millage would produce more than 90 percent of a district's total FEFP entitlement.

The Department of Revenue provides the Commissioner with its most recent determination of the assessment level of the prior year's assessment roll for each district and for the state. A millage rate is computed based on the positive or negative variation of each district from the state average assessment level. The millage rate resulting from application of this equalization factor is added to the state average required local effort millage. The sum of these two rates becomes each district's certified required local effort millage.

For the 2017-18 fiscal year, the State Legislature implemented a "buy-down" of the Required Local Effort (RLE). This policy rolls back the RLE millage rate to ensure that any increase in statewide school taxable value does not yield more funding for the RLE.

SAFE SCHOOLS:

The Safe Schools allocation shall be used to promote and create a safe learning environment for children to develop and learn. The funds are to be allocated so that each district is guaranteed a minimum amount of funding. If there is a remaining appropriation, 67 percent shall be allocated based on the most recent Florida Crime Index provided by the Department of Law Enforcement, and 33 percent shall be allocated based on each district's share of the state's total unweighted student enrollment. In the School District of Osceola County, this allocation is used to provide School Resource Officers at each school.

SCHOOL RECOGNITION PROGRAM FUNDS & DISCRETIONARY LOTTERY:

The State Legislature has the authority to appropriate for school recognition funds and district discretionary lottery funds. The first priority is to fund the Florida School Recognition Program, which is authorized by Section 1008.36, F.S. The Florida School Recognition Program provides monetary awards to schools that earn an "A" grade, improve at least one performance grade from the previous year, or sustain the previous year's improvement of more than one letter grade. The funds can be used for nonrecurring bonuses to the faculty and staff, nonrecurring expenditures for educational equipment or materials, or for temporary personnel to assist the school in maintaining or improving student performance.

SPARSITY SUPPLEMENT:

The FEFP recognizes the relatively higher operating cost of smaller districts due to sparse student population. This index is computed by dividing the FTE of the district by the number of permanent senior high school centers (not to exceed three). By Appropriations Act proviso, participation is limited to districts of 20,000 or fewer FTE.

STUDENT TRANSPORTATION:

The Student Transportation allocation provides for safe and efficient transportation services in school districts to support student learning. The formula for allocating the funds is outlined in Section 1011.68, F.S., and contains the following provisions in the state allocation for student transportation: 1) students with special transportation needs earn a higher rate of funding than base students; 2) base funding for each district is established by the district's proportionate share of the total statewide students eligible for transportation; and 3) indices are applied that modify the base funding amount to reward more efficient bus utilization, compensate for rural population density, and adjust funding based on the cost of living. The funds are to be distributed based on the formula in Section 1011.68, F.S. The formula currently provides funding to support less than 50% of the District's total transportation costs.

SUPPLEMENTAL ACADEMIC INSTRUCTION:

The Supplemental Academic Instruction (SAI) component of the FEFP formula provides for additional funding to pay for supplemental and remedial instruction. The District's SAI allocation supports the cost of remediation programs at each school, district-wide professional development, the Elementary Swim Program, ESE Summer School and other curriculum enhancement and assessment tools.

Part of this funding, together with funds provided through the Research-Based Reading Instruction Allocation and other available funds, shall be used by districts with one or more of the 300 lowest performing schools based on the state reading assessment to provide an additional hour of instruction beyond the normal school day for each day of the entire school year for intensive reading instruction for the students in each of these schools. Students enrolled

in these schools who have level 5 reading assessment scores may choose to participate in the additional hour of instruction on an optional basis. The District does not have any schools in this category.

VIRTUAL EDUCATION CONTRIBUTION:

The virtual education contribution shall be allocated pursuant to the formula provided in Section 1011.62(11), F.S. The contribution for the 2018-19 fiscal year is based on \$5,230 per FTE student in virtual programs.

THE SCHOOL DISTRICT OF OSCEOLA COUNTY, FL POLICY FOR EXPENDITURE OF LOTTERY FUNDS – 2018-19

THE AMOUNT OF DISCRETIONARY LOTTERY FUNDS = \$ 122,945

THE AMOUNT OF SCHOOL RECOGNITION FUNDS = \$ 2,044,828

Enhancement for the 2018-19 school year is defined as the expenditure of Lottery dollars for the following purposes:

- 1. To provide school recognition funds to qualifying schools;
- 2. To continue programs which were previously funded through state funds;
- 3. To supplement partially funded state programs;
- 4. To provide start up supplies, books and equipment for new facilities and programs.

FUND 100

GENERAL FUND

FUND 100

GENERAL FUND BUDGET

This fund is often referred to as the Operating Budget.

The major revenue sources for the General Fund are the Florida Education Finance Program (FEFP) and local discretionary taxes. Other significant revenue sources are Medicaid, Workforce Development, Voluntary Pre-Kindergarten, and transfers from the Capital Projects Fund.

Appropriations include most of the District's salaries and benefits, utilities, supplies, technology, transportation costs, and other operating expenses. The District has more discretion in appropriating General Fund revenues than other funds. However, even within the General Fund, much of the revenue is restricted for specified purposes (e.g., Reading, Supplemental Academic Instruction, Safe Schools, Mental Health, Teachers Classroom Supply Assistance Program, School Recognition).

Fund balances in the General Fund are the District's reserves against revenue shortfalls, emergencies, and other unplanned needs.

FUND 300

CAPITAL PROJECTS FUND

FUND 300

CAPITAL PROJECTS FUND BUDGET

This fund reports the revenue and expenditures for construction and renovations of school buildings and grounds. Funds are accounted for by source and year of appropriation.

The Board also generates capital revenue by levying capital outlay taxes. By law, this tax millage is limited to 1.5 mills and is currently set at the maximum.

The District receives impact fees charged against new residential construction.

Based on an inter-local agreement with local governmental entities, the District receives 25% of the revenue generated through the one-cent infrastructure sales surtax levied by the county through 2025.

Through a voter-approved referendum, the District also receives revenue from a halfcent school surtax.

Public Education Capital Outlay funds (PECO) are derived from utility taxes throughout the state and are allocated by the Legislature each year. PECO funds provide for maintenance and renovation of existing facilities and health and safety needs.

Capital Outlay (CO) and Debt Service (DS) revenues are derived from motor vehicle license tag fees.

State funds must be expended on capital outlay projects in accordance with state regulations. These regulations require recommendation of a school plant survey which must be conducted at least every five years.

FUND 400

SPECIAL REVENUE FUND

FUND 400

SPECIAL REVENUE FUND BUDGET

The Special Revenue Fund is comprised of two major sections: Food Service and Special Revenue-Other (Federal Grants).

The Food Service Fund reflects revenues and expenditures of the District's food service program. Federal reimbursements and local collections are the primary revenue sources which support this program. Some State support is also provided. The District does not subsidize the food service program from any other funding sources.

The Special Revenue-Other Fund accounts for federal entitlements and competitive grants.

FUND 700

INTERNAL SERVICE FUND

FUND 700

INTERNAL SERVICE FUND BUDGET

This fund records the premium revenue and expenditures associated with the District's self-insured group health and life insurance program and casualty insurance programs.

The premium revenue in the Health & Life Insurance Trust Fund is from Board contributions for employee coverage, deductions for dependent coverage, and contributions by retirees for post-employment coverage. The expenditures of this fund are for claims payments, insurance premiums, and professional/technical services.

The District maintains a stand-alone insurance program for workers compensation and property casualty. The District is also self-insured for auto and general liability risk. All of these are accounted for in a separate casualty internal service fund.
